RECORDS WERE NOT BROKEN

The World's Record Running Time Equalled by Wetters, but Crum Was Off Color—Tipperary Man Did Splendid Weight and Hammer Throwing. Sweeney Won the High Jump.

New York, Sept. 14.—Throughout the United States all athletes were watching closely the results in the American Athletic Union championship events on Manhattan field today, to find that records would be broken, but they were doomed to disappointment, as only two records were equalled during the afternoon.

The international games which will take place next Saturday between the representatives of the London Athletic Club and those chosen by the New York Athletic Club have put the athletic cranks on edge to get a possible clue to the probabilities.

Wetters equalled the world's record in the 220 yards, and also distinguished himself by beating out the Western crack, Crum, in the final of the 100 yards dash, with a fifth of a record up his sleeve.

The 220 yards hurdle race was run in two real heats and a final. Only won the first heat from Cohen in 28 1/2 seconds.

In his final effort he succeeded in covering the distance, after a bad fall, over the next to last hurdle, in 26 3/5 seconds, beating Cohen, of New Jersey, by three yards in easy fashion.

J. S. Mitchell disappointed a great crowd who succumbed in putting the sixteen-pound shot. Hickok, of Yale, pushed the sphere 43 feet, with a time of 1:12 1/2.

The 1600 yard race was won by Sweeney, of the Yale team, in 1:12 1/2. He finished the race in 1:12 1/2.

The half-mile race was a gift for Charles Kilpatrick, who had no difficulty in beating out Hippie and Remington.

In the 440 yards run T. Burke, of Boston, captured the honors, beating out the Yale man, who finished third, thirteen seconds behind the second man.

The 100 yard race was won by Burke, of Boston, in 1:12 1/2. He finished the race in 1:12 1/2.

The 200 yard race was won by Burke, of Boston, in 1:12 1/2. He finished the race in 1:12 1/2.

The 400 yard race was won by Burke, of Boston, in 1:12 1/2. He finished the race in 1:12 1/2.

The 800 yard race was won by Burke, of Boston, in 1:12 1/2. He finished the race in 1:12 1/2.

MR. MORA IS PAID AT LAST

Spain Gives Up \$1,449,000 for Damages to His Property.

Temporary Restraining Order Did Not Prevent Acting Secretary Adoe From Transferring the Draft.

The Mora claim was paid shortly after 12 o'clock yesterday by Senator DeLoey of Iowa, the Spanish minister to Washington, handing to Acting Secretary Adoe a draft on the Spanish fiscal agent at London for \$1,449,000 in gold.

Antonio Maximo Mora, a feeble man, eighty-seven years of age, who has devoted nearly a quarter of a century to attempting the collection of the claims of the Spanish government for the destruction of his property in Cuba, Friday night arrived in the city and is now the guest of Dr. Jose L. Rodriguez, at No. 1340 Vermont avenue.

Mr. Mora expects to remain in the city several days and will probably devote a portion of his time to selecting a suitable residence here in which to spend his remaining years.

Being a native Cuban he finds the climate of New York too rigorous and has long contemplated locating in Washington.

Neither Mr. Mora nor any of his attorneys were present yesterday when the Spanish minister transferred to Acting Secretary Adoe the amount agreed upon as constituting final settlement.

Mr. Kennedy, however, holds that no other assignments can be affected except those made by Dr. Dexter, against whom suit is brought by Mrs. Frazer.

Secretary Olney is not expected to return until a week from this time, and in the meantime Mr. Adoe, as Acting Secretary of State, will have replied on next Wednesday as to the temporary injunction, and will take some time to arrange the assignments.

There was no ceremony about the paying of the Mora claim. Senator DeLoey appeared at the State Department a few minutes after noon.

He handed to Mr. Adoe a draft, signed by himself, on the London financial agent of the Spanish government, for \$1,449,000, or 1,500,000 Spanish pesetas, and Mr. Adoe delivered in return a formal receipt for the amount signed by himself as Acting Secretary of State.

What steps will be taken to collect the amount of the draft, have not been determined. Mr. Adoe has left that to Secretary Olney. There is apparently no hurry in the matter, as it will take some time to arrange the assignments.

