NOTICE.

I have fully secured, by Letters Patent, my discovery for manufacturing Steel-cast or malleable-iron blast furnaces, with converters attached, or in common large fires, in the United States of America, England, France, Russia, Prussia, Sweden and Belgium. I offer by royalty the advantage of my discovery to all manufacturers of iron and steel on favorable terms and guarantee a success or no charge, and all claims made in violation of my process, where the trial is made under my personal attendance or my representative, I will make good by paying the cost of stock and labor. I manufacture malleable steel in any form for pipe puddling or balling fires, without alteration in the fire or blast, and at figures so low that no one will fail to be satisfied. He who removes his shop to a room formerly occupied by Dr. B. B. Donaghe as an office, and I visit all his friends and the public generally to give him a call.
