The New York Times and the Tribune on Governor Bullock.

New York, Nov. 2.—The Times says: "Governor Bullock, of Georgia, arrived in this city yesterday. He states that all his official acts are matters of record, and that Governor Canby has a detailed statement of all financial transactions and that there of all financial transactions, and that there is no foundation whatever for the wild charges that are being made against him. He also states that he is ready for any fair investigation, and intends soon to return to Georgia and demand it; but he is not willied to promise the state of willing to permit any arrest, at the instance of his political enemies in Georgia, because his friends advise him it would result in his being ku-kluxed by a mob under the insti-

The Tribune says: "The letter of Gov. Bullock, of Georgia, announcing his resignation, is not very clear upon the points on which the public desire more light. He says he resigned because there was a conspiracy to impeach and remove him, and that by resigning he defeated that conspiracy. Some people will say that he gave up his office to escape impeachment, but Gov. Bullock also says that by surrendering his office into the hands of the President of the Senate, Mr. Conly, he secured an honest successor. As we understand the case Mr. successor. As we understand the case Mr. Conly would have become acting Governor even if Governor Bullock had been removed by the conspirators, and the retiring Gover-nor expressly says that no proceedings against Conly have been suggested. The whole affair is certainly very hazy."

The latest details of the Los Angelos horror gives a worse version of the riot than was first reported. The mob appears to have been actuated solely from animosity of race and a desire for plunder. The witnesses before the coroner's jury are apparently reluctant to give testimony, fearing that they will implicate two Chinamen, who boasted of having assisted in killing the Chinese. The Chinaman who shot Officer Beldwam has been arrested and turned over to the authorities by the Chinese themselves and is now in jail. Only four rioters have been arrested. Savings for Old Age.—No one denies that it is wise to make provision for old age, but we are not all agreed as to the kind of provision it is best to lay in. Certainly we shall want a little money, for a destitute old man is indeed a sorry sight; yes, save money by all means. But an old man needs just that particular kind of strength which young men are apt to waste. Many a foolish young fellow will throwlaway on a holliday a certain amount of nervous energy, which he will never feel the want of until he is seventy, and then, how much he will want it! It is curious, but true, that a bottle of champagne at twenty, will intensify the rheumatism at threescore.

It is a fact, that overtasking the eyes at fourteen, may necessitate the aid of spectacles at forty instead of sixty. We advise our young readers to be saving of health for their old age, for the maxim holds good in regard to health as well as to money, "Waste not, Want not." It is the greatest mistake to suppose that violation of the laws of health can escape its penalty. Nature forgives no sin, no error; she lets off the offender for fifty years sometimes, but she catches him at last, and inflicts the punishment just when and where, and just how he feels it most. Save up for old age, but save knowledge; save the recollections of good and noble deeds, innocent pleasures and pure thoughts; save friends, save love. Save rich stores of the kind of wealth which time cannot diminish nor death take away.—Rural New Yorker.

THE NEW "SHORT CUT" TO EUROPE.
The opening of the European and North American railway is an event of more than usual importance. This road, which completes a connection between New York and Halifax by the most direct route practicable, will shorten the present quickest time between that port and Liverpool by many hours, and when the line is completed to White Haven Bay, at the extreme eastern end of Nova Scotia, the distance to Liverpool will be still further reduced by cutting off some one hundred and twenty-five miles of sea voyage.

of the voyage, it may be expected that the new line will effect an important diversion of European travel. No such diversion of freights need be anticipated, since the cost of trans-shipment and forwarding them by rail anticipated, since the cost of trans-shipment and forwarding them by rail would be at once more costly and less ex-peditious than by sending them direct to this and other ports of entry without breaking bulk; but it is safe to predict for the line an extensive and profitable local and through traffic, and its prospects of success rest upon a substantial basis.— New York Bulletin.

few days since, was challenged by the thatis-to-be husband of the insulted. While the challenged party was reading the invitation to go out and be shot, his little daughter came up and said, "Papa, mother wants you!" The fither then turned to the challenge-bearer, and said:

"This is my little girl, whose happiness and education and living would be taken from her were I to be killed. I have also a wife and a baby whose welfare I must look to. This meeting, if fatal to me, would deprive them of their only support. My opponent is a young man, without wife, or children, or family. He has very little to lose." The challenge-bearer was almost melted to tears. The picture just drawn was true to life, and he determined to return to his principal and ask for a compromise. The latter was a high-toned, chivalrous Kentucky gentleman, whose heart at once responded to the appeal for mercy. A compromise was effected. It was agreed that the duel should be postponed till the first party got married and became the father of children. Then they will be on an equal footing and can test each other's courage.

MEDICAL. DR. JOHNSTON,

BALTIMORE LOCK HOSPITAL,

OFFICE, 7 SOUTH FREDERICK STREET

From his extensive practice in the great Hospitals of Europe and the first in this country, viz: England, France, Philadelphia and elsewhere, can offer the most certain, speedy and effectual remedy in the world for DISEASES OF IMPRUDENCE.

Weakness of the Back or Limbs, Strictures, Affections of the Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Sight or or Giddiness, Diseases of the Head, Throat, Nose or Skin, Affection of the Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret and solitary practices more fatal to their victims than the song of Syrens to the Mariner of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriages, &c. impossible.

YOUNG MEN.

Especially, who have become the victims of Solitude Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talent and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyree, may call with full confidence.

Married Persons, or Young Men contemplating marriage, being aware of physical weakness, organic debilities, deformation, &c., speedily cured. He who places himself under the care of Dr. J. may religiously confide on his honor as a gentleman and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS.

gentleman and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS.

immediately cared and full vigor restored.

This dreadful disease—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgencies. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasures of healthy offspring, the most serious and destructive symptoms to both bedy and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, coughs, consumption, decay and death.

A CURE WARRANTED IN TWO DAYS.

Persons ruined in health by unlearned pretenters who keep them trifling month after month, taking poisonous and injurious compounds, should apply immediately.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds bashfulness, with frequent blushing, attended sometimes with a derangement of the mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgencies and solitary habits, which ruin both body and mind, unfitting them for either business, study, society, or marriage.

especially of Rheumatism, Gout, Dyspepsia, Constipation, Torpidity of the Liver, Weak Lungs, and Incipient Consumption, Paralysis, Poor Circulation, General Debility, Curvature of the Spine, Scrofula, Diseases of the Skin, Ute-rine Weaknesses and Displacements, Sperma-torrhea, etc. Any one wishing further information should should send for a circular, containing further par-ticulars, terms, etc., which will be sent free by return mail.

These are some of the sad and melancholy effects produced by early liabits of youth, viz. Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption

MENTALLY.

The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now Judge what is the cause of their declining health, loosing their vigor, becoming weak, pale, nervous, and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption.

YOUNG MEN

who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and, if not cured, renders marriage impossible, and destroys both mind and body—should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons, Musr, before contemplating

marriad mandinging in a certain series habit. Such persons, MUST, before contemplating

MARRIAGE,
reflect that a sound mind and body are the most necessary requisites to promote connubial hapiness; indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with your own.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shatne or dread of discovery deters him from applying to those, who, from education and respectability, can alone betriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of caring, fileh his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and with deepair leave him with ruined health to sigh over his galling disappointment, or by the use of that deadly poison Mercury, hasten the constitutional symptons of the terrible disease, such as Affection of the Head, Throat Nose, Skin, etc., progressing with frightful rapidity till death puts a period to his dreadful suffering by sending him to that undiscovered country from whose bourne no traveller returns.

To such, therefore, Dr. Johnston offers the most certain, speedy, pleasant and effectual remedy in the world.

ENDORSEMENT OF THE PRESS.

The many thousands cured at this institution within the last eighteen years, and the numerous Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the "Sun' and many other papers, notice of which appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficicient guarantee to the afflicted.
