

LEON AND LUCILLE; OR, THE POWER OF THE PRESS; A NINETEENTH CENTURY ROMANCE.

CHAPTER I. Leon and Lucille had quarrelled. Their young hearts were torn with emotion.

CHAPTER II. Life lost its rosy hue for the storm-tossed lovers.

CHAPTER III. Lucille lived in Allegheny; Leon in Pittsburgh.

CHAPTER IV. Lucille donned her sealskin cloak, and Leon enveloped himself in his spring overcoat.

CHAPTER V. Each started simultaneously on their white oar mission.

CHAPTER VI. "Lucille, I read in this morning's DISPATCH the story of a broken heart which sought success for its sorrows in death, and I thought that you, perhaps."

CHAPTER VII. "Oh, Leon, so did I, and I was looking for you. I was afraid that perhaps you—"

The Dispatch.

ESTABLISHED FEBRUARY 8, 1846. Vol. 44, No. 281.—Entered at Pittsburgh Postoffice, November 14, 1887, as second-class matter.

30,095. Average net circulation of the daily edition of THE DISPATCH for six months ending September 30, 1890, as sworn to before City Controller.

54,188. Average net circulation of the Sunday edition of THE DISPATCH for four months ending September 20, 1890.

TERMS OF THE PUBLICATION. POSTAGE FREE IN THE UNITED STATES. DAILY DISPATCH, Per Year, \$10.00.

THE ADVANCE IN PETROLEUM. The advance in the price of crude petroleum yesterday to the vicinity of \$1.07 per barrel, marks the force of the movement which has been going on for some time past in the reduction of the surplus stocks and the steady increase of demand.

PROGRESS OF THE POSTOFFICE. Any doubt as to the old dispute whether the world moves or not is set at rest by the plans assigning rooms in the new Government building to the different United States officials represented here.

THE SAMOAN WAR. The last report of a fight in the Samoan islands indicates a continuance of the long-standing fight between the forces of Malleton and Tamasese.

THE WORLD NOT ENDED. The world did not come to an end yesterday. The Second Adventists, who were expecting that awful event in the soothing idea that they had a monopoly of the advance notice, must have been sadly disappointed.

This ideal industrial condition is then stated to consist of conducting the works "on the basis of a large family, where the father—which means Herr Krupp—takes in all the proceeds of the establishment, and gives every one of the children—every workman—just enough to live on."

A BEER was in Cincinnati has reduced the price of that beverage to three cents a glass. There seems to be a good deal of war diffused throughout beer, although it has not that concentrated pugnacity to be obtained from the more spirituous liquors.

THE dispatch of Captain Wisman announcing the approach of Stanley to the East coast contained the further detail that Wisman had killed seventy of them. This exhibits a peculiarly European classification of the untamed savages who rebel against the seizure of the land by the ambitious European Governments.

CONGRESSMAN DALZIEL very effectively disposes of the rumor, circulated by the opposition, that he proposed to antagonize the administration upon the Postoffice or other matters.

MR. JAY GOULD, like President Roberts and Mr. Depew, has discovered by means of his tour throughout the country, that it is in a most prosperous and cheerful condition. This concurrence of testimony on the part of the great railway magnates, together with the reports of statistics recently published to show that stocks have not yet gone up, makes it rather remarkable that stocks obstinately go down.

THE irrepressible conflict seems to be still going on in Samoa; but that affords no reason why the civilized powers need put their fingers further into the middle.

THE appointment of Judge Gresham to the Supreme Bench is warmly urged by the New York Press. Such an appointment would be decidedly creditable to the administration, as selecting the man whose record in both military and civil life is first-class and whose fitness for that important position is undisputed.

THE car famine and freight blockade is reported to be growing worse instead of better. The coke industry is asserted to be unable to obtain more than 500 cars against a daily need of 1,200. The coal shippers have lost a large share of their fall trade through the failure of the railroads to haul it to the lakes.

THE PERIODICAL TROUBLE. The car famine and freight blockade is reported to be growing worse instead of better. The coke industry is asserted to be unable to obtain more than 500 cars against a daily need of 1,200.

THE TYPICAL TALKER.

Mr. Gladstone's Rumored Plans to Come to America—My Little Lord's Guests—Habes Corpus in New Form—Every Bird's Fate.

THESE have been rumors, over and over again, that the Hon. W. E. Gladstone had a mind to visit America. He has been invited enough, by businessmen, literary men, milliners, socials, managers, politicians, and all manner of men and institutions, and has pressed the Grand Old Man to come over and look at the people who revere him almost as highly as his own.

THE other day, however, in a rather round-about way, another rumor relative to a projected visit from Mr. Gladstone, reached the city. It was said that the Slayton Lecture Bureau of New York had succeeded in arranging for the lecture of Gladstone in the United States next season.

MATTERS METROPOLITAN.

Another Baseball Victim. NEW YORK, October 25.—While playing baseball at Mt. Vernon, about a year ago, young Thomas F. Mansory was hit on the forehead with a ball. The injury, it is said, was trifling, and but little attention was paid to it. Some weeks later the lad became subject to severe headaches. A medical examination six months ago showed that he had inflammation of the brain.
