large number of letters. Shortly after I o'clock, and about the time the guests of the house were and about the time the guests of the house were taking dinner, a report of a pistol was heard, and nearly five minutes afterwards a second report proceeded from the same locality. The officers of the house immediately repaired to the room from whence the report came, but for a time were unable to gain admittance, the door being securely locked. An entrance, however, was effected by forcing the door, when one of the most horrid sights upon which man ever gazed presented itself to view. Mr. Jones was lying on the bed, still alive, though he had shot himself twice, both balls entering his head, one through the left corner of the right eye, the other through the right corner of the left eye, the latter ball having torn off half his nose and almost one side of his head. The unfortunate man writhed in the most terrible agony for full balf an hour after being discovered, when death kindly put an end to his sufferings, and his soul, unbidd-n, took its flight into eternity.

received the last year, compared with any previous year.

The School is becoming year by year better qualified to do its work to the satisfaction of all. We have now a full corps of Southern Teachers—all Virginians. We advise Eastern Virginians especially to examine our rates, and the advantages we offer, feeling assured that if they do so we shall have a large patronage from that quarter. To our own Conference people we say, here is your School. Will you make it the best in the State—an institution which the whole Church will be proud of? or will you let it languish for the want of the patronage you are sending elsewhere? We call upon you to rally to your church School. We challenge any School of a similar grade in the land to present a better standard of gradation than the W. F. Institute. We invite special attention to the ccurse of study laid down in the Catalogue. For further information apply for a Catalogue to For further information apply for a Catalogue to

This institution offers to the Student every facility This institution offers to the Student every facility for the acquisition of a thorough medical education.

Through the liberality of the Legislature, at its last session, in appropriating the sum of Thirty Thousand Dollars in a d of the College, these facilities will be greatly extended. A new Hospital is now in course of erection, in immediate proximity to the College, which will much enlarge the field for Clinical instruction. All needful repairs and alterations of the College building will be duly accomplished, and large and important additions are being made to the apparatus and illustrations for the Lectures in every department.

Ample factures will be anorded for the prosecution of Practical Anatomy.

Instead of the "Warren Prize," of One Hundred Dollars heretofore offered to the graduating class, Two Prizes, of Fitty dollars, each are now offered—one for the best Essay, on any Surgical subject, and the other for the best Essay on any subject pertaining to the Theory or Practice of Medicine.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TETTER'S CELEBRATED STOMACH BITTERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Ditters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like

are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of arrive during the summer season, the wear of arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent in case of bodily strength.

LIFE INSURANCE. THE INSURANCE.

The Virginia Life Insurance company is now fully prepared for business, and the attention of the public is earrestly called to the importance of its objects. This company, under its charter, divides seven eighths of its profits every three years, among the policy holders, thereby giving the assured the advantages of the mutual system, with the pledge of a perpetual Capital Stock of \$100,000, and the added security that its Stockholdors have a permanent moneyed interest in conducting its affairs with prudence and economy.

The Charter requires that one-half of the Capital Stock and Earnings to be invested in Bond and Mortgage on unincumbered Real Estate, worth double the amount.

The chief object of the company is to aid in retaining at home the immense amount of money which goes annually from our State for Life Premiums to Northern Companies. That money will be loaned to customers for a term of years, at legal interest, and disbursed in our midst.

Endowments and Annuities granted. Life and term Policies issued at as low rates as other good Companies. Slaves insured for one year or for a term of
