

PROF. FISK, a witty Chicago theologian, in boasting to the Boston brethren of the go-ahead-ness of his town, told the story of an Irish physician, who, making a speech in the country when slightly under the influence of evil spirits, said: "We have been lying all along about the growth of Chicago, but Chicago has got ahead of our lying."

A DISPATCH from Hunter's Point, Long Island, says that much excitement prevails in political circles in Queens county because of the announcement that Ex-Congressman James W. Covert had consented to enter the contest for the nomination for Congress against Perry Belmont, who it was believed would have a walk over. Mr. Covert has written a letter consenting to the use of his name in the convention.

THE Democratic candidates for the Legislature now know who their Republican opponents are. The convention of that party assembled at the Exposition Building yesterday nominated a ticket, only two of the nominees on which are known to the public—these are W. J. Smith and T. A. Hamilton. The rest are new and untried men. It is an easy ticket to beat, but the Democrats should not on that account rest on their oars. They should work continuously and persistently until the day of election, and try for as large a majority as was ever cast in Shelby county.

THE gubernatorial candidates are working this way very rapidly, and while making a very decorous and dignified canvass, that has only been broken into once by anything like temper, are everywhere leaving an impression of necessity for the continuance of Democratic government in Tennessee. "Bob" beats "All" every day they speak. He is always in good humor, and knows how to preserve that most winning of all human characteristics and turn it to good account, besides which he is very prompt in defense of his party principles at all points. "Bob" is a hustler, a man of the people, and is sure of election, and he is certain of a warm reception from the Democrats of Memphis next Tuesday.

IT will be a gain for the Democratic party if the Cleveland administration shall succeed in making a new navy, and one worthy the dignity and strength of the republic. Hitherto the army has been the pet of Congress and the navy has been neglected. As the time approaches when the land service may safely be reduced to ten thousand men, the navy ought to become the peculiar care of the national legislature and should within the next ten years be brought to the perfection that is boasted by England, Italy and France. We should lead upon the seas everywhere, and make ourselves respected as first among the maritime powers of the world. Reduce the useless army, disband its regiments, pension the surplus officers, and increase the navy till in first class ships and men it is equal to those of the most favored nations of Europe.

NOTWITHSTANDING the statements of Mr. Proctor, the renowned astronomer, and other scientists that Wiggins is a charlatan and a humbug, wholly and altogether without foundation for his prediction, the people in the country lying between the thirty-third parallel and the Atlantic coast are very shaky and are likely to grow more so until after the 20th. There seems to be a general apprehension of sweeping and dire disaster which receives some warrant in the almost continuous shocks of earthquake at Charleston and vicinity, one of which yesterday afternoon occasioned a momentary panic. Wiggins seems to have the ear of the people, who, with their known tendency toward the marvelous, prefer the excitement resulting from his prognostication to a sense of security, such as Mr. Proctor's assurances, elsewhere published, cannot fail to bring to the more thoughtful. Wiggins, in the popular mind, has not yet been downed.

THE colored people of Memphis yesterday celebrated their emancipation from slavery by a military parade and competitive drill, which attracted several train loads of excursionists from the surrounding States. In holiday attire one fellow citizen of African descent took possession of the principal highways, the Square and the grounds of the Federal building fronting the river, and in the afternoon they poured for an hour or more by street cars out to the Citizens' Baseball Park, where the drill took place. At night other forms of amusement were provided, and the people who, when Cleveland was elected, were made to believe they would again be made slaves, enjoyed themselves to the top of their bent and so to their hearts content. There were none to gain them or to make them afraid. The day was fair and bright, though rather warm in the sun, but this heat was tempered by a cooling breeze that as night drew on increased to a storm, accompanied by a drenching rain. This, though it may have dampened the ardor of the jubilee singers, did not prevent the great mass from rejoicing with exceeding great joy that they are free and free citizens of the great republic.

WHAT THE CABLE SAYS

OF AFFAIRS IN GREAT BRITAIN AND ON THE CONTINENT.

The Attitude of England and Austria Said to Endanger the Peace of Europe—Notes.

