BOUND IN A BOX CAR.

Terrible Night Experience of a Braddock Man.

in a Covered Wagon.

ALL NIGHT ON A FREIGHT TRAIN.

Liberated at Lectonia, He Manages to Work His Way Back Home.

HE DESCRIBES HIS TWO ASSAILANTS

A tall, dark bearded man, dressed in his working clothes, went to the Central police station at about 10:30 o'clock last night, and told Inspector McAleese a remarkable story of robbery and abduction.

He gave his name as J. M. Reed. He appeared to be honest and of sound mind, and attempted to conceal nothing. He said that he worked for the Howard Plate Glass Company, at Cochran station, and lived at Braddock. He had been working in the glass mill since it began operations last May. On Wednesday he drew his month's special to Pittsburg, and familiarizing themselves with its methods of trade and pay, \$60, put it in his pocket, crossed the Monongahela river to the Baltimore and Chic Railroad, and took a local train to Braddock. He left the train at Braddock and started to walk to his home, not far away. It was then after dark. He says he had not proceeded more than 200 yards from the depot when he was stopped and knocked down by two men. He was ren-dered unconscious by a blow on the head.

HE WAS BOUND WITH ROPES. When he recovered consciousness he was lying, tightly bound with ropes, in the tom of a covered wagon, which was rapidly jolting over country roads. Two men, the same who had assaulted him in Braddock, sat upon the seat. One was a man who talked and looked like an English-man. He was of medium height, wellbuilt, and wore a full reddish beard. The other man was a negro, probably 6 feet tall, and weighing something like 200 pounds. Reed could not tell where he was being The wagon entered the city an rattled over paved streets. He was so greatly excited by his condition that he cannot tell whether one or two bridges were crossed, and he is unable to say whether the wagon stepped in Pittsburg or Allegheny. He was driven to a railroad yard, lifted from the wagon and placed in an empty box car. The door of the car was pulled shut,

and he was left alone. CARRIED FROM THE CITY.

He thinks it was about 2 o'clock in the morning when he was put into the car. He soon felt that the car was moving swiftly, and he lay all night belpless, wondering whether he were being carried away toward the east, west, north or south. The perspiration stood upon his forehead and he suffered great mental anguish. Soon atter daylight the car, after being bumped back and forth, came to a stand. The imprisoned glass worker pushed open the door with his leet and succeeded in attracting the attention of some railroad men. His bonds were removed and he was released from his prison. He learned that he was in Lectonia, on the Fort Wayne road, 63 miles west of Pitts-

ROBBED AND LEFT ALONE.

His money had all been taken, and he was in a strange town. There was nothing to be done but to toot it, and he walked 23 miles to New Galilee. There, at 6 o'clock, he got on board passenger train No. 4, and succeeded in benting his way to Leetsdale, 15 miles from the city. He was put off at that place, but he there found some members of the Junior Order of the United American Mechanics. He secured \$2 and came to the city on an accommodation train last night.

Reed claims to have lived in McKeesport only six months, and knows few people there. He has a wife and several children. who are probably alarmed about his absence. In his coat is a cut about three inches long, which he says was made by a knife in the hand of one of his assailants.

CROSS SUITS.

Two Brothers-in-Law and Their Wives Entangled in the Law.

George Murray and William Maguire are brothers-in-law and live in the Twelith ward. Their wives, who are both young and pretty, are sisters. A short time ago Murray and his wife quarreled and she went to live with her sister, Mrs. Maguire. Mrs. Maggie Murray made an information before Alderman McKenna, charging her husband with assault and battery. Murray then made information against Mrs. Kate Maguire, accusing her of giving medicines to his wife, Maggie, for criminal purposes, and he also sued William Maguire for surety of the peace. The cases against the Maguires were heard by Alderman Mc-Kenna at 5 o'clock yesterday afternoon. Major E. A. Montooth defended the Maguires, but Murray had no lawyer.

Several neighbor women testified that Mrs. Murray had told them of her condition, and that Maguire had said that his wife fixed her sister. Murray then called wife to the stand. She emphatically denied every charge made by her husband, and exonerated her sister. Mrs. Maguire was discharged.

In the case of William Magnire, it was proven that he had threatened to beat his brother-in-law. Major Montooth took all parties aside, and after a short talk effected a compromise. The costs in the three suits were paid equally by Murray and Maguire. Alderman McKenna delivered a paternal lecture to the young people. Murray and Magnire became reconciled, but Murray and his wife could not agree.

TO PAVE STOCKTON AVENUE.

