

NORFOLK AROUSED.

The jockeys of the Norfolk press are just now raising a "hullabaloo" over the proposition before the General Assembly to charter the extension of the Alexandria and Fredericksburg railroad to Richmond. Self-preservation, of course, is the first law; but in this we think Norfolk is showing herself entirely too selfish.

cannot get any worse; therefore, any change will be for the better.

It matters not how many roads may be built to terminate here or continue on through, we shall eventually be benefited by them. All we desire is that they may be built and paid for, and it makes no difference where the money comes from or under whose direction it is expended.

But these Norfolk people mean business, and we must be prepared to meet and thwart their schemes, or rather the schemes of Mr. Moncure Robinson, the Seaboard Road, and the Bay Line.

Let them instruct our Senators and Delegates in the General Assembly to oppose this scheme with their ability. Let a protest be prepared and forwarded to them for presentation to the General Assembly, setting forth our opposition to this scheme, and the grounds for it.

Gentlemen of the Board of Trade—this matter comes under your supervision. See to it that you discharge your duty to this community. Let not the trade that belongs to Norfolk be spirited away to Philadelphia by your indifference.

SPECIAL NOTICES.

THE "PAIN KILLER." Pain is supposed to be the result of a poor circulation, as inevitable as death itself and liable at any time to come upon us. Therefore it is important that remedial agents should be at hand to be used on an emergency.

Such a remedial agent exists in the PAIN KILLER, whose fame has made the circuit of the globe. Amid the eternal fogs of the polar regions or beneath the intolerable burning sun of the tropics, its virtues are known and appreciated.

Such unexampled success and popularity has brought others into the field, who have attempted, under similarity of name, to usurp the confidence of the people and turn it to their own selfishness and dishonesty.

HELMHOLD'S WOMAN.

Female, owing to the peculiar and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these contribute in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but none of these various female complaints can long be suffered to run on without involving the general health of the individual, since long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her gratification, as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMHOLD'S EXTRACT OF BUCHU.—Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbirth, it is far often caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family.—The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half-clothed, and the mind unduly excited by pleasure, perverting in midnight revels the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school to a later date, thus aggravating the evil. When one exists morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of temperature, the complete prostration produced by excessive dancing, must, of necessity, produce their legitimate effect. At last, an early marriage cures the climate of misery, and the unfortunate one, hitherto so utterly regardless of the plain diet and remonstrances of her "delicate nature," becomes an instance of medical treatment. This is but a truthful picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative nervous system, composed of what is called the tissue, which is, I common with the female breast and lips, evidently under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.

For Female Weakness and Debility Whites or Leucorrhoea, Profuse Menstruation, Exhaustion, Too Long Continued Periods—Profuse and Bearing Down, or Protrusion Uteri, we offer the most perfect specific known: HELMHOLD'S COMPEND EXTRACT OF BUCHU. Directions for use, diet, and advice, accompany.

Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. Strength is the glory of manhood and womanhood. HELMHOLD'S EXTRACT OF BUCHU is more strengthening than any of the preparations of Bark or Iron, infinitely safer, and more pleasant. HELMHOLD'S EXTRACT OF BUCHU, having received the endorsement of the most prominent Physicians in the United States, is now offered to afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Restlessness and Sleeplessness at night, Absence of Muscular Efficiency, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization or Paralysis of the Organs of Generation, Palpitation of the Heart, and, in fact, all the concomitants of a Nervous and debilitated state of the system.

To insure the genuine, cut this out. Ask for HELMHOLD'S. Take no other. Sold by Druggists and Dealers everywhere. Price \$1.25 per bottle, or six bottles for \$6.50. Delivered to any address. Describe symptoms in all communications. Address H. T. HELMHOLD, Drug and Chemical Warehouse, 59 1/2 Broadway, N. Y.
