SPECIAL TELEGRAM TO THE DISPATCH

NEW YORK, November 5.—There was a rowing meeting of the baseball players and their backers at Nick Eagle's, on Twenty-seventh street, this afternoon for the purpose of talking over their plans for Wednesday's meeting. The selection of names for President, Vice President and Secretary caused a red-hot fight, and much of the time was spent in talking over the ability of contestants.

THE BROTHERHOOD HAS DECIDED TO GO OUTSIDE OF THEIR ORGANIZATION FOR MEN TO ACT AS PRESIDENT AND SECRETARY, AND WILL PUT THEM IN CHARGE.

Just who the candidates are has not been made known, nor will it be known until tomorrow. A LIVELY MEETING. This afternoon's meeting was more lively than that of Monday and more business was transacted. In fact all of the plans of the organization were fully outlined. There were some 25 or 30 players present as well as several of the backers, including George Wright, General Hill and Al Johnson. Now and again a player would come down stairs from the star chamber meeting to report progress, but his report did not amount to much. It was clear, however, that the boys were having a very lively time. One thing was certain and that was that the players did not look so downcast as when they made the official announcement that they had decided to break away from the League.

NOT GOING SMOOTHLY.

The players said that matters were not moving so smoothly as on Monday, but that the serious internal dissensions had ceased. The capital stock of each club is to be \$20,000, and the players are expected to take half of that amount.

Jack Howe, of Pittsburgh, was asked if it was the Brotherhood movement that culminated to-day that induced White and himself to go to Pittsburgh when they came here yesterday.

THEIR CONSTITUTION.

The meeting came to an end at a late hour. President Keeffe said that a constitution and by-laws had been agreed upon and that it was presented at the meeting to-morrow. He said that it was reported that Ganzel had signed a League contract, but did not know what the contract was in it. Nothing, however, had been heard from Ganzel. At the meeting to-day Judge Howell, T. C. Prince of Boston, and M. Shreve, of Buffalo, will be present. Keeffe says that no grounds had been secured in Brooklyn yet. The players he says will not act as a League. At Mr. Love's of Boston, was at to-day's meeting and it was decided that the players were not compelled to take stock in the new clubs, but in case money was wanted it could be raised from other clubs. Keeffe says that the list of players, as published in a morning paper yesterday, was wholly wrong, and that the men were the men who at the back of the scheme he would at once get out.

THE LEAGUE PLANS.

President Young Talks About What the Managers May Do. SPECIAL TELEGRAM TO THE DISPATCH. WASHINGTON, November 5.—The declaration of war upon the part of the Brotherhood and the general managers of the League has been the political battle going on in the various States. At League headquarters President Young was found busily engaged over the New York papers, intent upon giving the details of to-day's meeting at the Fifth Avenue Hotel. "Now that the issue has been made by the Brotherhood, what does the League propose to do?" "Do," repeated Mr. Young, with a look of determination in his eyes. "We propose to take the ball by the horns and protect our own interests, otherwise the ball might get away from us. Our plans have not been matured yet and I am in no position to speak officially as to our future action in dealing with this matter."

ONE HAD STARTING.

The Races at Nashville Not a Very Great Success. NASHVILLE, TENN., November 5.—The weather was cloudy and very cold at the field to-day. Only five races were run and the fields were comparatively small. A good crowd was present, however, and the racing was very good, barring the starts.

THE SOCIETY OF NEW YORK TALKS ABOUT ATROPHIED FACULTIES.

NEW YORK, November 5.—"It is better for the progress of mankind that all the faculties of the individual should be harmoniously developed or that some faculties should be allowed to become atrophied for the special development of others?" This was the question that Senoia talked about yesterday afternoon at Delmonico's after a luncheon of six courses. The question was put by Mrs. Lucy Lee Holbrook. Mrs. Alma C. Johnston read a very bright paper on the negative side. Mrs. Merrill, of Boston, better known as "Jean Kincaid," said a few words. Mrs. Jennie M. Louder read a very clever and scientific paper and Mrs. Emma W. Higley talked very wittily in a serio-comic way.

TEEMER'S VERSION.

The McKeesport Reporter Replies to Hamm's Charges—The Race Was Fixed—Interesting Statements About the Arrangements.

McKeesport, November 4.—In answer to the statement made by Hamm in reference to the race between Teemer and myself, I am glad to say emphatically the following to say: "I do not deny that Gaudaur was to win the race as he thought he was. Hamm told the truth there. Such was the arrangement made by Hamm, Gaudaur and myself, but at the same time my intentions were to win it on them simply because I had a few more money, I can say emphatically that I do not, and that I never received a cent from Hamm. I never got a cent from Hamm that he did not owe me. I could produce it if I desired. Gaudaur's receipt to me for money owed Gaudaur, but which I did not pay him, but he received for it and knows why. He is not in the controversy, and I do not desire to produce it unless he would have it."

FATE OF THE BENDERS.

A Former Kansas Constable Tells How the Family Was Shot. SPECIAL TELEGRAM TO THE DISPATCH. LOS ANGELES, Cal., November 5.—By accident to-day a DISPATCH correspondent came across a man who clears away the mystery surrounding the fate of the Benders. His name is N. Cobley. He has been in the employ of the Street Superintendent here. Cobley says that in 1882 he was constable of Havana township, Montgomery county, Kansas. The Benders moved there in 1882 and opened a wayside tavern, from which many strange disappearances took place. The authors of the crimes were discovered by the murder of a man named Tom and vigilantes proceeded to the tavern to mete out punishment. Reaching the Rocky Hill region, Cook creek, a few miles from the desolate Bender tavern, the party was halted and 100 bullets whizzed through the air.

A Lumber Dealer Charged With Forgery and Evasion of the Law. NEW YORK, November 5.—Horace F. Burroughs, the Hunter's Point lumber dealer, whose yard was closed in August last by order of the Secretary of the Treasury, under suspicion of having been the scene of smuggling operations whereby some \$2,000,000 of lumber ceased paying duty, was arrested in this city last Saturday on the charge of forgery, on information furnished by Donald Lee and others. The charge is that Burroughs had caused the Elizabeth street station house and locked up, Sunday morning he was taken before Judge Gorman, at the latter's house, and released on \$5,000 bail.

MUST GO UNDERGROUND.

The Time Fixed for Seizing the Electric Wires in Philadelphia. PHILADELPHIA, November 5.—City Council's Law Committee has again fixed a date for the removal of overhead wires, but this time it has arranged a graduated scale to guide the companies in obeying the law. The time fixed, which was adopted yesterday, is as follows: All electric light wires between Vine and South streets and the two rivers must be under ground by December 1, 1890; between South street and Washington avenue, Vine street and Girard avenue, and Gray's ferry and Girard avenue, West Philadelphia, by December 1, 1891; and all other parts of the city except the rural sections by December 1, 1892. To bury the telegraph and telephone wires the companies are given a year's more time in each district than with the electric light wires, so that it will be December 1, 1893, before the wires in the outskirts of the city go underground. There are now in the city 10,324 telegraph, telephone and electric light poles, of which 4,549 are owned by the city and 5,775 by various companies. Up to the present time 825 miles of wire have been placed underground, but 5,000 still remain overhead.
