

There are two species of moths which infest furniture. One is a large fly, of silvery white color; the worm of the same is shaped like a chestnut worm, and is familiarly known. It rarely infests furniture.

This moth has no season. It destroys in winter and summer alike, as it is kept in active life by the constant heat of the house. We find at the same time in the same pieces of furniture, the fly, the worm, and eggs—thus showing that they are breeding and destroying all the time.

It does not eat good, pure, curled hair, but fastens its cocoon to it, the elasticity of which prevents its being disturbed. The inside of the furniture is used by it only for purposes of propagation.

The worm when ready for food, crawls out and destroys the covering, if of woolen or plush material, and finally cuts through the plush from the inside, as it is of cotton cloth, but there are instances where they have cut up muslin on the outside backs of sofas.

New furniture should be removed from the walls at least twice a week at this season of the year, and should be well whisked all round, and particularly under the seats, to prevent the fly from lodging. This is an effectual preventive, and the only one known.

We are in favor of reform in the administration of justice in this state, and an enforcement of the state constitution in this respect, which will secure impartial justice to all, irrespective of race, color, condition or political sentiment.

We favor the election of the president, vice-president, and all other officers of the government, as far as possible, by the direct vote of the people.

We approve and endorse the noble and humane policy inaugurated by General Grant's administration, whereby all international disputes shall be made the subject of arbitration, thereby preventing the dread havoc of war.

The Federal courts should be accessible in all the states, to all citizens on appeal for redress of wrongs or protection of rights, in cases, where, upon a proper showing, equity demands it.

We demand reform in state laws in order to secure fair elections, by the abolition of partisan supervisors, to enable every voter to exercise the right of suffrage according to the dictates of his own conscience.

THE DEMOCRATIC PARTY IN ARIZONA. The Missouri Republican, the leading Democratic paper of the southwest, says that in the national field the Democratic party is practically dead—that in Missouri the promise of reform given by the Democratic party at its recent convention has failed of fulfillment—that the party leaders have turned their backs upon the progressive measures of the period, and when compelled to obey the people they have shown half-heartedness.

REMEMBER that a raw egg will clear your throat of fish bones. Put one in a little hot wine, add some sugar, and the fish bones will slip down all the easier. P. REPUBLICAN PLATFORM. Adopted Unanimously by the Republican State Convention, at Lynchburg, July 30th, 1873.

The Republicans of Virginia, in state convention assembled, do now formally announce their principles to the voters of the commonwealth. They reaffirm and reiterate their platform of 1872. They endorse and approve the administration of President Grant in the past, and pledge it their support for the future.

TAXATION. We are in favor of the ad valorem system of taxation, as adopted by the state convention, as the only just and equitable system, and pledge ourselves to its support and enforcement.

The tide-water population of the state have paid without complaint the taxes necessary for the support of the state debt contracted for public improvement, from which they derive no local advantage, and are entitled to demand a repeal of any law levying a tax upon any interest or property not general in this commonwealth.

use every endeavor to secure its early completion. We also favor such a liberal system of railroad improvement as shall tend to develop all sections of our state, and we call upon the voters of this commonwealth to unite with us in securing these desired results.

THE PUBLIC DEBT. The Republican party of Virginia, in common with the national Republican party, is opposed to all forms of repudiation, and favors such a financial policy as shall tend to the payment of the public debt of the state without being oppressive upon her citizens.

We regard the expenses of our state government as disproportionate to the available resources of the people, and demand that they shall be made more fully to conform thereto. We disapprove all extra compensation, and favor economy in government, state and national; that we deem the act known as the "funding bill" as impolitic, unjust and oppressive, and enacted solely in the interest of bondholders, regardless of the condition of the state resources; and we are in favor of and demand the submission of the question of the financial obligation of West Virginia to the supreme court of the United States for decision.

MATERIAL DEVELOPMENT. We are in favor of the development of the material resources of our state, which, under the rule of the Conservative party and its predecessors, have lain dormant. The mines of coal, iron and other minerals, the vast water-power, and the many other material resources of the state, which exist in rich profusion on every hand, need but enterprise and capital to develop them, and thus make Virginia one of the greatest manufacturing states in the Union.

To this end, we are in favor of such liberal legislation as shall tend to encourage the investment of capital in mining and manufacturing operations, and of general laws of incorporation, together with such a liberal spirit on the part of our people as shall invite men of enterprise to come and dwell among us.

REFORM IN THE ADMINISTRATION OF JUSTICE. We are in favor of reform in the administration of justice in this state, and an enforcement of the state constitution in this respect, which will secure impartial justice to all, irrespective of race, color, condition or political sentiment.

We favor the election of the president, vice-president, and all other officers of the government, as far as possible, by the direct vote of the people.

ARBITRATION. We approve and endorse the noble and humane policy inaugurated by General Grant's administration, whereby all international disputes shall be made the subject of arbitration, thereby preventing the dread havoc of war.

FEDERAL COURTS OPEN TO ALL. The Federal courts should be accessible in all the states, to all citizens on appeal for redress of wrongs or protection of rights, in cases, where, upon a proper showing, equity demands it.

REFORM IN STATE LAWS. We demand reform in state laws in order to secure fair elections, by the abolition of partisan supervisors, to enable every voter to exercise the right of suffrage according to the dictates of his own conscience.