A Number of Improvements for Allegheny Streets.

The committee on streets and sewers, of Allegheny, met last right. An ordinance was ordered printed for the paving of Stockton avenue, from Sandusky street to Union avenue with sheet asphalt. The be a guest at the Seventh Avenue until after the sitting of the Supreme Court on Monday. controller was ordered to advertise for bids for the extension of the sewer on Belmont street. Contracts for the grading and pav-ing of Irwin avenue for \$13,450.40; Clark street, \$3,679.65, and Ravine street, \$4,345

SHE WILL RECOVER.

Dr. Edmundson Says Miss Delavin is Be-

youd All Danger. Miss Leonora Delavin, the young lad; who is supposed to have attempted suicide at her home, corner of Ann and Var Braam streets, last Tuesday, by taking arsenic, was seen last night at her home Miss Delavin has recovered sufficient strength to be able to sit up and go about the house. Dr. Edmundson says the danger is over and she will recover.

TO LIGHT THE CLOCKS.

Alleghenians May Now See the Time During the Night.

The Allegheny Gas Committee met last night, and, after approving bills to the amount of \$5,206 56, passed a motion authorizing the lighting of the clocks in the Library tower with electric lights.

SIXTY ROOMS ENGAGED

At the Monongahela House for the South American Guests of the Government-Arranging the Banquet.

Colonel Thomas E. Watt, of the Pennsylvania Railroad, and Captain Batchelor, of the Chamber of Commerce, yesterday called upon Mr. Anderson, proprietor of the Monongahela House, and engaged 60 rooms for the South American guests of the United ROBBED AND ABDUCTED. States Government. The rooms were engaged for three days, Wednesday, Thursday and Friday, November 6, 7 and 8. That is His Captors Drive Him to Pittsburg the period for the distinguished visitors' sojourn in Pittsburg, so Colonel Watt has been notified by the Pennsylvania Railroad mauagement at Philadelphia, which has arranged the schedule of the special train of Pullman cars that leit Washington yesterday for a 40 days' tour of the great cities of the United States.

Proprietor Anderson is arranging to set aside the rooms fronting on Water and Smithfield for the guests. They will be the very best apartments- The banquet will be held either Thursday or Friday night, at which covers will be laid for 250 persons. The preparations are on a scale of magnificence never before witnessed in this city. The very finest plate and china will be brought out, and it is Mr. Anderson's intention to lay before the visiting delegates such a menu as they will not before have enjoyed on their tour. Novel devices in electric lighting will be used, the floral decorations will receive elaborate attention, and the affair in general is intended to create an impression that Pittsburg can "do things"

when she will.

James B. Scott said yesterday that the visitors would be given an opportunity, not so much of visiting art galleries and admiring the architectural beauties of the city, as to looking into the industrial enterprises capacity for extensive commerce. He did not see, however, how they could get any-thing approaching a fair idea of the extent of the city's manufacturing facilities in a visit of a couple of days, and hoped that such arrangements would be made as would give them an adequate conception of at least the most prominent of the local industries.

FOUR MONTHS OF CAMP LIFE.

The Rest of the Fourteenth Boys Return

From Johnstown. Captain Nesbit and Company C, of the Fourteenth Regiment, with five men of Company K and two of Company G, numbering in all 45 men, returned from Johnstown last night. They have been away just much the worse for wear as they marched in of relief which would spring up at the thought of the work being over and that they were once more at home. The boy is an orphan and came from Ireland." until halted to disencumber themselves of is now without military supervision.

HITHER AND THITHER.

Movements of Pittsburgers and Others of

Wide Acquaintance. -Rev. Father Tahaney, pastor of St John's Catholic Church, at Johnstown, which was burned and destroyed during the flood, was burned and destroyed during the flood, was in the city yesterday, consulting with Architect Evans in regard to the plans for his new church. The latter will cost about \$60,000. Part of the convent building, which was left standing, will be remodeled and used as a parsonage. A new convent building and school will have to be built. The total cost of the improvements will be about \$90,000. Father Tahaney wishes to correct the statement made by the authors of "The Only Official History of ov the authors of "The Only Official History of the Flood" that he lost comparatively nothing.
He says that his loss was about \$125,000 on church and personal property, and of this amount he secured \$20,000 insurance. A special collection will be taken up in all the churches of the diocese Sunday next to raise the ssary to build the church.

