

Seventh List Of Photographs Now Ready to be Called for At Taylor's Photograph Studio, 15th and G Streets.

Look for the number on your ticket and call and get your picture, if the number is published here. Don't come until your number is published to save confusion.

Table with 4 columns of numbers: 9 10 13 15, 46 47 68 83, 90 97 102 108, 112 116 125 137, 141 158 165 176, 182 183 189 190, 200 238 274 286, 296 302 320 377, 393 498 618 686, 706 710 791 843, 901 910 925 928, 933 934 937 947, 948 965 980 984, 993 1006 1009 1012, 1014 1029 1033 1036, 1092 1102 1103 1114, 1115 1125 1128 1130, 1138 1145 1148 1149, 1168 1169 1179 1186, 1203 1204 1213 1216, 1228 1245 1246 1249, 1250 1256 1259 1260, 1262 1264 1265 1274, 1276 1277 1278 1280, 1284 1289 1291 1293, 1294 1296 1297 1302, 1306 1313 1321 1323, 1326 1331 1334 1339, 1353 1357 1358 1361, 1366 1367 1369 1376, 1388 1391 1406 1407, 1421 1426 1428 1431, 1436 1437 1447 1455, 1456 1461 1464 1468, 1469 1477 1484 1489, 1493 1498 1501 1501, 1522 1538 1545 1570, 1572 1574 1575 1583, 1593 1594 1597 1601, 1611 1613 1624 1627, 1628 1638 1674 1682, 1690 1703 1720 1722, 1726 1735 1743 1753, 1754 1756 1767 1768, 1769 1784 1786 1787, 1790 1812 1819 1826, 1828 1834 1835 1837, 1842 1843 1848 1849, 1855 1857 1858 1868, 1873 1882 1885 1888, 1891 1905 1921 1922, 1925 1927 1970 1983, 1988 2001 2002 2008, 2009 2019 2025 2031, 2035 2038 2045 2053, 2067 2113 2133 2146, 2149 2198 2293 2320, 2335 2392 2396 2401, 2404 2419 2424 2461, 2463 2555 2665 2827, 8620 5423 8325

WATER METERS ORDERED

Commissioners Decide to Use Them for Large Consumers.

WILL BEGIN ON THURSDAY

Rate to be Charged is Three Cents Per Thousand Gallons and Minimum Charge of Ten Dollars Per Annum.

The much-delayed question of water-rates for manufacturing establishments, hotels, livery-stables and other places using large quantities of water, has been finally settled by the Commissioners.

1. In compliance with the requirements of section 24, chapter 68, C. S. D. C., the supply of water to all manufacturing establishments, hotels, livery stables and other places requiring a large quantity of water shall be metered on and after July 1, 1895.

2. Each water meter shall be of a make which has been approved by the Engineer Commissioner, and before being placed shall be tested in the presence of the owner's name and the location of the premises where the meter is to be used.

3. Consumers are required to keep their meters and appurtenances in repair and to protect them against frost and injury of any kind at their own expense.

4. All meters and appurtenances shall be placed at the consumer's expense and under the supervision and to the satisfaction of the Engineer Commissioner, or such person as he may designate, so that they can be easily examined and read.

5. Registered plumbers of the District of Columbia and employees of the water department are the only persons authorized to make connection with water mains and to place or remove water meters.

6. If the consumer shall so desire and shall deposit the estimated cost the water department will supply and place the meter.

7. Each water meter will be provided with a by-pass and a stop-cock which will be placed on the service pipe between the meter and the main.

8. If placed on a pipe leading to a steam boiler or hot water boiler, or in any position where it may be exposed to a back pressure of steam or hot water, the water meter must be protected by a check valve set between the meter and the vessel it supplies.

9. Each water meter will be provided with a fish and sediment trap.

10. Before setting the water meter, the service pipe leading to it must be well blown out in order to remove any accumulation of sediment.

11. The use of red lead in making joints in pipes connected with water meters is prohibited.

12. No meter will be placed or maintained within five feet of any sink, cesspool, manure heap, or pit, or in any place which is in or near the presence of fifth or other nuisance.

