

RAIN COMES AT LAST. A Change of Weather Which Pittsburgh People Regret and

FARMERS RECEIVE WITH DELIGHT. The First New Signal Makes Observers Doubt Their Sight. BUSINESS IS SERIOUSLY INTERRUPTED. Pittsburgh seems doomed to suffer from the extremes of nature. Hot, sultry days when, nobody could keep enough have been followed by a season of cold and dampness when people are even more uncomfortable than during the hot spell. Yesterday was one of those sloppy, sticky, shivery days which paralyze business and act as a damper on all human joys. Its results will hardly be simply in making people growl. Such condition of the atmosphere is decidedly conducive to various kinds of sickness and benefits nobody but physicians and undertakers. It is expected that this week's death toll will be considerably ahead of previous ones.

The sudden change to cold weather has served to impress on people's minds the unpleasant features of a season of nature. As fires were needed everywhere, and in some places they could not be had. NOT ENOUGH GAS FOR ONE DAY. The public school at Bellevue had been closed all day on account of the lack of gas. The rooms were so cold that occupants without fire. The teachers struggled to the 200 mark before noon, but did not remain there long. Shortly after dark it fell to 42°, about 6 o'clock the clouds that had hovered over the chilly city all day began to let go a slow, drizzling rain, which continued at intervals during the night. Comparatively few persons ventured down town. The streets had a deserted appearance and beggars and other places of amusement were almost deserted. The rain had the effect of dispelling all fears of a frost last night. The signal system has again been put into effect by the Weather Bureau. The first gale came yesterday without fire. The rain was, however, rather started at the coal. It was a large white flag indicating rain and fair weather. Many persons wonder whether they were really hit when they saw the lowering clouds late in the day.

THE WHITE FLAG STILL FLOATS. A second look still showed the white flag, high fluttered at the top of the Schmidt building, in defiance of all the indications of a speedy downpour of rain. It was white, with a blue border. The old style of signals was used. The rain had been placed at the top of the white flag, indicating clear or fair weather. No. 2, blue flag, rain or snow; No. 3, white and blue flag, parallel bars, local rain or showers, but not general; No. 4, black triangular flag, denoting temperature below zero. It was stated that Huntley got into a dispute with the conductor of a Pittsburgh, Allegheny and Manchester car on Superior avenue. In retaliation, he threw stones through the window of the car. He is arrested by Officer Livingston.

Returns Like a Monte Cristo. Yesterday Miss Mary Pollock, of Hazelwood, received a present from her uncle, Mr. Anderson, in the shape of a draft for \$1000. For years he has been mourning as if, but now turns up in California enormously wealthy. He went West in 1849 and died a fortune. The next time he returned in 1879. Merrill, Insurance Commissioner of Massachusetts, on the "Stability of Fraternal Beneficial Societies," an address on "Good Work Done by Fraternal Societies," by the Rev. Richard L. Howard, Imperial Prelate, and musical selections by Prof. George Frey, the Bethoven Quartet, the Double Quartet, Mr. Charles Cooper and Mr. Thomas S. Stout.

GERMAN AIRS GREETED WITH APPLAUSE at the Exposition Last Night. A programme of German music was rendered by Cappa's Band, and it was listened to by one of the largest audiences of the series. After the entertainment the Musical Union Protective Association, to the number of about 200, escorted the band to Turner Hall, Forbes street, where a banquet was given in honor of the visitors. The association played a military march on the way from the Exposition to Turner Hall.

THE "Battle of Gettysburg" will be given on Monday and on Tuesday. The popularity of this piece of music, with its accompaniments of guns and other effects by Battery B, seems never to fade. The audience last night listened to it with rapt attention, and the wild hurrahs of applause at the end were most inspiring.

IT should be remembered that there are only nine more days of the Exposition, and then it will be closed for nearly a year again. The crowds of strangers in the city every day is proof in itself of the interest felt in the great show outside the city. There have been dozens of excursions, and every one is attended by hundreds of people who would never see Pittsburgh under any other circumstances. The advantage of this is to business in Pittsburgh is obvious, and it is no wonder that merchants say they would like to see the Exposition last 80 days instead of 40.