—J. J. Johnston, a leading patent lawyer of Washington, is staying for a few days at the I care for him and treat him with motherly -J. J. Johnston, a leading patent lawver Anderson. Mr. Johnston is in the city on legal business connected with the infringement case of Wynland and Lyne versus the Pittsburg Frye case. He says that among lawyers in his city the opinion is rife that Attorney General Miller will be elevated to the vacant seat on the

Supreme Bench.

The country's Capital is the place, in his opinion, for the site of the World's Fair, because all civic rivalry would be discounted, and, apart from industrial products, there is no city in the States which would so impress foreign visitors with the simplicity as well as the effectiveness of Republican institutions as the Capital. The Capitol and Public Buildings would themselves form no mean attraction while the themselves form no mean attraction while the railroad approaches were sufficient.

-0. H. Bover, Assistant Secretary of the National Board of Steam Navigation; M Moran, of the tug firm of Moran & Stewart, and Alexander Smith, the editor of the New York Scaboard and Reporter, remained in the York Scaboard and Reporter, remained in the city yesterday forenoon. Captain W. C. Gray and Captain Joseph H. Dunlap, of Gray's Iron Line, conducted the New York visitors to the Black Diamond Steel Works, where they were shown through the establishment. The visitors departed for the East at about noon. They will stop on their way at Johnstown. Captain Gray is an uncle to the Park Bros., who are part owners of Gray's Iron Liue.

-James Kearney, civil engineer of St. Kitts, West Indies, is in Pittsburg on private business, connected with a farm which he owns at Grapeville. He has made purchases in machinery for sugar refining to the extent of \$10,000. He says that the West India mer-Islands to the United States as the most convenient market. The people are very anxious to establish a closer bond of union with North America, and there is a steadily growing feeling in favor of a union with the States.

-Superintendent Follansbee, of the Chamber of Commerce, yesterday received a communication from the Secretary of the Bengal Chamber of Commerce, located at Calcutta, containing a copy of the "Indian Merchandise Marks act," and also a copy of the rules as regards "Permissible variations, framed under the authority of section 16 of the act of His Excellency, the Viceroy of India. The communication has been duly acknowledged by Superintendent Follansbee.

-J. F. Golding, of Chicago, is staying at the Monongabela. Mr. Golding is the inventor of a process by which the expanded metal can be employed for such novel purposes as lathing the ceilings of a room and other struc-tural purposes. The method is already ex-tensively used in this country and Australia, and on Saturday Mr. Golding leaves for Europe to push his business interests there

HIS AUNT ABUSED HIM

Young James Callon Handed Over to Agent Dean's Tender Care.

THE BOY GLAD TO BE RELEASED. Cudgeled With a Broom Handle and Turned Away From Home.

AN IRISH LAD'S TOUGH EXPERIENCE

A sensational case of cruelty was dis closed at Alderman Porter's office yesterday afternoon in which Agent Michael Dean prosecuted Mary Curley, of Carson street, Southside, for abusing her young nephew. The boy, James Callon, is 12 years old, with a bright, open countenance. He came from Ireland. His testimony follows:

"I have not been sent to school a day since I have lived with my aunt. She sent me to night school for a few months last rinter. I wanted to go to school, but she would not send me. She kept me away so that I might do menial work about the house. I scrubbed the floors, cleaned the windows, washed the dishes, and ran messages for her, to the market and the stores. frequently went to the store at her request for groceries, misrepresenting who the goods were for. I knew this was wrong, and that I was telling lies. She used to tell me to say to the storekeeper that the goods were for Mr. King.

"She often beat me and threw shoes at

me, and then she would chase me up and down the house, hitting me with a broom handle. One day she violently threw a rough stone at me and at other times she illused me by striking me with her hands and kicking me about the floor until I cried with pain.

CHASED HIM FROM THE HOUSE. "About 5 o'clock last Wednesday even

ing my aunt thrashed me with unusual severity. She kicked me out of the house, and with curses threatened to kill me if I returned. She ran after me in the street. I reached the house of Mrs. Kate McCarrol and procured shelter for the night. Every morning she made me get up at 4 o'clock to help her to get the breakfast ready for the boarders. I never had a relaxation from the drudgery from morning until night."

Kate McCarrol said: "Mrs. Curley

abused Jimmie Collins with great brutality. She did not send him to school. When she beat him she cursed him in a horrible manfour months, and have had a pretty ex-perience of camp life. The boys looked like his drunken mother, who is dead. Last Wednesday night he rushed into my house formation of twos in heavy marching order through the depot, but they carried themselves as if on dress parade, and it was not aunt. I assented, and kept the boy over night. She made him get up at 4 o'clock.

