OUR COUNTRY. In 1792, the corner stone of our present Capital at Washington, was laid. At that time General Washington, in whose honor the new seat of government was named, officiated. Fifty years afterwards, viz: on the 4th of July, 1851, the corner stone of an extension of the building was laid; and the Secretary of State made an address, in the course of which he presented a sketch of the comparative condition of our country at the two periods.

Then we had thirteen States, now we have thirty-one. Then our whole population was three millions, now it is twenty-three. Then Boston had forty thousand people, now it has one hundred and thirty-six thousand. Philadelphia had fifteen thousand, now it has four hundred and nine thousand. New York had thirty-three thousand, now it has five hundred and fifteen thousand. Then our imports were thirty-one millions, now they are one hundred and seventy-eight millions. The area of our territory was then eight hundred thousand square miles, it is now three million three hundred thousand.

Then we had no railroad, now we have three million five hundred thousand miles of it. Then we had two hundred post offices, now we have twenty-one thousand. Our revenue from postage then was one hundred thousand dollars, now it is five millions. These are only a few facts going to show the rapid growth of our country; and what we and our children have to do to secure the continuance of its prosperity, is to love, fear and obey the God of our fathers; to avoid intemperance, pride, contention and greediness of gain, and cherish in all our hearts a true patriotism, and a just sense of obligation to those that shall come after us.

DELEGATES TO BALTIMORE. The Standard suggests the propriety of the Convention of this State selecting each four delegates to the Baltimore Convention instead of only one as heretofore contemplated. In view of the reasons therefor we most heartily second the suggestion; and we hope it will be acted upon by all the District Conventions yet to meet. The reason is, that when the question was taken. This was refused; when he said that if he had been present he would have voted in the affirmative.

TELEGRAPHED FOR THE STANDARD.

WASHINGTON, April 9, 1852.

In the House of Representatives, yesterday, Mr. Bocock, of Virginia, spoke in favor of the bill providing for more efficient discipline in the Navy; and then Mr. Averett spoke against it. Mr. Chandler for Johnson's homestead bill. Mr. Polk, of Tennessee, then took the floor, and argued to show that the Whigs in Congress from the free States are opposed to the "compromise" measures.

Mr. White of Kentucky, declared Gen. Scott to be against amending the fugitive-slave law; and Mr. Campbell, of Ohio, declared Gen. Scott pledged not to veto a bill repealing or modifying the fugitive slave law.

Nothing of importance in the Senate yesterday.

The Africa has arrived, with latest dates from Liverpool. Cotton was dull, and at one-eighth of a penny decline. Rosin in demand at 3s. 3d. to 3s. 6d. Turpentine scarce, and much wanted. Fine Rosin from 4 to 12 shillings.

Another Awful Steamboat Explosion—A Great Number of Persons either Scalded or Burned to Death.

St. Louis, April 3. The steamer Glenocoe, which arrived this evening about eight o'clock from New Orleans, while making the landing blew up, with a terrible explosion, bursting all her boilers. She had about one hundred and fifty passengers on board at the time, and a great number of whom were killed. The steamers Cataract, Georgia, and Western, which were lying alongside at the time, sustained considerable damage. Several were also killed on board these boats. The number of the killed is not yet ascertained, but it must be very large. The Glenocoe took fire and burnt to the water's edge. Particulars tomorrow.

Terrible Steamboat Explosion—A Large Number of Persons Killed—Instant Sinking of the Vessel, &c.

MADISON, INDIANA, April 3. The steamer Redstone, Captain Tate, hence for Cincinnati, with about seventy persons on board, including the boat's crew, was backing out from Scott's landing, about three miles above Carrollton, at half-past two o'clock this afternoon. The force of the explosion was terrific, and completely shattered the boat, which immediately sunk in twenty feet water. Of the passengers a large proportion are lost, and of the crew only the captain and clerk are saved. The former is severely, if not fatally, injured. Up to seven o'clock this evening fifteen dead bodies had been recovered in a horribly mutilated condition. It is impossible, at present, to give the names of those who were killed.

Wreck of the Steamship Independence.

NEW ORLEANS, April 2. The steamship Louisiana, just arrived, reports that the steamship Independence, bound hence, was wrecked on the bar of Matagorda bay, on the 27th ultimo. The vessel and cargo were lost. The Independence had a large number of passengers, one hundred and fifty of whom were saved; but the following seven were lost in attempting to reach the shore in a boat: Mrs. Monot and three children; Mrs. Lieutenant Jones; Mrs. Hovey; and the chief mate. The mate was drowned in trying to save Mrs. Jones.

Cincinnati Election—The River.

CINCINNATI, April 6. At the municipal election yesterday the whole Democratic ticket was elected. The council are Democratic by 5 to 7 majority. The last council was Whig. The river is rising at the rate of one foot per hour, and the water is already up to the houses west of Main street. A very high flood is apprehended.

Violent Snow Storm.

BOSTON, April 6. This city was visited with a violent snow storm last night, which fell to the depth of a foot. The trains on all the railroads have been detained, and no boats have arrived from New York. To the eastward the storm was very severe.

Not one in ten thinks how close clings old habits and customs; and how very nearly they may make a worshiping deity for every mother's son of us. The papers tell of a very large number of men, women and children, who were engaged in conversational meetings, when engaged in conversation make a noise to which the cackling of a flock of geese is nowhere.

ARRIVAL OF CHINESE AND CHILENS. The foot of California street wharf presents a very lively appearance. The ship Brant came in a few days since, with about three hundred long tailed Celestials, who were engaged in unloading their traps preparatory either to a settlement here or a departure for the mines. They are a very interesting set of men, and are now engaged in conversational meetings, when engaged in conversation make a noise to which the cackling of a flock of geese is nowhere.

A NEW SIDE SADDLE. We have seen a capital article the invention of Disbrow, at his riding school, No. 2, Fourth Avenue, in this city. It is a very perfect saddle for the ladies, by the addition of a new support on the outside of the near crutch, against which the knee of the rider presses. At the same time that part of the saddle which heretofore rested upon the shoulders is cut out, saving the animal from those painful and irritating injuries which are so often the result of the old-fashioned side saddle. This saddle holds the lady firmly in her seat, and she may safely trust herself on a restive horse, gallop, leap fences, and perform other feats which would be attended with some risk to an inexperienced rider occupying the common side-saddle. We are glad to see this invention, and we doubt not that the ladies will hail it with much pleasure.

MARRIED.

On the 31st ult., at the residence of Mr. J. B. Williams, of Warren, by Rev. R. O. Burton, Mr. David Hinton, of Wake, and Miss Mary B. daughter of the late Jonas Carr, of Edgecombe.
