SHORT STREET CAR STRIKE.

A Tie-Up in Brooklyn That Lasted Only a Few Hours.

WASHINGTON, November 19.—There was a tie-up in Brooklyn this morning, but it lasted only a few hours. Although the strike was ordered by the Executive Committee of D. A. 75, Knights of Labor, a large majority of the drivers and conductors seem either to have been open to persuasion or to have had no objection to the discharge of their duties in a satisfactory way. His reason given to the men, was that he considered it for the best of the company that other men should take their places.

TRENTON, N. Hutchins' widow filed a bill in chancery to prevent the execution of the will. The Chancery Court decided against George. He took the ground that a trust created for such a purpose was under the immediate control of a court, and no court could be asked to enforce the will.

A DAZZLING SCHEME.

An Electric Railroad to be Built From Atlanta to Savannah—Natural Water Power to be Used to Generate the Electricity Necessary for Propulsion.

ATLANTA, November 19.—The most dazzling railroad scheme in years came to light here to-day. E. C. Machen, known as "Magio Machen," the man who built the Covington and Macon Railroad 104 miles on a capital of a side of bacon and a box of crackers, is in charge of a scheme to build an electric standard-gauge railroad from Atlanta to the sea, or near Savannah. Work has begun on a route between Eatonton and Machen, a distance of 174 miles. Electricity will be first tested. If it works well it will be applied to the whole line of 150 miles. The capitalistic backing Machen has New York, Philadelphia and Chicago parties, who believe in electricity for railroads and have ample means to test it.

BEFORE THE PARDON BOARD.

No Decisions Rendered, But Several Cases Taken Under Adversement.

HARRISBURG, November 19.—Among the cases heard by the Board of Pardon today were those of S. P. Switzer, Abraham Shultz and Jesse Baughman, of Somerset county, who were convicted of selling liquor without license and sentenced to pay a fine of \$500 each and undergo an imprisonment of three months. The applicants for pardon were represented by General William H. Koontz, did a small distilling business, by advice of counsel, who, with Judge McIlvaine, interpreted the law of 1887 not to repeal acts permitting this business without requiring a license to be secured from the Court, and the President, since rendered a decision in conflict with this view. A strong appeal was made for the remission of the imprisonment and fine because of the recent intercomers with prominent business men in Europe. The intercomers were the late Governor of New York would radiate to the lakes, to the gulf and the Atlantic to the Golden Gate.

THREATENED STRIKE.

Employees of the Great Hudson Railroad Company Expect to Go Out.

ALBANY, November 19.—The Central Hudson Railroad Company and its employees have been at odds for some time past over the matter of wages. Sunday last the climax was reached when the Knights of Labor here, largely alienating, and determined to send a committee of five number to New York, to hold an interview with railroad officials. This committee went to New York yesterday, and announced the cause of their trouble, which is that they are not getting paid for their time lost in lying idle with trains for six or eight hours outside the West Albany freight yard. The company gave no answer to the committee's demands, but decided to strike on Thursday if no favorable terms are offered by the company tomorrow.

TO CURB THE SENATE.

While speaking of "The Judiciary" Hon. Samuel P. Miller, of the United States Supreme Court, said that the separation of the powers of government is not as perfect as it might be. The Senate participates in the execution of the Executive, and the Executive in the execution of the Legislative function by being the constitutional body to impeach the officers of government.

TO SETTLE AT LAST.

Governor Wilson Will Call a Special Session of the Legislature.

WHEELING, November 19.—It has leaked out that acting Governor Wilson has prepared a call for a special session of the Legislature to convene on January 15. He has also prepared a bill to establish the State Normal School at Wheeling, which is to be introduced by one of his friends, and his call will embrace this one of the matters to be acted upon, together with several others, chiefly of local importance, in addition to the settlement of the gubernatorial question. The call will be made public in a few days. There has been considerable complaint against the Governor, on account of the Governor's delay in this matter. Over a year has passed since the election for Governor and the contest that ensued has not yet been settled by the Legislature, was in session nearly all summer and adjourned early in September, after completing its investigations. The call has been made for the Governor, that he has been waiting on the report of the committee to call the special session, but members of the committee hold that such a course is not necessary, because the committee is not obliged to report to the Governor.

THERE WILL BE NO STRIKE.

The Knights of Labor Opposed a Radical Eight-Hour Movement.

ATLANTA, November 19.—The session of the Knights of Labor was devoted to a resolution of the eight-hour question. Resolutions were adopted to the effect that the matter of short hours should be regulated by the demand. The effect of this is to be a general strike for the purpose of securing an eight-hour day.

NOTHING GAINED BY LING.

A Young Jeweler That Gets the Extreme Penalty of the Law.

POTTSVILLE, November 19.—The most important event occurring in the coal regions of Pennsylvania was the accidental discovery of a "find," just made, in the extensive colliery of Lawrence & Brown, at Mahoning Plane. The men were running a drift about 400 yards down, when they suddenly and unexpectedly struck a vein of pure coal. The "find" will go on record as one of the greatest accidental discoveries of a coal vein which has ever occurred in the history of the coal fields of Pennsylvania. The vein is over 200 feet thick and correspondingly wide.

THE BODIES OF THREE SAILORS CAST ASHORE BY THE WAVES.

LONG BRANCH, N. J., November 19.—A violent northeast storm has been raging here for 36 hours. The bluff between the Ocean Hotel and the Mansion House has been slightly damaged by the waves, while the breakers have driven the Hotel Brighton back into the sea within 21 feet of the west side of Ocean avenue. Many more such storms will totally ruin that thoroughfare, and many anticipate that unless better care is taken, the Hotel Brighton will in a few years have to be abandoned.

THE YOUNGEST CHIEF JUSTICE.

North Dakota Elects One Who is Only 31 Years of Age.

POUGHKEEPSIE, N. Y., November 19.—Guy C. H. Corlies, the newly elected Chief Justice of the Supreme Court of the new State of North Dakota, was a little over four years ago, a member of the bar of Dutchess county. He enjoys a reputation of being the youngest Chief Justice in the history of the English-speaking people, and possibly in the history of the world, he being only 31 years of age.

A Prominent New York Physician was called to his door early in the morning by a young man's vociferous pounding and violent ringing of his doorbell. Seeing that his caller was intoxicated and not in any respect a patient, he refused to open his door. He carried a lance which he snatched from the instrument from the physician's hand and slashed him across the head, face and hand. The slasher escaped.