"I have been boarding at Mrs. Curly's house for 14 weeks. I have seen her beat this boy with a broom and otherwise abuse him. She put him out of the house twice after 9 o'clock. She never sent him to school while I was there. I have heard her say that he was like his lazy old mother."

HE DID A GIRL'S WORK. Maggie Carney testified: "I have seen her make the boy scrub, wash and clean windows; also saw her violently hit him. It is the common talk of the neighborhood. The treatment the boy received was most re-

Miss Mooney testified "that she saw Mrs. Curley kick the boy. She also saw him perform the work of the house, the same as a

promised to send the boy. He also promised to give me his gold watch and all his love. He is a bad boy. I admit I sent him to the store falsely, but if he never does anything worse than that he will get along fairly well. I have slightly tapped him with a broomstick, but I did it in a playful

James McBride, M. Maloney, Thos. Foley, J.W. Hemmerly and Walker Rose stated that they never saw Mrs. Curley abuse the boy. Agent Dean scored the old lady in a neat speech, and Alderman Porter imposed a fine of \$10 and costs and handed over the child to the care of Agent Dean.

SMITH TELLS HIS STORY.

He Explains Why He Murdered His Wife-His Health is Better and He Will be Moved to Jail To-Day.

William H. Smith, the colored man who shot his wife at No. 124 Fulton street on September 4, was last evening removed by Detective Coulson from the Mercy Hospital to the Central police station. Smith, after murdering his wife at their

home, No. 124 Fulton street, attempted to commit suicide by shooting himself through the lungs. He has been in the hospital ever since, and, while not altogether well, was able to walk to the police station. He talked freely to Detective Coulson, and

told him the whole story of the crime. He said that his wife had driven him to desperation by her amours with other men. While he was absent from the city last summer he learned that she was receiving the attentions of a barber. He discovered, on his return home about the first of September, some leton the evening before the crime, he bought a quart of whisky at a wholesale house on Fifth avenue, near Pride street.

He took it home with him and proceeded to reduce the whisky surplus. His wife was quarrelsome. He told her to go to bed and sleep. He then sat up with the whisky. By midnight the liquor had been nearly all transferred from the bottle to Smith's stomach. He was then in condition to commit murder. He took a revolver from the mantel, went to the bed and shot his wife dend while she was sleeping. He ther tried to kill himself, but was unsuccessful Smith will be removed to-day to the county jail.

WANTED IN ITALY.

Antonio Gallo Arrested Here for Attempted Murder. The following telegram was received from

New York last night:

Autonio Gallo, 26 years old, was taken before United States Commissioner Shields to-day, to answer the charge of trying to kill Carlo Caranswer the charge of trying to shil Carlo Carleiletti in Fajjano, Italy, four years ago. The two men were rivals for the heart and hand of the belle of Fajjano, Carleiletti won and married her. The night after the wedding the young husband and Gallo fought at a village ball. Gallo was worsted and swore vengeance. On the next day Gallo armed himself with a double-barreled shotgun, which he loaded with buckshot and scraps of iron. He went early to the machine shop where Carle worked, and secreted himself behind a large tool box, in front of which he knew that Carle must pass on his way to his work bench. When Carleiletti entered the shop, ten minutes later, Gallo emptied both barrels into his body. Carleiletti fell to the floor, apparently dead. Gallo fied to the mountains and eventually sailed for America, after learning that his victim, though alive, was crippled for life. He settled in Milford, Mass, but was driven from the town two years ago for misusing a little girl. He passed a few months in New York and then went to Pittsburg, where he was arrested yesterday by New York detectives at the instance of the Italian Government. He was committed to jail by Commissioner Shields to-day to await the completion of the extradition papers by the State Department in Washington. lelletti in Fajjano, Italy, four years ago. The

He Was Issane. Coroner McDowell held an inquest year terday on the body of Joseph Phillips, who committed suicide in Carpenter's alley Wednesday night. A verdict of suicide due to temporary insanity was rendered.

SEWICKLEY SALAD

Tee Paugent for Some Taxpayers, But Discussion Gives Road Makers a Pointer The Chloroform Victim Well Known Worth Studying. Some of the inhabitants of Sewickley to Residents of This City.

complain bitterly. They say the borough millage for Government schools, street repairs, etc., is 12 mills, and this added to county tax makes nearly 2 per cent levy on a largely increased valuation. Some claim that there is very little work being done on the streets and that the borough is paying interest on \$65,000 worth of bonds at 8 per cent and on other bonds aggregating in all over \$100,000.