LONDON, September 28.—The Belfast Riot Commission will commence to sit on October 4th. Eight moonlighters have been arrested at Curran's, near Killarney, for carrying off a threshing machine from a farmer's premises. More Rioting at Belfast. BELFAST, September 27.—Soon after midnight yesterday morning a crowd assembled and stoned the police in the Shank Hill district. The police were reinforced and soon dispersed the mob. The attack upon the police was subsequently renewed and the police fired upon the rioters. A young man named David Moore was shot through the lung and was conveyed to the hospital in a dying condition. Twelve constables were seriously wounded with stones. Many arrests were made.

Mrs. Parnell in England. LONDON, September 27.—Mrs. Parnell arrived here on Saturday. She was met on board the steamer by Mr. King, and on landing was driven to the Northwestern Hotel. Mr. King is the Liverpool agent of the Irish League. In an interview today she said she felt fully recovered from the fatigue of her journey from the United States, so much so, in fact, that she had arranged to attend the meeting in favor of Father Sheehy. The lady added: "I will go to Dublin tomorrow. I am not certain that I shall ever return to the United States. In view of my advanced years, and the state of my health, I prefer remaining in Ireland. I feel assured of the success of my son's movement if the people of Ireland are prudent and patient. If they commit outrages they will only play into their enemies' hands."

Arkansas's Cotton Crop. LITTLE ROCK, ARK., September 27.—Notwithstanding the general estimate that the present cotton season will yield 750,000 bales to the State, the crop is most decidedly backward in coming in. The same may be said of other cotton shipping points. Considerable of the staple reaching this market is of inferior quality, and middling fair, but our farming classes are apprehensive for the crop yet ungathered. The temperature has fallen, and a general rain has prevailed throughout this section yesterday and today, and from the looks of the clouds tonight may be expected before we have fair weather. This city handled 75,000 of last season's crop, and is now prepared to give attention to fully this amount.

THE PEACE OF EUROPE ENDANGERED. CONSTANTINOPLE, September 27.—Turkey's agents abroad report that the peace of Europe is endangered by the present temper of the English and Austrian Cabinets against Russia. The Turkish War Department contemplates equipping and drilling 60,000 Kurdish horsemen in the same manner that the Russian Cossacks are equipped and drilled.

Eight Killed by the Lochfoyneside Explosion. GLASGOW, September 27.—Another death occurred as a result of the Lochfoyneside quarry explosion yesterday, making a total of eight victims. It is estimated that sixty persons were temporarily overcome by coke damp. Many had convulsions.

THE 143d BOND CALL Issued Yesterday by Acting Secretary Fairchild.

WASHINGTON, September 27.—The Acting Secretary of the Treasury this afternoon issued the 143d call for the redemption of bonds. The call is for \$15,000,000 of the three per cent. loan of 1882, and notice is given that the principal and accrued interest of the bonds hereinbelow designated will be paid at the Treasury of the United States, in the city of Washington, on the 1st day of November, 1886, and that the interest on said bonds will cease on that day, namely: Three per cent. bonds issued under the act of Congress, approved July 12, 1882, and numbered as follows: \$50, original number 50 to original number 65, both inclusive; \$400, original number 66 to original number 776, both inclusive; \$500, original number 286 to original number 340, both inclusive; \$1,000, original number 2435 to original number 2834, both inclusive; \$10,000, original number 7300 to original number 8310, both inclusive; total, \$15,000,000.

The bonds described above are either bonds of the "original" issue, which have but one serial number at each end, or "substitute" bonds, which are distinguished by the double set of numbers, which are marked plainly "original numbers" and "substitute numbers." All of the bonds of this loan will be called by the original numbers only.

The three months interest due November 1, 1886, on the above described bonds will not be paid by checks and forwarded to the holders of the bonds, but will be paid by the principal, to the holders at the time of presentation.

Parties holding bonds called by this circular can obtain immediate payment with interest to date of presentation by requesting the same in the letter forwarding the bonds for redemption.

SPORTING NEWS. The Brighton Beach Track. BRIGHTON BEACH, N. Y., September 27.—First Race.—One mile. Amber won by half a length; Glendon second. Time—1:46.

Second Race.—Three-fourths of a mile. Rosiere won by a length and a half; Poolbox second, Eager third. Time—1:17.

Third Race.—Seven-eighths of a mile. Commander won by a head; Bogzar's Bush second, Peterburg third. Time—1:20.

