SAD ACCIDENT.—The Bridgewater correspondent of the Rockingham Register furnishes the following particulars of the fatal accident to Benj. F. Thomas which occurred last Saturday week: "At an early hour, a young man by the name of Benj. F. Thomas, about twenty years of age, was engaged at work at the saw mill of Frank Cook, near the bridge over the river at Bridgewater. He was engaged in cutting a log, and was standing in the machinery and had his right leg so fearfully crushed as to cause his death in a few hours after. Dr. Minor, of Bridgewater, was summoned to the aid of the unfortunate sufferer, and called in council several of his physicians, but it was past human skill and his spirit took its flight to rest with that of his father, the Rev. Daniel Thomas, who died several years ago. He was buried at Beaver Creek Church on Sabbath last, where the funeral services were conducted by Rev. John Flory aided by Revs. Solomon Garber and John A. Miller. The sermon was an impressive one and delivered to a very large congregation of sorrowing relatives and friends.

Young Thomas was in many respects a very remarkable man, and particularly noted for his honor, integrity and unflinching manliness and intelligence, and who had lived with good success in the most trying and arduous of an illustrious life.

The French Lottery. It is announced that the French Government has authorized another Lottery, so pressing has been the demand for it on the part of the public. The previous one, which was authorized in 1870, was a failure, and the wide distribution of the numerous prizes gave all ranks a taste of the satisfaction to be had in winning a few francs.

A Vote from Goodland. GOODLAND COUNTY, VA., July 20, 1882.—At the time for making ready for the November election of Members of the United States House of Representatives is drawing near, and the day is not far distant when the "sixteen thousand voters of the Seventh District" should be looking around them for a standard-bearer to lead them in that contest. The issues involved are of the most vital importance to every one of us, and I feel justified in taking the liberty of giving the "Old Tenth" a few lines of advice. It is but natural that the "sixteen thousand voters of the Seventh District" should be looking around them for a standard-bearer to lead them in that contest. The issues involved are of the most vital importance to every one of us, and I feel justified in taking the liberty of giving the "Old Tenth" a few lines of advice.