13. No water from the mains shall be introduced or used on premises supplied through water meters, excepting that which passes through the meter.

14. Water meters and appurtenances shall not be removed, repaired, or in any manner tampered with excepting upon a permit from the water department, and whenever a meter is removed from any cause, the Engineer Commissioner may require another to be put in its place.

15. The Engineer Commissioner may at any time require any meter to be removed and sent to the U street pumping station for inspection and test. He may require that any meter shall be repaired, and if in his judgment a meter is deemed unfit for further service, he may require it to be replaced by a new meter.

16. Free access to all premises supplied or to be supplied with water by meters shall be granted at all proper times to such inspectors or other person or persons as the Engineer Commissioner may employ for the purpose of erecting, repairing, removing, inspecting or examining meters.

17. In case of violation of any of these requirements and regulations, or of denial of free access to premises to inspectors or other persons entitled thereto, or of tampering or interfering in any way with water meters or their appurtenances, the supply of water will be stopped, nor will the supply be restored for the use of that consumer excepting upon payment of \$2.00 to cover the expense of shutting off and turning on the water together with the cost of the expense of any work done by the water department in cutting the streets for the purpose of shutting off and restoring the flow of water.

18. In case of deficient supply through water meters of any other cause for complaint, report should be made to the water department that the difficulty may be investigated and corrected.

19. Meters will be read monthly and at such other time, as the Engineer Commissioner may determine. Bills will be rendered quarterly and payment will be required within ten days from rendering of bill. If bills are not paid within the prescribed time the supply of water will be stopped and will be restored for the use of that consumer only upon payment of the amount due and the penalties prescribed in Section 17.

20. Where a meter fails to register correctly or bears evidence of having been tampered with, a charge will be made according to the regular schedule rates for the premises or for an average consumption, as the Engineer Commissioner may determine.

THE PUBLIC

Deeply Interested in the Work of Dr. Walker.

Mr. S. M. Russell, of this city, was for years afflicted with contusions, sprains, rheumatism and nervous debility. He trembled and had a tingling sensation along the vertebrae. His head ached. He was treated by many doctors, but none cured him until Dr. Walker took his case. Now he is well.

Young or middle-aged men suffering from the effects of their own follies, vices or excesses, or men contemplating marriage who are conscious of any impediment or disqualification, or those who feel their youthful power and vigor declining, should consult Dr. Walker, who has been the means of restoring hundreds of such unfortunates to health, strength and happiness.

His well-known sanitarium at 1411 Pennsylvania avenue, adjoining Willard's Hotel, is open daily for consultation and treatment. Office hours, 10 a. m. to 5 p. m.; Wednesday and Saturday evenings, 7 to 8; Sundays, 10 to 12.

21. The rate to be charged for water supplied by meters shall be three cents per 1,000 gallons.

22. A minimum rate of \$10 per annum will be charged against all consumers supplied with water by meters.

Y. M. C. A.'S NEW QUARTERS

Apartments Secured for a Year in the Lenman Building.

Three Rooms, One of Which Will be Used for Reading and Another for Amusement.

Permanent headquarters for probably a year have been rented by Secretary Pugh for the Young Men's Christian Association. The new base of operations is in the Lenman building, 1425 New York avenue.

Mr. Pugh has secured a suite of three rooms on the second floor, the larger of which is 18x36, being the room occupied by the last inaugural committee. This compartment contained yesterday only a chair and a desk, but they were both new and handsome, having been purchased by the secretary yesterday.

The next room is of smaller dimensions, and the third room is about of equal size with the front room. The middle room will be used as the office of the association. The rear room will be used as an amusement hall and will be supplied with tables for checkers and chess.

The fourth room will be equipped as a reading hall.

While Mr. Pugh is making arrangements for the furniture it is understood that donations of such articles will be gratefully received.

In a day or so the Y. M. C. A. sign and banner will be hung on the outer wall. The rooms are quite conveniently located and are in the neighborhood desired.

The insurance agents are busy making notes of the wreck and the appraisal will soon be in order and also a settlement.

