Light Receipts of Cattle at East Liberty, and Markets

STRONG AT LAST WEEK'S PRICES.

No Prime Heavy Beaves Offered and Few of Light Weight.

SWINE HIGHER AND SHEEP WEAK

OFFICE OF PITTSBURGH DISPATCH, WEDNESDAY, APRIL 1. There have been about 65 carloads of cattle on the market at East Liberty this week, against 85 loads last week and 68 the week before.

The yards cleaned up. This morning the yards were cleared. There were little demand for stockers. The six or eight loads offered were sold at last week's prices.

Sheep and Lambs. The run was less than last week and quality of offerings was not average.

There was a fair trade in hogs, early but not much during the latter part of the session. Shorthorns were the principal buyers, while the price of hogs was about 10c higher than last week.

There was an immediate decline of 7 1/2c to 10c in the price of live hogs when the market opened on Monday. The decline was due to the fact that the market was overabundant.

FEATURES OF LOCAL SPECULATION

Sales during the past few days in several parts of the East End wards show that land there is still in demand. There has been no abatement, and there is likely to be. Even side street property is holding its own, and in some cases a little more. Owners by holding out for top prices demonstrate their faith in the future.

Practically all the business and dwelling houses in Pittsburgh are occupied. Those that are empty are objectionable to tenants in one or several particulars. They may be those that are located in a bad neighborhood, or held at an exorbitant rental. There are three distinct conditions with respect to this fact in every house in the city. Keeping this fact in view it is foolish to talk discouragingly of the present or take a dreary view of the future.

There is no deep-seated trouble. The demand for houses and their scarcity show already that there is no deep-seated trouble. The demand for houses and their scarcity show already that there is no deep-seated trouble.

OFFICE OF PITTSBURGH DISPATCH, WEDNESDAY, APRIL 1.

Country Produce—Jobbing Prices.

Eastern egg markets are strong and Western weak.

At New York there is a 2c market, and in St. Louis 1c per dozen is the price.

Here the stock is light, and there have been sales at 15c within a day or two.

There were 50 cases of Southern eggs shipped from here to New York today on the news of strong markets here.

The future of prices will hinge on the weather. With a few warm, sunny days will drop.

Elgin creamery butter is at 30c per pound at source of supply, and markets here weak accordingly, notwithstanding the fact that stocks are very light here.

On Friday there will be a 30c market here.

MONOTONY IN THE FIELDS.

LITTLE LIFE RECORDED IN THE PETROLEUM WORLD.

A Rich, but Temporary, Lead Struck in Old Craton Territory—Wildwood Has a Fair New Well—Butler and Armstrong County Production Figures.

The same monotony that has marked the progress of events in the past 60 or 90 days in the field situation was not changed during the past 24 hours.

At Chartiers, or rather Chartiers, Jennings & Co. were the first to strike a rich lead.

The well started off at a 600-barrel gush. Its collapse will soon follow, as the history of this effervescent pool could not consistently convey any other conclusion.

In this regard it is interesting to note that the new find, and in a few days matters here in this regard will have resumed their normal condition.

In old territory like the star of hope, and the same old story will be repeated in a number of new rigs.

Yesterday Thomas O'Brien, William Kennedy, Edgar O'Brien and Elmer McClain passed through the city en route to Tallahassee, Tenn., to drill a wildcat well.

The venture is in Coffee county, and is being drilled on a tract owned by Butler. Ex-Sheriff Reddick is President of the company, while the other members of the party will have their own shares.