Yesterday morning a bill introduced to serve the injunction papers on Mr. Adoe, but as they were directed to Richard Olney, Mr. Adoe refused to accept the service, and, at his suggestion, the bill returned to the court to have the same made returnable on Secretary of State, which would fit Mr. Adoe's present position.

MRS. FRAZER'S STATEMENT. A reporter saw Mrs. Frazer last night and she said:

"I can not consistently permit a statement so grossly misrepresenting the facts as that made by James E. DeLoey of No. 423 C street northwest, in the Saturday morning Times to be accepted by the public in any sense."

"No better estimate of Dr. Dexter's veracity can be given than a simple reference to the wording of his own voluntary affidavit made last December, in the original of which is now on file at the city hall, a copy signed in duplicate at the State Department, and other copies with my attorneys, in which he explicitly states that I accompanied him to the State Department, investigated the Mora claim and accepted the same."

"The amount of the claim, being double the amount of an \$800 obligation, of balance due for purchase of Virginia properties, and guaranteed by him to be so paid in the Mora claim accepted from him at the rate of two for one."

"I have now in my possession an autographic statement from Dr. Dexter, furnished to my former attorney, Mr. George K. French, and which has been seen and examined by The Times representative, where the following words occur: 'This balance of \$826.10 to be paid by an assignment in the Mora claim of double the amount.'"

"Since Dr. Dexter has seen fit to refer to the diamond incident, I will say that I have given him full credit in my general statement of account for all monies advanced me by him; therefore the diamond incident is a purely irrelevant matter, irrelevant to the balance due by Dr. Dexter in the Mora claim."

HIS SON SUSPECTED. Suspected Death Causes Exhumation of a Body.

Vincennes, Ind., Sept. 14.—A sensation was caused last evening in this section by the exhumation of the body of Cornelius Organ, a well-to-do farmer of Allison, Ill., along the river, whose death occurred about three weeks ago.

The body was taken up at the instigation of twenty-four resident petitioners, representing that the deceased came to his death by poisoning.

It is claimed that the deceased displayed symptoms of poison during his last brief illness. The stomach was sent to Indianapolis for analysis.

His only son, aged seventeen, has been suspected of the crime. The father objected to his son's relations with a woman to such an extent that it engendered the hatred of the young man.

Divorce Wanted for Desertion. Bertie S. Conrad yesterday brought suit for divorce against Jeremiah H. Conrad. The two were married at Ellitsburg, Pa., May 7, 1881, by Rev. Horan Conrad. The husband deserted her on April 5, 1890, the wife sued, and has retained away ever since. The three children of the petitioner are in the husband's custody.

Those who contemplate taking in the Atlanta exposition, pleasure seekers to Florida, tourists and sightseers, northward, and westward, would do well to consider the advantages of leaving Washington on the Norfolk and Washington Steamboat Company's steamers, "Norfolk," "Washington," or "Norfolk News."

The ride to Norfolk and Fort Monroe is a most delightful one, the trip giving exquisite views of the famous Potomac River scenery by moonlight. The boats are fitted up in the finest manner possible, and every thing conducive to ease and comfort can be found on board. Connections are made at Norfolk with all railroad and steamship lines for points all over the country, the trip to that city by water nearly always being the most comfortable and most economical of continuous railroad traveling. Steamers leave every evening at 7 o'clock.

THEY KNOW A GOOD THING

Four Men Pulling Hard for the Fish Commission.

W. L. MAY LIKELY TO GET IT

Secretary Morton His Active Supporter. Acting Commissioner Gill Says He Never Wanted It—Capt. J. W. Collins Backed by the Big Dealers. Major Ferguson Wants It Badly.

Candidates for the position of Fish Commissioner are moving at a lively rate these September days. One is reported to be on the ocean headed for this city. Another has just come in from a tour on which he has been at work upon the "mud sills" of appointive power; a third has his friends busy close behind the throne, while a fourth has quite fallen out of the race.