The complaint was laid before H. L. Williams and George I Whitney, who both came to the rescue of the bondholders and the Sewickley government. They say that the bonds were placed at a time when even Pittsburg could scarce get better; that they went begging and only T. H. Nevin could see anything in them at 8 per cent. They admitted that it was somewhat hard to pay They interest on bonds at 8 per cent that might now be placed at 4 per cent, but yet believed their consciences would allow them to hold them. They could say nothing as to the charge that the Water Works Commission

did business in a corner.

Incidentally, in reference to the complaint that but little was done on Sewickley streets, Mr. Williams dropped a pointer well worth the attention of supervisors of county roads. Mr. Williams states that Sewickley streets are built by a cheap and at the same time effective method, one so cheap that it might be followed with profit in the farming districts.

First, a foundation is well laid of rubble stone, but little attention being paid to size.

This is well settled and leveled by breaking

prominent points with a knapping hammer. On top of this bed is put a foot of stone broken finely, and on this a coating of two or three inches of gravel. This, Mr. Williams says, makes a smooth and durable road that will withstand heavy travel and can be kept in repair cheaply, and all at a cost of a dollar a linear foot on a roadway being 20 feet in width. As Register Shafer remarks, a width of 15 feet is ample for country roads, so that they could be built for 75 cents a linear

Union Depot. Tom Pennyman is a car shifter between the Pennsylvania Railroad yards at the Union depot and Thirty-third street. Tom was nonplussed the other day, and in the following manner: It is the custom for the brakemen who run down the cars from Thirty-third street to the depot yards to walk back to the starting point when they had deposited their cars, and Tom, for some time past, had been swearing within his beard at the time they took to accomplish the distance and return. He decided at last to see how they managed to put in the time, and one day lately when a line of cars had been cut loose, he laid himself down in a car loaded with sand, and awaited develop-

But they were otherwise than he expected, for the switchman in the lower yards, seeing the cars, as he thought, running away, promptly turned them into a siding with the result that the car containing Tom and the sand bumped with such violence against the buffers at the end of the track as to smash the car and bury Mr. Pennyman in the sand. He was rescued with considerable difficulty, and vesterday he decided to look with a more lenient eye upon his 30 subordinates and their gait of going.

NO ONE TO BLAME.

The Braddock Victims Died From Accidental and Western, and he would assume control Causes.

The Coroner's jury yesterday decided that Captain William R. Jones, Michael Quinn and Andrew Havilla, who died from the effects of burns received from a break in furnace C at the Edgar Thomson, met their deaths from purely accidental causes, and that proper precautions had been taken

A number of witnesses were examined who saw the accident. They testified that it was unusual for a furnace to break as this one had done, and that the furnace had never broken before, nor was it patched in any way. The break was about 18 inches by 2 feet. At the time the furnace was not pushed harder than ordinarily, but it re-fused to work, and a number of men repeat-edly attempted to remove the cinder. James Tola said he rescued Captain

Jones from the modoc pit, and the hot cinders were running into his mouth. Thomas Adenbrook, the furnace builder, testified he had repaired the opposite side of the furnace a few days before the accident. If there had been any breaks the flames would have been seen. So far as he could see the furnace was all right, Other vitnesses testified in a similar strain.

THE CALVES TOO YOUNG.

A Hearing Given in the Case Against Winters & Dellenbach

There was a hearing before Alderman Mc-Masters yesterday in the case of Humane Agent O'Brien against the firm of Winters & Dellenbach, who were charged with buying some 30 calves from the Sewickley Dairy Company that were found to be too young to be sold for food.

Agent O'Brien told how he heard of the alves being shipped to Allegheny to the firm, and learning they were very young secured the assistance of Meat and Milk Iuspector Lippert, of Allegheny, who con-demned them. They found some of them not more than a day or two old. Mr. Dellenbach, of the firm, said he was under the impression the calves he bought were from two to five weeks old, and when he learned differently refused to kill them. The case was continued over until to-day.

LOTTIE IS FREE.

She Took the Benefit of the Insolvent Law and is Out of Jail.

