Profound regret has been inspired among our people by the apparent defeat of Judge A. N. Campbell for reelection as Judge of this Circuit. For this result the immense and very suspicious increase of Fayette county's vote is responsible. We hear, however, that in canvassing the returns from Fayette this week the County court of that county has already thrown out the votes of 400 negroes who voted at two precincts and is proceeding to throw out the votes of others upon the score of illegality. If this is so it will have the effect of electing Judge Campbell and will also place Mr. E. I. Holt in the State Senate, who will defeat Chris. When we begin to exceed repair in our body you are going to fall sick. The signs of it are loss of flesh, paleness, weakness, nervousness, etc. The repair needed is food. You think you eat enough, and yet you feel that you wear out more tissue, energy, nerve-force, than your food makes for you. The difficulty is that you do not digest enough. And this is so because it is worth sitting down seriously to think about. If you can't digest what you eat, take a few doses of Shaker Digestive Cordial. The effect of it will be to increase your flesh and make you feel stronger. You won't fail to see. Proof that it is in control of your repair apparatus. It is easy enough to test this for yourself. Take a few bottles of Shaker Digestive Cordial.