There will be ample room for the Literary Society gatherings, and the monthly meetings. The other meetings, especially the 4:30 p. m. Sunday gatherings, will be had at Foundry Church.

Mr. Pugh said yesterday it is impossible to provide for the two great departments, the educational and the athletic. Rooms for the educational work would cost not less than \$2,000 a year, and the athletic, which would be resumed in October, would cost \$2,500 a year. What is saved in this direction may, therefore, be applied to the building fund.

An additional impulse to the present boom for the building is given by the fact that the meeting of business men, which it is proposed to call for to-morrow or next day. This meeting, it is hoped, will be well attended by influential men. Addresses will be made and the situation discussed from the point of view of a restoration of the Y. M. C. A. at an early date is practicable.

It appears from the records which Mr. Pugh has saved that in the comparatively small town of the United States the Y. M. C. A. buildings have a value of about \$50,000, while in those which are situated in Philadelphia, the educational and athletic buildings compared with the old old establishment.

Y. M. C. A. work is highly appreciated everywhere and the association in all other cities is regarded really as a municipal institution. The associations of the larger cities are in the habit of raising from \$150,000 to \$400,000 whenever such sums were needed to make the establishment worthy of the city. Mr. Pugh gave an address yesterday in which the citizens of Minneapolis subscribed nearly \$100,000 at a public meeting for the building there, which cost about \$160,000.

Meeting of Colored Engineers. The regular meeting of Douglas's Assembly of Steam Engineers, No. 1149, Knights of Labor, was held Sunday evening in their hall, 609 F street, and was well attended.

The report of committees on labor day celebration were taken up and the assembly decided that the members should turn out with blue suits and black silk caps. It was also decided to have a grand parade on the night of labor day in the Grand Army Hall on Pennsylvania avenue. It was further stated at the meeting that three of the best known orators of the country had promised to address the meeting on the subject of labor organizations and engineers.

