THE ATTACK ON THE BASIS.

The Raleigh Star alleges that we have misrepre resented its position on this subject. We have done no such thing. What we have uniformly said with reference to the course of that paper on this subject, is this : Before and ofter the Equal Suffrage Act had received the sanction of the late Assembly, a number of the leaders of the Whig party were pressing an unlimited Convention, with the avowed object-not merely of establishing Equal Suffrage-but for the purpose of changing the basis of representation. After the Equal Suffrage Act had passed, these leaders wrote and published an Address, in which it is distinct. ly declared that they desire the people to consent to an unlimited Convention, in order to give them an opportunity of altering the basis; and these leaders are now engaged in a scheme of agitation with this alteration in view, as their paramount and leading

The Star knows these things to be so; and yet that paper goes for this Convention, and takes this paper to task for opposing it. We have not charged that the whole question open to discussion and agitation. and thus unsettle, and probably destroy, the present compromises of the State Constitution.

But the Star says it is opposed "especially" any attempt to disturb the "Federal basis" of the Commons. That paper, as the advocate of this sectional movement, may well say that. The Western Coun ties already have a majority in the House of Commons, and with this they are content; but those who put forth the Address above alluded to, wish also to obtain the sway in the Senate, and in order to the Senate basis. What does the Star say to that !

It is useless for the Star to attempt to disguise the tact that party, party is at the bottom of its course in this matter; but we are determined that that paper, and every other paper in the State which plays at such a game, shall be thoroughly exposed.

> This is the true course. One of the most effectual checks to Freesoil aggression will be found in the dependence of the South on the South. In the language of Gov. Floyd, of Virginia:

" Show to capital that danger besets its path, and also to obtain the sway in the Senate, and in order to do this, they are now laboring to change and destroy it away. And here lies the only certain hope for the slaves. George Hairston, of Henry, has given most redress of Southern wrongs. Divert them from the channels in which they now flow and you leave New York and the North like the bottom of the sea, which the waters have deserted-dismal and forsaken.'

> A FREE VERSION OF THE BIBLE. The Governor of Texas, in his late proclamation for thanksgiving, gives the following quotation from the Bible, which may be new to some, if not all of our readers :

" In the beautiful and expressive language of the Bible: 'The winter of our discontent' is gone; the rain is over and past; the time of the springing of

our land.' We have heard of a practice which is said to p vail before justices of the peace in the "rural districts," where Bibles are scarce, of swearing witnesses on the next best book to the Bible which is at hand. The recollection of this usage suggests to us the suspicion that Governor Bell has been obliged to promote the works of Shakspeare to the place in his library which the Bible ought to occupy. We commend his case to the Bible Society, as one calling for immediate reijef.

It is shocking to think of the Governor of a sovereign State being in such a destitute condition as to be obliged to eke out a half-remembered sentence from the Scriptures with a soliloguy from the humpbacked and murderous Gloster.

THE FRENCHMAN'S REVENCE. There are but few pleasing reminiscences of the time when business and credit were prostrated by the hurricane which swept over this country in "thirty-seven"-when the banks generally suspended specie payments, and hard cash was a phenomenon. We recollect but one mirth-provoking incident, connected with the great panic, and that was the presentation of a hundred dollar bill at the counter of a city bank by a Frenchman, with a demand for the specie.

> ARREST OF A " WHITE FUGITIVE" FROM ENGLAND. Our city news reporter furnishes the following: " On Saturday, a man by the name of Ernest Moses, German Jew, and also his wife, Sarah Fairbarn, were arrested, charged with stealing gold watches, a silver tea set, silver spoons, ladles, and jewelry, valued in all at several thousand dollars, the property of was forwarded to agents in this city from London, in which the accused is minutely described, and £100 sterling offered for his arrest. Moses was engaged on board the Steamship Empire City as steward. He was accordingly taken into custody, and on his person was found a gold watch corresponding with the one set forth in the advertisement, and in the possession of the wife another watch was found : also several finger rings and other property, said to be the proceeds of the robbery. The accused were conveyed before Justice Osborn, who committed them to the Tombs for a further dealing."

[Moses being a white man, (says the New York Express,) we presume our Abolition friends will make no effort to save him from going back to the Old Bailey. "Union Parties." Mr. Foote speaks of the Union party he is so busy forming under Mr. Clay's auspices, as " composed of all the best men of both the old enes." This reminds us, says the St. Louis Union, of Randolph's account of the "Union party" which was attempted during Thomas Jefferson's administration. After Randolph had fallen out with Jefferson, he was invited to attend a meeting or caucus in Washington, to be composed of the "honest men of all parties." Randolph says he was late in getting to the meeting, and when he got there it was organized with Aaron Burr in the chair!