Lottie McDonald was released from jail, resterday, under the insolvent law. She was convicted of keeping a disorderly house and sentenced to six months in the workhouse, \$100 fine and the costs. Her time expired and she took the benefit of the insolvent laws to escape paying the fine or

HUMANE AGENT O'BILLEN Charged F. A. Hazelbart, yesterday, before Aiderman McGarey, on the Southside, with maltreating a horse. Agent O'Brien declared that Hazelbart had been seen to beat and kick his horse brutally on Carson street Tuesday afternoon. A now between several negroes took place traction power house. One man named Emman-uel Tillman was badly hurt, and the police are on the lookout for his assailants. THE Brigade Examining Board concluded its

sessions at the Monongahela last night. It had up before it for examination as to fitness and promotion officers of the Fifteenth, Sixteenth and Fifth Regiments. THE residents of South Eleventh street are worried over the action of the Monongahela Gas Company because they have laid their pipes in the large Sarah street sewer in their vicinity.

A DRUNKEN farmer who claimed to be Uncle

Jake Zeigler created some amusement around the City Hall yesterday by using the bell cord and button on the elevator for a telephone. John Vitts, an employe in Carnegie's Thirty-third street mill, had his leg crushed by a falling plate yesterday. He was taken to his home, on Forty-sixth street. REV. L. McGuing will lecture to-morrow evening in the Centenary M. E. Church, corner Wylle and Kirkpatrick street, on "What I Saw in the Army," DR. SHORB'S HISTORY.

HIS MARRIAGE WAS A SENSATION. He Wedded a Society Belle and Was Ostra-

AN INGENIOUS DEVICE TO GET SLEEP

cised by His Family.

Dr. J. Campbell Shorb, who was found dead in bed Tuesday in San Francisco, was very well known in this city among the older residents. The people who read the announcement of his sad ending and who were familiar with his history could not help but recall the prominent figure Dr. Shorb cut in social circles, both in this city and Philadelphia. The old residenters will remember the sensation he created in Pitts-burg at the time of his marriage.

About 30 years ago, Dr. Shorb came to this city from Emmettsburg, Md. He began the study of medicine at the Mercy

Hospital, and became a member of the staff

Hospital, and became a member of the staff of the institution. After being at the hospital several years, he received the appointment of Marine Surgeon at San Francisco where he has been ever since.

Before going away he became engaged to Miss Sophia Dallas, of Philadelphia. She was a well-known society belle of the Quaker City and a sister of W. W. Dallas, an attorney of Pittsburg. At that time the latter was a prominent figure at the bar in this city, but afterward moved West. Miss Dallas was a Protestant and Dr. Shorb was Dallas was a Protestant and Dr. Shorb was a devout Catholic. The former rejused to become converted to the latter's faith and they were not married in the Catholic Church. His family and relatives denounced the action and refused to recognize him afterward. The affair caused quite a sensation in social circles on account of the prominence of the parties, and they im-mediately moved to the West. Frank Tier-nan, formerly of this city, who poisoned himself in Chicago a few months ago, was a

After leaving Pittsburg Mr. Shorb wert to California and there dritted into politics. He was a Democrat and filled many high positions of trust. He was a confirmed victim to the use of chloroform, and this caused his death. He task search of the caused his death. He took enough of the drug at every dose to kill an ordinary man and resorted to it to secure sleep. He devised an ingenious apparatus by which a sponge saturated with the drug was suspended directly above his head and in close proximity to his nostrils, while lying in bed. By means of an automatic arrangement, when his head dropped on the pillow, the sponge was drawn up into the air, and out of his reach. He tried to conquer the habit, but it grew upon him every day. It was supposed that his death was the result of an overdose of the

brother-in-law of Shorb's.

He was an inmate of a private hospital number of times, but he could not be cured of the habit. He has a brother, who is a millionaire wine merchant in San Gabriel,

MR. LEISHMAN DENIES IT. Andrew Carnegie is Not Thinking of a New

Chicago Road. Andrew Carnegie, who has been in the city for the past ten days looking after some details of his immense interests, will probably leave for New York to-day or to-morrow. A call was made at his office yester-day afternoon for the purpose of investigating the published report in an afternoon paper that he contemplated building a coke railroad from this city to Chicago. The re-port stated that Mr. Carnegie wanted a more direct route to the West than the Pittsbur a line across Northern Ohio to Fort Wayne. The road was to be part of the Pittsburg and Western system, and would

go into Chicago over one of the Eastern Illinois lines. Mr. Carnegie was not accessible at the time, and the clipping was shown J. G. Leishman, Vice Chairman and Treasurer of the company. He stated that there was no truth whatever in the statement and the report was without foundation.

MASTER BREWERS MEET.