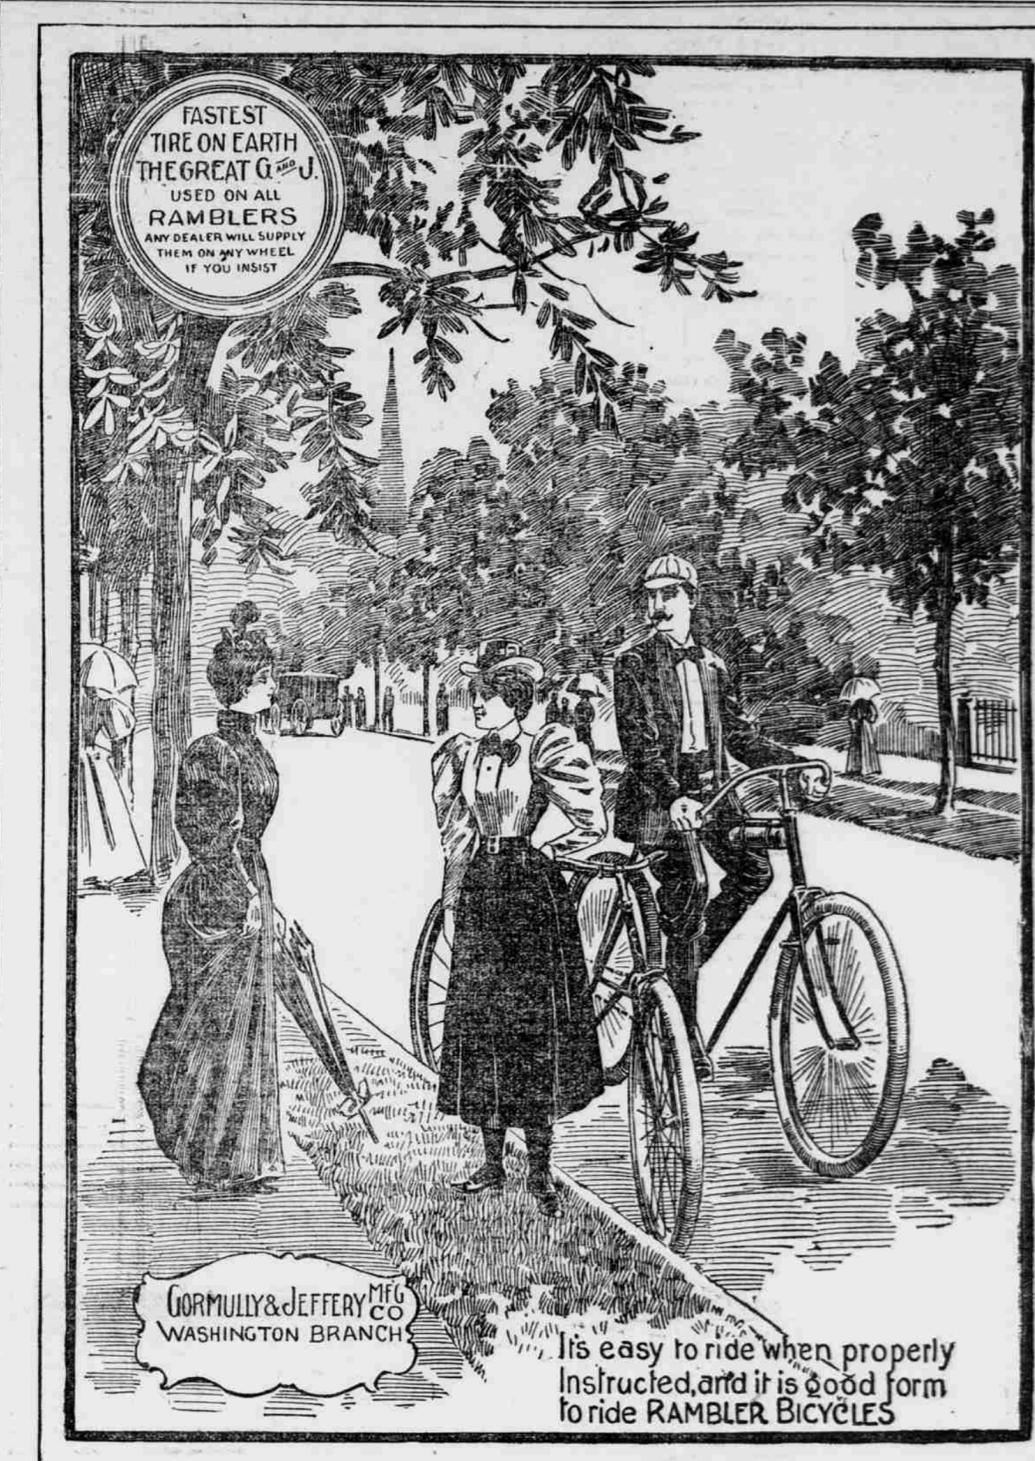

Stump Fire Victim Suing. Arthur Christie Evans, who jumped from the fifth story of the Stumph Mattress factory on Massachusetts avenue, at the time of the fire on September 17, last, has brought suit against the Stumph Brothers for \$20,000, for the injuries he sustained.

As a result of the leap he claims that he was personally injured about the back and was also injured on the hand, arm and wrist and internally. As in the other cases against these defendants the bill of particulars in this case sets forth the fact that the building was without the fire escapes required by law.

Judgment Creditor's Suit. George C. Hutchinson yesterday brought suit against G. Hutchins and others, for the recovery of a judgment creditor's bill of \$292.23. The complaint asks that the equitable interest held by the defendants in the property known as lots 12 and 13, block 6, White Haven, be sold and the proceeds be devoted to liquidating the debt.

Purcellville Wash Meeting, July 29th to 31st Inclusive, and August 1st to 4th Inclusive. On the above dates the Southern Railway will sell tickets from Washington to intermediate stations to Purcellville and return at one fare for the round trip. Good for return until August 5, inclusive, and in addition to its regular train service, on July 31, August 1 and 4, a special train will be operated, leaving Washington 7:25 a. m., arriving at Purcellville 10 a. m., returning to Washington 6:05 p. m., and arriving at Washington 8:30 p. m.

