

SIGNS OF ACTIVITY.

The Volume of Business Through the Country is Encouraging.

WHEAT HAS TAKEN QUITE A JUMP And Stock Speculation is Conducted With a Little More Life.

STEEL RANKS AT A HIGHER FIGURE. The Only Danger is the Fear of a Stringency in the Money Market.

The reports to Bradstreet's and R.G. Dun & Co., show an increase in the volume of trade in most portions of the country.

NEW YORK, September 27.—The full volume of distribution in trade circles throughout the country, noted in telegrams to Bradstreet's last week, is continued, and the chief stimulating causes, seasonably cooler weather, heavy cotton movement at the South and a uniform rise in metal industries, remain as noteworthy features.

Stock speculation tends to regain strength and activity in spite of unsettled rate problems in the West and a high and firm money market, though at the close of the week bear attacks unsettled the market.

Bonds are dull and firm. Money in New York is in ample supply, but lenders are firm as to rates. Call loans, 6 per cent. Foreign exchange is firm on the advance of the Bank of England rate to 5 per cent, but more liberal provisions for grain for export have restrained the market.

WHEAT SPECULATION. There has been more interest and, during part of the week, excitement in the wheat markets, extraordinary strength having appeared in the face of a heavy selling movement, with a net gain in price of about 1 1/2c at New York and 2 1/2c at Chicago.

Exports of wheat (and flour and wheat) both coasts, aggregate 1,650,714 bushels this week, against 2,008,677 bushels last week, and 2,514,444 bushels in the like week last year.

Some 75,000 tons of rails have been purchased within six or eight days, besides which contracts for steel billets amounting to some 20,000 tons are reported.

Slack local demand for sugar, increased stocks and heavy cables, due to an estimated increase of 200,000 tons in the European sugar crop, resulted in a cut of 1/2c on refined sugar. Coffee options at New York are off 25 points, and in private trade channels are 1/4c lower, chiefly on depressed foreign markets.

Drygoods are more active at Boston, jobbers' sales having increased largely, but less so at New York, where warm, rainy weather, the advanced stage of the month and the observance of Columbus day have combined to reduce spot business materially.

Business failures reported to Bradstreet's number 180 in the United States this week, against 190 last week and 130 this week last year. Canada had 29 this week against 30 last week.

R. G. Dun & Co.'s weekly review of trade says: Business indications this week are generally favorable. The exports from New York for four weeks exceeded last year's by 25 per cent, and a like gain elsewhere would mean an excess of exports over imports for the month approaching \$9,000,000.

The Government has decided That They Are Not Tools of Trade. WASHINGTON, September 27.—The Treasury Department has decided that horses imported from Canada and intended for use in a circus and menagerie are not exempt from duty under the provisions of the free list for "tools of trade, occupation or employment of persons arriving in the United States."

TURF PLUNGERS. H. S. Hewitt, in to-morrow's DISPATCH, gives the men who stake fortunes the result of a horse race.

AN ADVANCE IN STOCKS. Until Thursday the stock market had been comparatively inactive, though not declining. But a sharp advance has since appeared, putting the average of prices fully a dollar higher than a week ago.

THE NAMES CHISELED OFF. A Funny Episode That Has Set Harmarville All Ago. Harmarville, the quaint little village on the West Penn Railroad, in this county, is all torn up by a queer transaction last Saturday. After the new schoolhouse was built in 1886, many of the citizens opposed its construction, causing the unpopularity of the school directors.
