

SOUTHERNERS IN BRAZIL.

THE COLONY IN A VERY PROSPEROUS CONDITION.

The Date of the President's Marriage Fixed for June 24--Capital Notes.

WASHINGTON, May 28--Gen. H. Clay Armstrong, Consul-General to Brazil, arrived in Washington this week on his way to his home in Alabama.

He is to a six days' leave of absence. He gives an interesting account of the condition of the colony of Southerners who went to Brazil just after the war. "These people," said Gen. Armstrong, "left the United States immediately after hostilities ceased. They believed that the South could not recover from the effects of the iron heel of war, and that the people who participated in the war would never have any show in the reconstructed Union. I found them 400 miles from Rio Janeiro, in the back country. They have a tract about fifteen miles square. Col. W. H. Harris, who was quite a prominent man in Alabama, is one of the leading men of the colony. I also met Dr. C. C. Crisp, a very accomplished man from Tennessee. I explained to some of the leading men that they had, in my opinion, made a mistake in leaving the United States. They seemed quite well contented, however, and said that they would probably remain.

by request, to-day introduced a bill to pay Mrs. Catherine Odium \$12,000 for houses, stock, household goods, etc., taken from her or destroyed near Memphis, Tenn., by United States troops in 1864. Referred to Committee on Claims. Mrs. Odium is now a resident of this city, and the bill was introduced at the request of her daughter, Mrs. Charlotte Smith.

PROF. A. D. WEAVER of Tennessee and A. C. Richardson of Alabama have been appointed by the President on the Board of Visitors to the Naval Academy at Annapolis.

POSTAL POINTS.

New postmasters and new offices: Susan A. Perkins, Elkhorn, Benton county, Ark.; Jacob Arnold, Post Peter, Searcy county, Ark.; Charles Mason, Anasat, Choctaw county, Ala.; Ben Harris, Balm, Blount county, Ala.; Abner L. Ross, Deer Lodge, Morgan county, Tenn.; Samuel B. Myers, Iby, Putnam county, Tenn.; James M. Glenn, Albia, Jefferson county, Tenn.; James L. Fuller, Gypsy, Carroll county, Tenn.; Archibald F. Cathey, Lowe, Rutherford county, Tenn.

Fourth-class Postmasters Commissioned--Chambers C. McWilliams, York, Ala.; Columbus O. York, Johnsonville, Ark.; George D. Clements, Auerne, Ark.; Wm. G. Smiley, Mouth of St. Francis river, Ark.; Edwin B. Keith, Searcy, Ark.; James B. Ingram, Ingram, Mill, Miss.; Casimer Harvey, Graves, Miss.; Robert L. Edwards, Pleasantville, Tenn.; Wisdom Workman, Workman, Tenn. Office at Grand, Lake county, Miss., changed to Standing Pine.

Star Service Established--Based on E. K. Corney, Tenn., and back, once a week, from July 1st, one year.

Star Service Chances--Fayetteville to Shelbyville, from June 1st, increase of service to three times a week. Tennessee: Greenville to Birds Bridge, from June 10th, extended route from Birds Bridge to Cedar Creek, and there, increasing distance seven miles. Special Service to Beasley, Marshall county, Tenn., discontinued after June 30th. Mail messenger service established--Arkansas: Leona, Decha county, from Steamboat landing, for all service required from April 21st. Through registered packages exchanged daily after May 31st, at Chattanooga and St. Louis, Mo.

The President's Marriage.

WASHINGTON, May 28--President Cleveland will be married at the White House on Wednesday morning, June 24, to Miss Frances Folsom. The recent death of a relative of Miss Folsom has changed the original plans for the wedding, and the invitations will now be limited to a few of the near relatives and the members of the Cabinet. Rev. Dr. Sunderland, of the First Presbyterian Church, Washington, will officiate. The ceremony will be followed by a collation and the wedding in all of its details will be plain and unostentatious.

Incorporation of Trades Unions.

WASHINGTON, May 28--The bill agreed upon by the House Committee on Labor providing for the incorporation of trades unions is the work of Congressman O'Neil. The measure is asked for in the platform of the Knights of Labor and by the federation of the trades unions. An identical bill is upon the Senate calendar awaiting action.

The Blair Bill.

WASHINGTON, May 28--Mr. Daniel [Va.], was introduced at the first call of the committee to make a motion to set aside June 14th, for the consideration of the substitute for the Blair educational bill reported by the committee.

A Case of Offensive Partisanship.

WASHINGTON, May 28--The Senate removed the injunction of secrecy from the report of the Committee on Postoffices and Postroads in the case of Herbert Williams, to be postmaster at North Bend, Neb., vice Chancery W. Hyatt, removed. The committee applied for and received the "papers in the case." "It appears," the committee says, "from the papers and documents in the case, that Mr. Hyatt is the editor and proprietor of a newspaper published at North Bend. Several copies of his newspaper were filed in support of the application for his removal. Editorial articles tending to illustrate the offensive partisanship of the editor, whose removal from office was requested, and is now proposed, were indicated by pen and pencil lines drawn around them. In the issue of the newspaper of June 17, 1885, the committee find an article, indicated as committed, and here copy it at length, namely: "Democrats are not offensive partisans, as the following incident will prove: A little boy and girl playing in the yard. The girl finds an apple under the tree, and, with an exclamation of delight, begins to bite it. 'Hold on,' said the boy; 'throw it away, the colery is come, and if you eat that apple you will be took sick, and you can't talk, and the doctor will come and give you some bad medicine, and then you'll die.' The girl throws the apple down and the boy, snatching it up, begins to eat it. 'Don't,' the girl cries. 'Won't

THE CONDITION OF TRADE.

THE OUTLOOK MORE FAVORABLE AT BUSINESS CENTERS.

A Moderate Gain in the Movement of General Merchandise--The Labor Situation.

New York, May 28--Special telegrams to Bradstreet report a moderate gain in the movement of general merchandise at Pittsburgh, Cincinnati, Milwaukee and St. Louis. This is exclusive of dry goods, and is most marked at St. Louis. The favoring factors are found in the relative freedom from labor disturbances, and in the generally bright current prospects. On the other hand, advices from Chicago, Kansas City, St. Joseph and Nashville, among those which of late announced an augmented volume of business, are of a check in the movement of merchandise, due in part to the near approach of the end of the spring season, and to smaller interior purchases, and of the arrival of the busy season for agriculturists. The seaboard markets reveal no special gain. The outlook is considered more favorable, but the improvement has not come.

Among domestic money markets there is a general demand for funds at Milwaukee, St. Louis, Kansas City, Fort Worth and New Orleans, notably from the country. At Kansas City the request for funds is less than last week. This is true at Chicago also, where the late extra demand is said to have been mainly for speculative purposes. The stock market has tended higher with a bullish spirit and increased speculative activity. Nearly all speculative shares are advancing. St. Paul, Lackawanna and Lake Shore lead in the upward movement, stimulated by manipulations. This was in the face of \$7,000,000 gold shipments, and no material gain in railway earnings, decreased labor troubles, anticipated better business and promises of pool harmony were freely quoted. Government bonds are firm. Investment bonds and shares are sought for. The improved feeling extends to speculative bonds and those of companies long recognized. Money is easy on call at from 1 1/2 to 3 per cent. Commercial paper is scarce and foreign exchange firm.

Cotton goods have improved somewhat in demand at the East, and prices are firm. At the interior there is no gain. Prices are steady. Wool is stronger, but sales are no freer. Southwestern markets are relatively stronger than those at the seaboard, although quotations are 2 1/2c below earlier asking prices. Iron is dull and unchanged for best makes. Steel is firm. Manufactured iron is in light demand, except in special cases. Petroleum is low, laboring under heavy bear pressure. The upward turn was due to heavy short purchases to cover prospective new mines, and hold prices down.

The industrial situation is no worse than a week ago, and the general factory improvement is not so marked. The short hour movement is a practical failure. The wheat outlook favors an excellent crop. Bradstreet's San Francisco advices report 69,000,000 bushels produced on the Pacific coast, with 38,000,000 bushels of barley. The wheat markets are dominated by the bears on heavy stocks, probably good crops and light demand. The Louisiana rice crop promises to be a full one, while the sugar crop in that state looks less favorable than a week ago.

The cotton crop in Texas is in need of rain. It has gained in the Atlantic States since the rains stopped. Increased beet sowing depressed sugar prices, and reduced coffee crop estimates have advanced quotations thereof. Tea stocks are large and prices weaker. Failures for the Week. NEW YORK, May 28--The business failures occurring throughout the country during the last seven days, as reported to R. G. Dun & Co., number for the U. S. States 164 and for Canada 27, as compared with 157 last week and 176 the week previous. The casualties in the Eastern, Southern and Middle States form a slight more than one-half of the total number of failures for the week.

THE GAS QUESTION.

Meeting of the Exchanges Talked Of--Views of Citizens.

The gas question is still a leading topic and it was rumored yesterday that a meeting of the Exchanges would soon be held to take action upon it. A few more views were picked up yesterday and are presented below. W. R. Moore--Mr. Hadden as a business man and as an official cannot afford to sign a contract which will give any corporation a monopoly. It would give rise to the most unfavorable criticism at home and abroad. And admitting that his motives, of whose purity I am convinced, would never be questioned, it would still be very unwise to bind the city down in the manner proposed. Who knows but that within the next twelve months a proposition will be made to light the city at the rate of 50 cents a thousand or less. Memphis is growing, and science is making the most wonderful strides. If the door were left open for competition the old company might do as well, or better, than a new one, but some and hope departs. I don't blame the old company for trying to make such a contract as they propose. It would be a magnificent thing for them, but a bad one for the city.

H. T. Loomis--During the war we paid war prices; afterward, when the Gayso began operations, we got cheaper gas. A condition was effected, and the rate was restored. Lately it has been cut down to 32, and if the price is raised again at any time to a figure we may consider exorbitant we have a check upon the company in the way of coal. The tearing up of the streets is thing to be avoided. It is unhealthful, and, after all, might result in an increased price to consumers should there be a plant, as there is almost sure to be. My idea would be to make a contract at a reasonable price for five or ten years, but I am utterly opposed to anything like thirty or sixty years.

A. B. Leasing--I would be opposed to the tearing up of the streets unless the rate was restored. Lately it has been cut down to 32, and if the price is raised again at any time to a figure we may consider exorbitant we have a check upon the company in the way of coal. The tearing up of the streets is thing to be avoided. It is unhealthful, and, after all, might result in an increased price to consumers should there be a plant, as there is almost sure to be. My idea would be to make a contract at a reasonable price for five or ten years, but I am utterly opposed to anything like thirty or sixty years.

Severe Storms in Michigan. TAPER, MICH., May 28--At about midnight last night a whirlwind of terrific severity, accompanied by thunder, lightning, rain and hail, visited this vicinity, unroofing barns, twisting off signs and awnings, breaking glass and blowing down huge trees. The inhabitants were much alarmed, many taking their children with them and repairing to the cellars for safety. Much damage was done to property, but there is no loss of life yet reported.

Have Used Tongaine in neuralgia and rheumatism, and it has acted like a charm; it is certainly a specific in that class of disease. FRANK O. YOUNG, M.D., Lexington, Ky.
