

BOULANGER'S FRIEND
Creates a Decided Uproar in the French Chamber of Deputies.

MINISTER McLANE'S FAREWELL
Strong Evidence Against Mrs. Maybrick in the Poisoning Case.

WORK OF THE PARNELL COMMISSION.
A Very Lively Attack on the Government in the House of Commons.

A Boulanger deputy caused an uproar in the French Chamber of Deputies yesterday by his criticism of the action of the Senate in trying the General. Minister McLane has written a farewell letter to President Carnot. The Paris Exposition was the cause of a lively debate in the House of Commons. Strong evidence has been produced in the Maybrick poisoning trial.

PARIS, May 28.—In the Chamber of Deputies to-day M. Laguerre gave notice that he would interpellate the Government in relation to the delay of the Senate in making a report in the case of General Boulanger. President Melme replied that, while he was desirous to respect the liberty of the tribune, it would be impossible to allow M. Laguerre to make such an interpellation.

The Senate, he said, was entirely independent in this matter, as the issue was of a judicial character. The Chamber had no right of power to interpose. M. Laguerre referred to recent interpellations made in the Chamber concerning the slowness of a certain judicial action. The President of the Senate, while sitting in a case like that of General Boulanger, was similar to an examining judge, and the Government had a right to inform him that the procedure was slow.

ALMOST A THREAT.
If no debate was permitted on his interpellation, public opinion would severely judge Parliamentarism and the Chamber would exhibit a fear of universal suffrage. These remarks caused an uproar. When it subsided M. De Cassagnac declared that M. Melme had taken it upon himself to assume the guardianship of the majority. He asked the Republic to show some decency, and denounced the President's decision as an ignominious mockery of justice.

Here was a renewal of the uproar. M. de Cassagnac, in conclusion, said if the deputies retained any feeling of shame, courage and duty they would vote to allow M. Laguerre to proceed with his interpellation. The Chamber, after passing a vote censuring M. de Cassagnac, proceeded with the order of the day, by a vote of 233 to 190.

HE GETS A LIGHT SENTENCE.
PARIS, May 28.—Perrin, the man who fired a blank cartridge at President Carnot on the eve of the opening of the Exposition, has been sentenced to four months' imprisonment.

THE MARINE KNOCKED OUT.
Thirteen Lively Rounds Fought Between LaBlanche and the Philadelphians.
SAN FRANCISCO, May 28.—The first of a series of contests for the middle-weight championship of America, to be given at the rooms of the California Athletic Club, took place to-night, in a battle between George LaBlanche of Boston, the Marine, and Mike Lucie, of Philadelphia. The fight was to a finish. Marquis of Queensberry rules. The fight was an interesting one from start to finish. LaBlanche had the best of it. In the eighth round he landed the fighting, giving Lucie a right and left hander in the face. Lucie broke ground and LaBlanche landed a heavy right hander, which sent some good blows. Lucie fell, but rose a second before the round closed, dazed with a left hander.

THE MURDER.
Some Very Strong Testimony Introduced Against the Wife of the Dead Man—She Had a Quantity of Poison Around—A Dangerous Letter.

SPECIAL TELEGRAMS TO THE DISPATCH.
LIVERPOOL, May 28.—The inquest over the body of Mr. Maybrick, whose death is supposed to have been caused by poison administered by his wife, was begun to-day. Michael Maybrick, brother of the deceased, testified that he had visited his brother during his illness, and had warned Mrs. Maybrick that he suspected his brother was receiving improper treatment. The wife insisted upon her right to nurse her husband. Witness thereupon summoned two doctors and a new nurse. He also visited a bottle containing arsenic and extract of meat. At a later visit witness found Mrs. Maybrick changing the contents and labels of medicine bottles. He remonstrated with her, and stated to her how she dare do such a thing. She replied that there was sediment in the bottles. Witness again caused a change of nurse to be made. Notwithstanding this, the witness, however, his brother grew worse and died in a short time. He was delirious toward the end. After his death the nurse gave witness a parcel labeled "Arsenic poison for cats." It contained several bottles in which was a white fluid, and from which the labels had been erased. Witness placed the bottles under seal and gave them to the police. Alice Japp, nurse, had charge of the Maybrick children was next examined. She produced a letter which was addressed to a man named Brierly in Liverpool, and which was given to witness to post by Mrs. Maybrick, the prisoner. While on her way to do this witness dropped the letter in the mud. The envelope was sealed and witness placed the letter in the intention of placing it in another envelope.

