

LOOKING FOR A SITE.

Rumor Has it the Carnegie Union Mills Will be Removed.

MR. ABBOTT HADN'T HEARD OF IT.

Bolt Manufacturers at Their Meeting Advanced Prices.

PHILLIPS' HOT REPLY TO CAMPBELL.

A rumor was current in Lawrenceville yesterday that the lower and upper Unice mills are to be removed to some other section of the city.

Agita the upper and lower mills are now situated, and first they wish to build a new plant they would consolidate both mills and run them under one management.

Before they move their works, however, they desire to dispose of their present plant. It is their intention to build a new one and fitting it out with new and approved machinery.

Carnege sell their Lawrenceville works. It will be a blow to the advancing prosperity of the district.

The Pennsylvania Railroad has been cut by the Baltimore and Ohio road on passenger business to Washington and Baltimore.

The above outline of what the millionaire iron man intends to do with his works out Penn avenue is common talk among the firm.

They advanced prices. The nut and bolt manufacturers adjourn.

W. R. Walkley, of New York; S. W. Sessions and A. S. Upson, of Cleveland, and bolt manufacturers, who had been in the city attending the meeting of the trade.

John Phillips, the well-known glass worker, who has been expelled from L. A. 300, window glass workers, has written a reply to the statement made by James Campbell, President of the association.

John Phillips Denies It. He was called to try to settle the Green Bottle Strike.

President Smith, of the American Flint Glass Workers' Association, will arrive home today from Philadelphia where he went to attend a conference between the green bottle manufacturers and the executive board of the blowers.

An Honorary Member. John Flannery yesterday received a letter from J. F. Roenick, President of the Great Western Band, notifying the former of his election as an honorary member of the organization.

A Small Number Idle. In the current issue of the National Glass Budget is a table of the number of idle and working pots total.

The Thomson-Houston Electric Company, of Boston, Mass., has placed a contract with M. V. Smith, the metallurgical engineer of this city, for a gas plant.

A Contract From Tennessee. The Pittsburg Bridge Company has been awarded the contract for the superstructure of the new bridge across the Duck river, at Columbus, Tenn.

FOR SLEEPLESSNESS. Use Horsford's Acid Phosphate. Dr. C. B. Drake, Belleville, Ill., says: "I have found it, and it alone, to be causal in producing a sweet and natural sleep in cases of insomnia from overwork of the brain, which so often occurs in active professional and business men."

TROUBLE IN THE CHURCH.

Some Forest Grove Presbyterians Want to Lease and Others Do Not—Advocate Overhaul of Church.

The worshippers at the Forest Grove Presbyterian Church own several acres of ground attached to the parsonage. The oil boring fever runs high in that district and as there seems no reason to doubt that a good oil well might be gotten on the parsonage grounds they advocate the leasing of the property to an oil company.

Whether it is deemed scrupulous, or for some other reason, there is strong opposition on the part of some of the congregation to leasing the property.

As for the upper and lower mills are now situated, and first they wish to build a new plant they would consolidate both mills and run them under one management.

Some people are uncharitable enough to suppose that the opposition comes largely from abutting property holders who fear that their lives would not be sufficiently insured by bonds into funds, even by paying a bonus, it would be a benefit to get rid of so heavy a tax upon the Water Bureau receipts.

There are some who are favorable on the ground that the revenue from a good well for five years, and they could say to all, "And let him that is thirsty come, and whosoever will let him take of the water of life freely without money and without price."

As in Merrie England, saloons have been run for the benefit of churches, it would seem that there could be a similar possibility for the city if it could be done.

As for the self-supporting feature of the water works, it was not quite sure, but possibly some figures which he said to him that income came very near the high water mark of financial success.

THE WATER REVENUES. The receipts were as follows: Water rents for 1889, \$489,000; for 1888, through the Delinquent Tax Collector's office, \$70,000, and for 1887, \$2,700; total water rents to December 1, 1889, \$597,700.

THE FINANCE COMMITTEE'S ESTIMATE OF RECEIPTS FROM THE WATER ASSESSMENT BUREAU. The appropriation of 1889 for running expenses is \$198,715; bureau of water assessments, \$7,000; pipe extensions, consisting principally of the large distributing main which is an expense peculiar to the present year, \$75,000. This makes the actual running expenses for the year \$281,215, to which must be added \$100,000 sinking fund, and \$300,000 interest on bonds, making \$681,215.

A TERRIBLE EXPLOSION.

Had Accident at Phillips, Nimick & Co.'s Car-Span Street Mill—One Man Killed and Two Wounded.

An explosion of a cinder tap occurred at the mill of Phillips, Nimick & Co., on West Carson street, at 7:45 o'clock yesterday morning, which resulted in the death of one man and the serious injury of two others.

The names of the victims were: PATRICK O'BRIEN, a laborer, aged 40 years, skull fractured; died at Mercy Hospital at 10:30 last night; JAMES McBERT, a driver, seriously burned about body; removed to his home on Mt. Washburn.

JOHN KELLY, injured by flying cinder taken to his home on West Carson street, where he was taken to the Mercy Hospital. The cause of the accident is given as follows: Water in the morning had caused a pool of water to gather where the red-hot taps were laid when they were taken out of the furnace. A tap was raised in the morning, and the water filled up the bed and their hold on the tap slipped, and the water fell on the cinder.

Most of the liquid iron found a resting place on the body of Patrick O'Brien, and before his fellow workmen could get to him he was enveloped in a flame of fire. He was removed to the Mercy Hospital, where he lived until last night at 10:30 o'clock. He had worked at the Silgo mill for seven years. James McBERT, the driver, is about 30 years of age. His injury, while of a serious nature, is not considered dangerous.

FOR CHURCH GOERS. Efforts Being Made to Secure a Church Train on the Lake Erie.

IF WILLIAM A. SIPE, Esq., does not succeed in bringing the village along the Pittsburg and Lake Erie Railway into closer relation with the city it will certainly not be his fault. He has succeeded in building up a thriving settlement near Gibson.

THE REGULAR ANNUAL MEETING OF THE STOCKHOLDERS OF THE PITTSBURGH AND BALTIMORE RAILROAD COMPANY will be held at the office of the company, R. O. R. B. station, corner Smithfield and Water streets, Pittsburg, Pa., Monday, December 9, 1890, at 6 o'clock.