The man with the brightest prospects this morning is Hon. W. L. May, fish commissioner of Nebraska, for fifteen years past. He is endorsed by Messrs. Thurston, McKeljohn, and in fact the whole Nebraska delegation, and his interests are in no less hands than Secretary Morton's.

As the Fish Commission may be placed under the Department of Agriculture by the coming Congress it may well be supposed that President Cleveland will give great weight to Secretary Morton's recommendation. It is considered by some that the appointment is as good as made already.

MR. GILL'S SOUR GRAPES. This support of Mr. May by the Secretary of Agriculture is considered sufficient to explain the attitude of Acting Commissioner Herbert A. Gill. Mr. Gill now treats as nonsense the report that he was ever a candidate for the place, but he would be an unusual man, who, coming up in direct line to such a position, did not seek it when open to him. Besides there is plenty of evidence that Mr. Gill has been actively willing to accept the appointment.

But other candidates either are not so well informed as to Mr. May's prospects or feel more confidence in their own strength. Capt. J. W. Collins has just returned from a tour of the great market towns for fish and of the commercial centers of the trade. It is understood that he has pledges of support from many of the men most interested in this great industry, and within a day or two petitions and letters will begin to pour in at Gray Gables asking for his appointment.

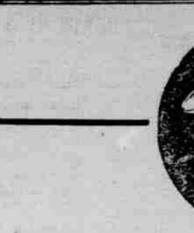

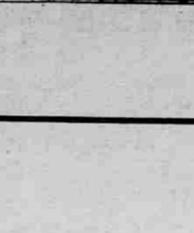

HURRYING ACROSS THE DEEP. Furthermore, it is reported that Maj. T. B. Ferguson, assistant commissioner under the late Prof. Baird, but now United States minister at Stockholm, has set sail for his country, or will in a few days. Several reports that will not help him are in circulation in regard to Maj. Ferguson. One, sent a few days ago, tells of his transactions in regard to Hog Island, in the Susquehanna, near Havre De Grace, Md., on which a United States fish hatchery is located; only all the story is not told.

Maj. Ferguson had the island on his hands, and it was of little service. He rented it to the government for \$1 a year for a time, and when it had been turned to account he raised the rent till it was \$1,200 a year.

Finally, after he had quit the commissioner's employ, he secured the passage of a bill through Congress for the purchase of the island, and sold it to the commission for \$17,000.

A curious fact in this connection is that Hog Island started from the sinking of an old sand scow and was gradually built up by drifts from the river in a few days.

FERGUSON'S FISH BOAT. Another trifling turn made by Major Ferguson was in connection with his boat, the "Lookout." He bought her from the

Maryland Fish Commission when that institution was down at the heel and in need of money for \$2,200.

The United States was then thought to be in need of just such a boat and he loaned her to the government upon condition that she would be taken care of.

She was, in fact, very considerable improvements appear to have been made. One report has it that she was cut in two and lengthened, then split in two and widened and finally her old boilers were removed and a brand new steel set put in. When Maj. Ferguson got her back and had no further use for a ship he sold her for \$23,000.

While a question of successor to Col. McDonald is being actively discussed, his family are quietly leaving for their old home, Berryville, Va. Mrs. McDonald went on Friday and her daughter followed yesterday. Their home here is closed.

SENSATIONAL DIVORCE CASE. Charge of Husband Against Wife is a Counter-Suit.

Utica, N. Y., Sept. 14.—At a special term of court held here to-day, argument was heard by Judge Merwin in the case of Mrs. Flora Hancock Coleman, of New York, who sues for separation from her husband, John Coleman, alleging ill treatment.

Her husband has brought a counter suit, and claims that his wife is an illegitimate child of Philip D. Armour, of Chicago. A sensation was caused in court when the story was told by the lawyers.

To-day's proceedings were to compel Coleman to pay a reasonable amount per week during the pendency of the action. Coleman makes a sweeping denial of the charge of ill treatment.

Love Coming Home. Colon, Colombia, Sept. 14.—A. C. Love, the alleged Calver, Tex., defaulter, whose extradition has been granted by the Colombian authorities, will leave for New York in custody tomorrow on board the steamer Advance.