IN doing this she noticed that the letter contained a number of deafening words. The following sentences particularly attracted her attention: "Dearest, my husband is sick unto death. All depends upon how long his strength holds out. Darling, relieve your mind of all fear of discovery now or in the future. In any case do not leave England until I see you once again."
Witness, instead of posting the letter, gave it to Edwin Maybrick. After Mr. Maybrick died, witness found in the linen closet a chocolate box rolled up in a sheet. The box belonged to Mrs. Maybrick and contained a package of powder labeled poison. Evidence was given to the effect that Mrs. Maybrick bought a quantity of arsenical fly papers and that she apparently tampered with the patient's food and medicine. On one occasion the deceased reproached his wife, saying: "How could you do it." Other witnesses testified to the wife's hatred of the deceased and to her threatening to give it to him for publicly upbraiding her.

Work of the Parnell Commission.
LONDON, May 28.—The Parnell Commission will adjourn on Friday until June 15. Permission has been given to the imprisoned members of Parliament, Messrs. Condon and John O'Connor, to come to London and testify before the commission. Mr. Reid, of counsel for Mr. Parnell produced before the commission to-day the League books, which have been in possession of Mrs. Maloney, Treasurer of the Ladies' Land League in Dublin. He stated that the Times had subpoenaed Mrs. Maloney, and she had procured the books before it had desired to.

Visitors Present at Evictions.
DUBLIN, May 28.—Eight tenants on the Laggan estate were evicted to-day. Many English and American visitors witnessed the work of eviction.

An Apology to France.
LONDON, May 28.—The memorial drawn up by Members of Parliament, relative to the absence of Lord Lytton from the opening ceremonies of the Paris Exposition, have been forwarded to President Carnot. The memorial which expresses regret at the absence of Lord Lytton on the occasion referred to, is signed by 283 members of the House of Commons.

THE PARIS EXPOSITION
Is the Cause of a Lively Debate in the House of Commons.

LONDON, May 28.—In the House of Commons to-night Mr. Edmund Robertson, member for Dundee, moved a resolution of the Foreign Office vote for the purpose of taking the judgment of the House on the absence of Lord Lytton, the British Ambassador at Paris, on the occasion of the opening of the Paris Exhibition. Sir James Ferguson, Under Foreign Secretary, denied that Lord Lytton's absence was due to a prearranged understanding between European governments. It was the opinion of the Government that the country ought not to have anything to do with the celebration of a revolution regarding which political parties in France remained bitterly divided. [Conservative cheers.] "When a nation was unanimous in its rejoicings on the centenary of a great historic event, there could be no impropriety in the Queen's representative being present at the ceremonies commemorating such event. Thus, Lord Beaconsfield attended the British Minister at Washington to take part in the ceremonies that attended the centenary of American independence. The French celebration was in no way analogous to that of the United States. Furthermore, the absence of Lord Lytton had aroused no dissatisfaction in France.

Mr. Gladstone acquitted the Government of acting in concert with other powers in the matter, but he blamed the Ministry for an error of judgment. He thought Lord Lytton should have been present at the opening of the exhibition. After further debate Mr. Robertson's motion was rejected by a vote of 283 to 190.

Flames Destroy Life and Property.
VIENNA, May 28.—A conflagration in the town of Podajice, Galicia, has destroyed 600 houses, a church and a synagogue, and caused the loss of many lives. Twelve corpses have been extricated from the ruins.

He Gets a Light Sentence.
PARIS, May 28.—Perrin, the man who fired a blank cartridge at President Carnot on the eve of the opening of the Exposition, has been sentenced to four months' imprisonment.

THE MARINE KNOCKED OUT.
Thirteen Lively Rounds Fought Between LaBlanche and the Philadelphians.
SAN FRANCISCO, May 28.—The first of a series of contests for the middle-weight championship of America, to be given at the rooms of the California Athletic Club, took place to-night, in a battle between George LaBlanche of Boston, the Marine, and Mike Lucie, of Philadelphia. A HOLIDAY FOR CARRIERS.
Only One Delivery Will be Made by Letter Carriers on Memorial Day.
The following notice has been sent out by the postoffice authorities: "Carriers will make one delivery on Thursday morning (Memorial Day) after the arrival of the Eastern mail and will make regular Sunday collections. Carriers' window will be open from 6:30 to 10:30 A. M. and from 4 to 5 P. M. General delivery from 7 to 10:30 A. M.; stamp window from 7 A. M. to 12:30 P. M.; money order and register will be closed all day."