Employes Threaten to Strike Unless the

Scale is Signed. A meeting of the members of the Allegheny County Brewers' Association was neld vesterday in their hall on Fourth avenue. The object was to consider the scale presented by Local Union No. 22, composed of the journeymen brewers of the two cities. As yet Spencer & Liddell is the only firm in the county who signed the scale, and the journeymen threaten to strike unless the others do likewise. The scale calls for ten hours work per day and extra pay for overtime. The men now work from 12 to 15 hours and are not paid anything extra. They are attached to the Federation of Labor, and will interest the officers of that

body in the fight. At the meeting yesterday a committee was present from the Central Trades Council and requested that the scale be signed by all the brewers. The latter now have the matter

A TRIBUTE TO CAPTAIN JONES. He Was a Second Holley in the Metal-

largical World. Joseph D. Weeks, of this city, pays high tribute to the worth of Captain W. R. handsome, and the garments made to stand a vast deal of wear and service. The sole Jones, who was buried at Braddock Wednesday. In his paper Mr. Weeks says: Not since the death of Holley has one

dropped out of the ranks of metallurgy whose departure caused so many of his associates to feel that they have lost a personal friend, while the great army of workmen that cheerfully owned him as their Captain knew him and now mourn him as their friend "faithful and true." The rosition he filled was one that demanded a higher order of executive ability than that required of the President of the United States or any of his Cabinet, and this fact was recog-nized by a salary equal to that of the Presi-

Tinners' Union Ended. The latest local assembly of the Knights of Labor to lapse in this city is L. A. 1525, composed of tinners. They organized about one year ago, but as most of them were members of the Tin, Sheet Iron and Cornice Workers' Union they did not take much interest in the other organization.

Organizing at Cumberland. President William Smith, of the American Flint Glass Workers' Union, has gone East on official business. He will stop at Cumberland and organize a new local union in the town. He will also visit Baltimore and other points.

Five Barbers Initiated. The regular meeting of the Barbers Union was held last evening. Five new sembers were initiated.

APPEALING TO MR. LYON. Boston Buck's" Daughter Trying to Get the Old Man Out of Riverside.

"Boston Buck," a notorious counterfeiter

of Indiana county, was sent to the penitentiary about five years ago for a term of seven years. Yesterday his daughter and her husband visited District Attorney Walter Lyon and besought him to inter ter Lyon and besought him to intercede to secure a pardon for her aged father. "Buck" is now about 73 years old, and has yet to serve one year and ten months. Mr. Lyon was not acquainted with the merits of the case, and reterred the woman to Mr. William A. Stone, who was District Attorney at the time the man was sentenced. "Boston Buck" had a strange career, and was connected, during the war, with a "copperhead" gang which tried to induce him to enter into a conspiracy to murder President Lincoln. A SITE SELECTED.

The Allegheny Electric Plant to be Located

at the Foot of Monument Hill-The Duff Co. Will Stay. The question as to the location of the Alegheny electric light power house was settled last night when the joint sub-Committees on Gas and City Property met. They passed a resolution asking the City Property Committee to frame an ordinance appropriating the position at the base of Monu-ment Hill lying west of the Hope engine

house along Martin street.

They asked that the Controller immediately advertise for bids for the excavation. The original intention was to use the site upon which the old armory buildings now stand. The Duff Manufacturing Company now occupy that building, and they were notified to vacate within three months. Last night the Duff Company sent a letter to the sub-committee, stating that it would be impossible for them to move before Normalian 1 and area then it would vember 1, and even then it would be at a great sacrifice to their busi-ness, and asked to be given \$3,500 damages. The company at the same time submitted a proposition agreeing, to pay a premium of \$3,500 besides the annual rent. f they were given a 20-years' lease on the building they are now in. This letter was laid on the table, the members in talking over the question of a site thought it would be better to allow the Duff Company to remain where they are, and as there is plenty of room on the west side of the Hope en-gine house that is at present of no practical use, the plant could be located there.

The City Property Committee met after the adjournment of the joint committee, and passed the ordinance asked for.

TWO STREET ACCIDENTS.

Mr. W. T. Shannon's Leg Broken by the

Kick of a Fractious Horse. As the Frauenheim carriage containing Miss Francheim was standing at the corner of Fifth and Penn avenues, yesterday afternoon, an express wagon minus a driver went tearing down the street, and making a close circle around the Frauenheim carriage completely crushed one wheel and otherwise wrecking the carriage. The driver showed reat presence of mind and retained control of his horse, thus preventing a serious acci-dent. Miss Frauenheim was rescued from the wreck in a half fainting condition, but severe fright was the most serious result

suffered by the young lady.

