

THE FINANCIAL PROBLEM AS SOLVED BY THE EXCHEQUER.

What is the legal tender note? It is an evidence of debt due by the government of the United States to the holder—nothing more, nothing less.

What ought the circulation of a country to be? It should be the representative of the business transactions of that country, possessing the quality of being a debt due to and from the issuers.

Resolved, That the committee on the postoffice and post roads be authorized to report House bill No. 825, providing for the free distribution of printed matter, &c., on Thursday, February 12, and that it be made the special order for that day at half-past one o'clock, and from day to day thereafter until disposed of.

The vote was—yeas 164, nays 46, not voting 58.

Mr. JUDD, a prominent publisher of Washington, was heard before the committee on postoffices and post roads on the proposition to prepay all mail matter.

He advocated the prepayment at three cents a pound of all published matter. As to the precise limit we are not decided, but we are strongly in favor of the principle.

There is neither sense nor justice in the present system. The method first called for to our attention by the Richmond Dispatch of weighing and prepaying the whole edition meets our entire support.

It would take a great burden off the publisher and the mailing clerks, and be entirely equitable as between all publishers.

One by one the rogues who have made the history of the last few years in this country notorious are falling before the law or public opinion, or both combined.

New York and Kansas have been conspicuous in their efforts to relieve themselves of corrupt men, and their example seems to have become fashionable almost everywhere, although results are more tardy and doubtful.

The latest instance is the verdict against George O. Evans, in Pennsylvania, for frauds upon the state, and his sentence to pay a fine of one hundred and eighty-three thousand dollars.

THE DISTRICT INVESTIGATION. A fair committee, we believe, has been raised to investigate the charges against the Washington city authorities.

But we modestly suggest to the Richmond Enquirer, that while this investigation is pending, the press should postpone its verdict. If that journal is in possession of facts not known to the general public, Senator Thurman and his associates will give them a hearing.

There is probably no question before the House at present, not even excepting the Civil Rights bill, which lies so near the hearts of the Southern members as the desire to reduce, if possible, and not increase the taxation of tobacco.

CONSERVATIVE VICTORY IN ENGLAND.

The returns from the English elections seem to leave no doubt of the triumph of the Conservatives by a large majority. Gladstone will probably yield the Premiership and Disraeli will once more come into power.

A BILL is now pending before the House of Representatives providing for the free distribution through the mails of printed matter, etc., and is likely to elicit an expression of opinion, for and against the measure which will definitely settle it for some time.

A bill to provide for the distribution of public documents printed by authority of Congress, and of seeds furnished by the Agricultural Department, for the free exchange of newspapers between publishers, and for the free transmission of weekly newspapers by mail within the country where published.

Resolved, That the committee on the postoffice and post roads be authorized to report House bill No. 825, providing for the free distribution of printed matter, &c., on Thursday, February 12, and that it be made the special order for that day at half-past one o'clock, and from day to day thereafter until disposed of.

JNO. W. RISON, PROPRIETOR OF HERMITAGE NURSERIES, RICHMOND, VIRGINIA.

1,500,000 APPLE AND PEACH TREES FOR SALE THIS SPRING. Appreciating, as I do, the fact that many have been prevented planting orchards by the prices charged for fruit trees since the close of the war, and the past season having been very favorable for growing nursery stock, I have determined to give all an opportunity to supply themselves by putting first-class apple trees at \$16 per hundred, and peach trees at \$14 per hundred, to be ordered any time this Spring before the 10th of March.