The train leaving Washington 6:25 p. m. for Herndon, will be extended to run through to Purcellville on August 2d, 3d and 4th, leaving Purcellville after the night meeting and running back as far as Herndon.

"The Evening Spin on Massachusetts Avenue."

VOICES NOT WHEELS.

F. W. Dettmar, a German Carpenter, hears the former in his hearing. Frederick W. Dettmar, who says he came to this country from North Germany thirty-one years ago from the city Doretta, walked into police headquarters yesterday and gave the officials there the impression that he was crazy.

He said he wanted to send a telegram to Philadelphia to have a man named Badenoch hanged. He said he could hear voices through the air by a sort of telepathy and unless this man was hanged he would come here and destroy this city.

The report of committees on labor day celebration were taken up and the assembly decided that the members should turn out with blue suits and black silk caps. It was also decided to have a grand parade on the night of labor day in the Grand Army Hall on Pennsylvania avenue. It was further stated at the meeting that three of the best known orators of the country had promised to address the meeting on the subject of labor organizations and engineers.

ALEXANDRIA HAPPENINGS.

The State summer normal school, which has been in session here since early in this month, will close its session to-morrow.

Another scow load of Washington garbage was anchored in the river off this city on Saturday night last, but as the wind blew from the west, its odor did not reach this city and its presence was not known until after it had been taken into the Maryland shore.

Messrs. Michael Dunn and William Richardson, employees of the Southern Railway shops, had their fingers partially mashed by getting their hands under an engine wheel they were trying to lift.

The contract for the new bakery of the George R. Hill Company was let to-day to Mr. Thomas H. Nelson, of this city, the price for the work being \$1,200. The new building will be 92x100 feet, and is to be ready for occupancy within fourteen weeks.

Mrs. Thomas L. Rishell, a well known young married lady of this city, in coming down the stairs at her home, No. 119 South St. Asaph street, to-day, slipped and fell the entire flight. She was picked up unconscious and her condition is regarded by her physician, Dr. William M. Smith, as extremely critical.

Lewis Carrington, colored, is locked up in the police station on a warrant sworn out by Catherine Carrington, charged with having assaulted and beaten her. It is said that Carrington, after knocking the woman down, kicked her. She was quite painfully hurt.

Mr. John A. Dixon, who has been ill for some months past, is now reported in a very critical condition.

The Washington Ice Manufacturing Company held a meeting to-day in the office of Capt. K. Krumpel, on King street, and completed its organization by installing the officers named in the charter, as required under the laws of Virginia.

Capt. William Street, overseer of the pool, who fell down the stairs at his home, South Fairfax street, on Friday, and broke his wrist, is said to be doing well.

A number of Alexandrians are wanted in Prince George's county, Maryland, for witnessing a prize fight there some weeks ago. The sheriff was in this city to-day trying to get some information but was unsuccessful.

The congregation of the M. E. Church South will not begin the building of their church until the \$1,800 wanted for the new structure has been subscribed.

Tried for Keeping Unlicensed Bar. Two cases of unlicensed bars were tried by Prosecuting Attorney Pugh before Judge Scott yesterday in the police court. The first case was that of Laura A. Fryor, whose place in South Washington was raided several days ago by Sergeant Daley and Police Officer Knapp. The defendant demanded a jury trial and the case went over. William Bryant was also arraigned on a similar charge. Four witnesses testified to having bought and consumed liquor on his premises, and Judge Scott held him guilty and imposed a fine of \$250, or sixty days in jail. Bryant was committed in default of the fine.

FINANCIAL.

Workingmen and others whose occupations prevent them from making deposits during regular banking hours will find it convenient to visit the Union Savings Bank, 1222 F St. N. W., which is open EVERY SATURDAY NIGHT between the hours of 6 and 8. Four per cent. interest on savings accounts.

American Security and Trust Co., 1405 G St. Capital (paid in).....\$1,370,000 Surplus..... 920,000

This company has money to loan on real estate and collateral security at regular rates. American Security & Trust Co., 1405 G St.