While coming home with his family in a barouche Wednesday night from the Sewickley Presbyterian Church, W. T. Shannon, of Edgeworth, had his leg broken be-low the knee by a kick from one of the orses. The bone was set while he remained in the carriage, and the neighbors pulled the vehicle with Mr. Shannon in it to his

THE RANDALL CLUB MEET.

Delegates Selected for the Convention of Democratic Societies. The regular meeting of the Randall Club was held last night, J. P. Fleming presiding. Eleven new members were elected. A committee of three was appointed to make arrangements for the annual reception ball. The following delegates were selected to at-

tend the convention of Democratic societies to be held in Philadelphia October 15: A. F. Keating, Wm. A. McCaffrey, Captain Wm. Webb, John E. McCrickart, B. E. Arons, H. L. McGraw, T. O'Leary, F. A. Gosser, D. O. Barr, J. C. Bobinson, John O'Neil, Joseph Stokely, General P. N. Guthrie, Captain W. H. Barclay, Herman Handle, Alex. Wilson, J. O'Conner, H. T. Morris, W. J. Weixel, A. P. Burgwin, J. W. Echols, Charles Carroll, James E. O'Donnell, Lew Cella, J. J. Wallace, B. J. Foley and Edward Susman.

HYPNOTISM VS. MUSCLE.

Christopher Wouldn't be Bluffed, so He Tackled the Doctor. belts in Soho, was giving his usual exhibition of mesmerism last night, when Christopher Wolf mounted the stage, and demanded to be mesmerized. The doctor refused to comply, and Wolf proceeded to throw him from the stand. Hypnotism was giving way to muscles, when Officer Dean inter-vened, and Wolf was arrested, together with an accomplice named Laughlin, and lodged in the Fourteenth ward station. Dr. Stam-

tord was slightly hurt, but continued his We Are Advised By the passenger department of the Penn-sylvania Railroad that arrangements have been made for the sale of round trip tickets from Washington to New York and return at rate of \$10 for the round trip, on account of the Triennial Conclave of the Knights of the Trieunial Conclave of Templar, to be held in Washington October 8 to 11, inclusive. Round trip tickets sold to New York by the Pennsylvania Railroad from Washington will be sold, good to re-turn from New York to Pittsburg direct, by the purchaser depositing with the agent of this company at Washington the return portion of his excursion ticket, Pittsburg Washington and return. By this means, if you desire visiting Eastern cities, the ticket granted at reduced rates to Washington, you can purchase a round trip ticket to New York and return direct to Pittsburg, not re-

quiring you to return via Washingto

CORLISS BURGLAR PROOF SAFES.

The Demand for Them as Shown by Ser eral of Many Recent Orders.

We speak of what is known as the Corlins Safe, made of chilled iron in a semi-spherical form. It is a comparatively recent manufacture—first exhibited at the Centennial of '76—the very novel features of its construction, involving principles utterly new in the foundry and machine shop, held it back from very rapid development to the perfection attained in its present making.

It can be considered as an invention consonant with that of the Corlins engine, which latter has indelibly shaped all modern steam engines in all engide building countries. This invention of the safe, in its inception and fulfillment, is a flight of the eagle; it has solved the problem of the safe keeping of the wealth of a people, existing in money and securities. eral of Many Recent Orders.

of the wealth of a people, existing in money and securities.

But, speaking in every day thoughts, in facts and figures, the Corliss Safe and Vault Door Company of Providence, R. I., are pressing their industry by night as well as by day; the demand for their safes is rapidly increasing, and even coming from such far away places as Tacoma and Spokane Falls, Washington Territory, where two have just been sent, while in their own State they have recently supplied the Phonix they have recently supplied the Phonix National Bank, People's Savings Bank, and Mercantile Trust Company, also the Franklin Savings Bank, and the First National Bank of Pawineket with complete National Bank of Pawtneket with complete outfits of burglar and hire-proof security, which outfits have been duplicated for the Commercial National Bank of Omaha, the Union National of Denver, and the Lawrence National Bank of Lawrence, Mass. Two of these Corliss safes have just been delivered in this city, one to the Farmers' Deposit National Bank (being the second Corliss safe bought by them); the other goes into the City Deposit Bank. It will be remembered that the Corliss Safe Company made in this city not long ago some startling ocular that the Corliss Safe Company made in this city not long ago some startling ocular proofs of the insecurity of all square safes, and the information then gamed by our citizens seems not to have been lost to them.

It is a matter of some general interest to add that the Slater National Bank of Pawtucket, R. I., have adopted the Corliss new safe deposit system, which affords to each box holder all those advantages in certainty of security against burglary possessed by the bank for its own funds.