Fourth Race.—Selling race, seven furlongs. Cralie won by a head; Lizzie Walton second, Ferg Kyle third. Time—1:30. Certificates paid \$104.50.

Fifth Race.—Mile and an eighth. Won by Florence M. by two lengths; Franz second, Top Sawyer third. Time—1:57.

Sixth Race.—Hurdle race; mile and a quarter. Post won by two lengths; Harry Mana second, Joe Shelby third. Time—2:30.

LAWRENCE FOR ROBERT.

AMORSEBACK PROCESSION GOES OUT TO Receive Him—The Crowd Large, Enthusiastic and Attentive—Result in the Eighth District.

LAWRENCEBURG, TENN., September 27.—The crowd was large, enthusiastic, and remarkably attentive and respectful. All was brought yesterday by the friends from Pulaski to the Motor Hotel here and R. H. Harvey, chairman of the Democratic Executive Committee, went to Pulaski and brought Bob to the Hon. George H. Means's home, where he remained last night and this morning, receiving calls from his friends.

At 10 o'clock today a large procession on horseback went out one mile, equipped with flags and flowers, and escorted Bob to town. All was introduced by N. B. Sims, chairman of the Republican Executive Committee, and he made a powerful speech, arranging facts and impressing his views upon all present in a most masterly style, showing that he is gaining in force and effectiveness with each speech he makes. He left no point untouched, and he carried the audience by storm. Their attention and hearty cheers showed they were satisfied and fully convinced that Bob should and would be elected Governor by an overwhelming majority in November.

To sum up all in a few words, Democracy has met Republicanism here today and victory perches on her banner, and "Our Bob" is the cry of the united Democratic vote of old Lawrence.

THE Result in the Eighth District—The Primaries. JACKSON, TENN., September 27.—The result of last Saturday's primaries in this county and Congressmen's district are as follows: Hayes for Congress. Long for the State Senate, Pearson for floater. Hayes is ahead in this county, but Hurt was instructed for in the Chester fraction for Representative, and Hurt's friends claim that it gives him the nomination. The returns are only partially complete for Congressmen.

BIRMINGHAM, ALA. Attempt to Wreck a Train—The East Tennessee, Virginia and Georgia. BIRMINGHAM, ALA., September 27.—Another ugly attempt at train wrecking was made on the Queen and Crescent railroad last night just before the north-bound passenger train was due. The depot agent, while at supper, was informed by a negro woman that she saw a man put a rail on the track. The agent, sure enough, found the rail on the way to the depot and removed it, and when the train came to a stop the engineer ran over it and it caught in the engine's truck and tore up a considerable stretch of track. The engine was not crippled. The road along there pitches sharply going south, and it is supposed the miscreants who put obstructions on the track tried to plunder the south-bound through going freight train, which was due a little ahead of the passenger, but this time, luckily, late.

The East Tennessee Railway Company had an engineer here from New York several days, ostensibly investigating the chances for a proper terminal arrangement for the line from Talladega. Outside opinion, however, is that the Mobile and West Alabama road, after passing here, will be carried on so as to strike the present main line considerably above Talladega.

The Coroner had a tragedy to deal with this morning, but the police can't find the man on whom his jury fixed the guilt, nor another who is badly wanted for witness if anything more.

Dr. Bull's Cough Syrup is pronounced by thousands superior to all other articles for the cure of coughs, colds and all pulmonary complaints.

Death of an Uncle of the President. BALTIMORE, Md., September 27.—Joseph Neal, a maternal uncle of President Cleveland, died in this city tonight, aged 81 years. His death was caused by exhaustion of the vital forces. Mr. Neal has been a resident of Baltimore all his life, and was for many years in the second hand book business. He was in comfortable circumstances.

Lundborg's perfume, Edenis Lundborg's perfume, Alpine Violet. Lundborg's perfume, Lily of the Valley. Lundborg's perfume, Marchal Nile Rose.

DIED. BIGLEY—Monday morning, September 27, 1886, at residence, No. 205 Union street, E. A. BIGLEY, aged 1 year 11 months and 3 days, daughter of Andrew J. and Ursula K. Bigley. (Funeral) (U.) and Pittsburg (Pa.) newspapers copy.

