AN ADVERTISER'S BACK. It often times a more serious matter than it seems. If it proceeds from disordered kidneys, the sufferer has real cause for alarm—and it is not until the disease comes from the kidneys, that it is really a serious matter. If it is such your right, you cannot use Hinder's Kidney Cure. Your case may be a very serious one, you know it. Hinder's Kidney Cure is a sure cure, the only sure cure, and is of all ailments of the kidneys, bladder, liver, and urinary organs—a very dangerous disease.

CURIOUS CASE.—We were shown last week, by Mr. D. T. Turner, who lives on the Shenandoah River, a specimen of very curious corn, which he raised last year from some seed sown several years ago. It is in the form of a corn cob, but the grain is in the form of a small, round, white, seed-like object, and is covered with a fine, silken covering. It is called, in Nebraska, "cattle corn," from the fact that it is only suitable for feeding cattle. The cob is very small and is covered with a fine, silken covering. It is called, in Nebraska, "cattle corn," from the fact that it is only suitable for feeding cattle.

PHOTOGRAPHY.—Charles E. Rowe, belonging to Mr. A. A. Spauld of this county, gave birth recently to four lambs, which are still alive and doing well. Closing Exercises of the Augusta Female Seminary.

REPORT OF PRINCIPAL—AWARD OF PRIZES, MEDALS, &c.

The Augusta Female Seminary, for reasons before given in the report of the Principal, Miss M. J. Baldwin, closed last night, a week before the time heretofore appointed.

The concert last night was consequently a very short one, but made up in quality what it lacked in quantity. The pieces rendered were in closed recitation, earlier than the best selections from the programme, which had been prepared for two nights' performance.

After the concert, the report of the Principal was read as follows:

REPORT. In consequence of the development in the Seminary, which during the past week, of one case of scarlet fever, of a mild type, the present session is closed in recitation, earlier than the appointed time. This course was adopted for the purpose of preventing the spread of the disease, and for the purpose of giving the pupils more time for study.

The session 1882-83 has been eminently profitable. The number of pupils was about two hundred, including as many boarders as the Seminary was willing to receive. During the session the Seminary has been visited by a large number of ladies, and the Seminary has enjoyed uninterrupted health.

The moral tone of the school, always high, has been maintained by the outpouring of the Holy Spirit of God.

The Principal desires to express her grateful appreciation of the friendly and generous contributions of the friends of the Seminary, and her hearty commendations to the pupils for their uniform diligence and good conduct.

Following the Report, the Prizes, Medals, &c., were awarded as follows:
