

WORK.

Any where, everywhere, something to do! Some work for me, some for you, some for the hand and work for the head, work for the winning of daily bread.

and exhausted by the excitement, staggered at times, and at times reeled in a way to make one shudder.

That such would probably have been the result became painfully apparent, when an abrupt and somewhat unexpected termination was put to the sport.

An hour after this event I found myself gazing into the dim opening of the tunnel nearly a mile in length, from the mouth of which came the cold, damp air in puffs, as if a dragon were coiled up within and puffed out a bluish flame.

GRADUATED GRINS.

Crazy Dick.

The railway station called Glen Cove is one of the dearest this side of that final resting-place, said to have a very hot climate, and other things, more especially ticket agents, flocks, more especially infernal laborers.

One hot sunny day this summer I found myself anticipating the punishment due for sins and shortcomings in this world, by waiting at Glen Cove for a train long overdue, as if the trains themselves disliked approaching the town in which I suffered.

Now whether she was frightened and didn't know what she was about, or wanted to kill herself, can't be known, but she shot right in front of that train, saw the light shine like lightning on a rickety old car, and threw myself back against the wall, and then a roar like thunder, a shriek, and the whole thing seemed wiped out as if a sponge had been run over it.

INDUSTRIAL SOCIETIES.

American Pomological Societies. In conformity with a resolution adopted at the last meeting of this National Association, the undersigned hereby give notice that its thirteenth session will be held in Assembly Hall, Eighth street, between Adams and Franklin streets, in the city of Richmond, Virginia, on the 6th, 7th, and 8th days of September, 1871.

The coming session promises to be especially interesting, held as it will be in conjunction with the exhibition of the Virginia Pomological and Horticultural Society, and at a great central point, farther South than any previous session of the institution.

From the station-house to the tunnel was about a mile; to accomplish this the idiot and the train occupied some twenty minutes. The passengers crowded upon the platforms look as if very much interested in the affair as the engine puffed its way down the track.

These reports should be transmitted by mail to F. R. Elliott, Secretary, Cleveland, Ohio, as early as possible.

Arrangements have been made with the various railroad companies terminating in Richmond to return all members and others free of charge who have paid full fare in coming, and who exhibit certificates of the Secretary of the Institute.

Members and delegates are requested to contribute specimens of the fruits of their respective districts, and to communicate in regard to them whatever may aid in promoting the objects of the Society and the interests of American pomology.