Funeral will take place this (TUESDAY) afternoon at 3 o'clock from residence. Friends of the family are invited to attend.

RAILROAD ACCIDENT—Murdered His Wife—General News. ABERDEEN, MISS., September 27.—Robert Lagrone, who was killed by the cars in Okolona Saturday evening, was buried in this city yesterday evening.

Dr. J. W. Eckford, who has spent the last five years traveling in Europe, has returned home. Cotton is now coming in quite freely. Mr. C. C. Heisen and family have returned from Chicago and the lake watering places.

Gen. Strong, colored ed., who lives near Strong's, on the Illinois Central railroad, shot his wife and killed her instantly. He was prompted by a fit of jealousy to commit the crime. He made his escape and is still at large.

Our Cotton Exchange has had its annual election of officers, with Gen. W. P. Timberlake as president and Mr. Max Blumenthal as secretary and treasurer.

The City Council is negotiating for the Aberdeen Female College building for the use of the free schools, with Prof. W. D. Willis as principal.

No. 10 insurance has Salvation Oil failed in giving immediate relief from rheumatism or neuralgia.

Apollinaris

"THE QUEEN OF TABLE WATERS." HIGHEST AWARD, LONDON, 1884. ROYAL WARRANT TO H. R. H. THE PRINCE OF WALES.

Apollinaris "THE QUEEN OF TABLE WATERS." "The defective sewerage system of many of our cities and the no-drainage of our larger towns and rural districts are poisoning the very sources of potable water in many instances."

A. Van der Veer, A.M., M.D., President of the Medical Society of the State of New York. February 3, 1886.

"The purity of APOLLINARIS offers the best security against the dangers which are common to most of the ordinary drinking waters."

Apollinaris "THE QUEEN OF TABLE WATERS." "Filly streets may be bad, and defective drainage and sewerage worse, but for the promotion of diseases of the diarrhoeal type there is no agent like the polluted water supply."

A. Van der Veer, A.M., M.D., President of the Medical Society of the State of New York. February 3, 1886.

"The dangerous qualities of contaminated drinking water are not obviated by the addition of wines or spirits."

Medical Officer of Privy Council, England. "Use nothing but Natural Mineral Waters, such as APOLLINARIS, free from all vegetable poisons." Boston Journal.

Apollinaris "THE QUEEN OF TABLE WATERS." "Pure water is even more important than pure milk."

New York Herald. "Water polluted with sewage is poison." New York Times. July 30, 1885.

"APOLLINARIS has steadily increased in popularity and professional esteem as a pure and agreeable Table Water."

British Medical Journal. Apollinaris "THE QUEEN OF TABLE WATERS." "If the inhabitants of great cities could see the filth that is concealed in the water which they use, and trace every drop and particle to its source, disgust and nausea would be sufficient protection."

New York Times. "Pure water is only to be obtained from NATURAL SOURCES." Lancet.

"APOLLINARIS WATER issues from a spring deeply embedded in a rock, and is therefore of ARSO-LUTE ORGANIC PURITY."

Oscar Liebreich, Regius Professor, University of Berlin. Apollinaris "THE QUEEN OF TABLE WATERS."

"No amount of pure ocean air in the lungs can neutralize the bad effects of polluted water in the stomach."

New York Herald. "The only water safe for the traveller to drink is a NATURAL MINERAL WATER."

Sir Henry Thompson, F.R.C.S., London, England. "APOLLINARIS NATURAL MINERAL WATER has acquired a leading place in public esteem throughout the world."

British Medical Journal. Apollinaris "THE QUEEN OF TABLE WATERS."

"APOLLINARIS reigns alone among Natural Dietetic Table Waters. Its numerous competitors appear to have, one after another, died away." British Medical Journal.

"Its purity offers the best security against the dangers which are common to most of the ordinary drinking waters."

London Medical Record. Apollinaris "THE QUEEN OF TABLE WATERS."

HIGHEST AWARD, LONDON, 1884. ROYAL WARRANT TO H. R. H. THE PRINCE OF WALES.

ANNUAL SALE, 10 MILLIONS. Of all Generals, Druggists & Retail, Wholesale, Beware of Imitations.