Choice of Silver.
IN the purchase of silver, taste strongly favors the selection of modern ware in the early English designs. The best specimens are reproductions, which, although of recent date, preserve accurately and faithfully the spirit of former centuries.

Notable among our extensive collection of rare designs in silver are copies of very old and beautiful salad bowls, strongly realistic in treatment, and a curiosity in the form of a fantastic Arabic ewer, very suggestive in its oriental character.

Our silver is packed carefully and sent to intending purchasers in any part of the United States on examination, reference being given.

DR. WOODS,
Specialist in the Cure of Rupture and Chronic Diseases—Office at Hotel Allegheny, Penn Avenue and Sixth Street, Pittsburgh, Pa.

Dr. Woods has had a large practice in this branch of his profession without any public advertising, but as many who might have been useful and ornate members of society, fell untimely graves, whom he might have cured by reasonable treatment and given them "length of days," he has long felt it a duty he owes to the afflicted to step aside from the restrictions of so-called medical etiquette and announce to the public that he gives special attention to a neglected class of diseases.

Many years ago Dr. Woods went through the prescribed course of medical study with his fellow students received his diploma and took an equal stand in the profession with the best of his medical brethren; yet he is fully convinced from long-continued observation, that being a graduate merely gives one no assurance or guarantee of a physician's skill. His successful success in practice is the proper gauge by which to judge of his merits.

On this point of view, Dr. Woods has stood and the elevated position he occupies in the medical profession makes it clear that his success has been unusual. Professionally Dr. Woods gives on his own course and resources, and has achieved a remarkable degree of perfection in diagnosis, which enables him, as a glance, to comprehend the complications which attend the most delusory types of disease. He has given years of devoted study to his practice and effected such marvelous cures that the greatest astonishment has been caused throughout the country. His services, therefore, are not to be measured by money; and those who are afflicted are false to themselves not to avail themselves of the full of his wonderfully successful modern method of treatment.

Dr. Woods' treatment being mild and safe, his patients are in no case subjected to painful or unpleasant operations, and in the majority of instances he can cure the course of treatment directed at their homes and without interruption to their usual vocations. When possible the doctor prefers to see his patients; but when this is impossible, his successful system of treatment by correspondence enables the afflicted in all parts of the world to avail themselves of the benefit of his skill at a very small cost. Send 4 cents in stamps for question list. All communications strictly confidential. No charge for advice. Examinations are also free to those who need treatment.

A PHENOMENAL HIT.
A Spontaneous Uprising of Purchasers.

KAUFMANN'S
Great \$10 Men's Suit
Sale Has Taken
The Town by Storm.

From all parts of the city and surrounding country the people come to take advantage of this remarkable bargain sale. The news travels like a wild fire that Kaufmann's are selling genuine \$18 and \$20 suits for \$10. Everybody who buys one of these suits goes home delighted with his bargain and tells his friends and neighbors about it. They, too, come and purchase, and, in turn, send their acquaintances who also make a bee line for the wonderful \$10 Suit sale and return home all smiles and packages. Thus the multiplying process keeps on, and every hour the rush increases. There'll be no let up, either, until every one of these fine \$10 Suits has been disposed of. These goods, as previously announced, were purchased by us from a largely overstocked manufacturer of fine clothing. The price we paid for them averages \$9 25, which actually is less than the value of the material and trimmings of each suit. Seventy-five cents is all we expect to make per suit, hence \$10 is the figure at which we offer you choice from the entire line. Some of the very best patterns and styles are still here, but don't delay, if you want them, as the rush is big, and there is no telling how soon these wonderful bargains will be sold. A few days, at the furthest, will finish them.

To give you an idea of what these suits are we need only say that they are made of such choice and fashionable materials as Wide Wales, Scotches, Pinhead Worsteds, blue, black and brown Corkscrew Worsteds, light, dark and medium stripes, checks, plaids and mixtures, etc. There are suits turned out daily by the Pittsburg merchant tailors at from \$30 to \$35 which are not one whit better than these goods at \$10. Depend upon it this is the chance of chances, the opportunity of opportunities for gentlemen in need of suits. Every man should avail himself of this offer. They are suits cheap enough for the laborer and fine enough for the banker. Let nobody, therefore, stand back.

A WORD TO THE WISE IS SUFFICIENT.
THIS IS THE WORD: "COME!"
