MY BIRTH DAY.

"My birth-day"—what a diff'nt sound
That word had in my youthful ears!
And how, each time the day comes round,
Less and less white its mark appears!
When first our scanty years are told,
It seems like pastime to grow old;
And, as Youth counts the shining link,
That time around him binds so fast,
Pleased with the task, he little thinks
How hard that chain will press at last.
Vain was the man, and false as vain,
Who said—"were he ordain'd to run
"His long career of life again,
"He would do all that he *had* done."
Ah, 'tis not thus the voice, that dwells
In sober birth-days, speaks to me;
Far otherwise—of time it tells,
Lavish'd unwisely, carelessly;
Of counsel mocked; talents made
Haply for high and pure designs,
But oft, like Israel's incense, laid
Upon unholy, earthly shrines;
Of nursing many a wrong desire;
Of wandering after Love too far,
And taking every meteor fire,
That cross'd my pathway, for his star.
All this it tells, and, could I trace
Th' imperfect picture o'er again,
With pow'r to add, retouch, efface
The hights and shades, the joy, and pain,
How little of the past would stay!
How quickly all should melt away—
All—but that Freedom of the Mind,
Which hath been more than wealth to me;
Those friendships, in my boyhood timed
And kept till now unchangingly;
And that dear home, that saving ark,
Where Love's true light at last I've found,
Cheering within, when all grows dark,
And comfortless and stormy round!
TOM MOORE.

He Wanted to do Something and didn't Know What.

A person named Scott from Wheeling, W. Va., who has tried to make people believe he is something of a statesman and who has swelled his frog like gas retort to a size that he thinks causes him to resemble a United States Senator, has sent Brady, Waddill, Agnew, and other republican leaders in this State a dispatch, of which the following is said to be a copy;

"I congratulate the leaders of the republican party assembled on the gallant fight made at our last election. The seed sown, if properly cared for, will bring forth fruit ten fold. My heart is with the fighting republicans of the old mother State.
M. B. SCOTT."

Scott is not even so great a man in Wheeling or in West Va. as Brady, or Waddill, or Agnew, is in Virginia, and they are very small potatoes. The "fight" and the "seed sown" especially the "seed sown" may seem of immense size and importance to a ward politician like Scott, but if this is all Scott had to telegraph about he had better have saved his time and his money. The "mother State" can doubtless be taken care of by such carpet bag Yankees as Allan, and Brady, without calling for or requiring any encouragement from the pulsations of the sympathetic "heart" of Midlothian B. Scott.

CHARLESTON, W. VA., Nov. 24.—The work of building the Charleston, Glendennin and Sutton Railroad, which was suspended about three months ago, owing to the refusal of those backing it to put up any more money, will be pushed as rapidly as possible till it is completed

The road is now in partial operation, from Charleston to a point near Clay court house, and rolling stock has been ordered to put this part of the line in shape for running trains regularly. The distance from Charleston to Sutton is about 110 miles along the Elk River valley, and throughout the distance the road passes through as fine coal and timber as there are in the world. Governor MaCorkle is president of the company, and is at the head of a syndicate that will develop the coal and timber along the line.

NEW BRUNSWICK, N. J. Nov. 25.—An extra freight train on the Pennsylvania Railroad made up of twenty cars, east-bound, was nearing this place this morning when an axle broke and wrecked the rear end of the train. The southern express, carrying passengers from Atlanta, Washington and Baltimore, which was close behind on another track, running at a high rate of speed ran into the wreckage which had spread over its track. The engine, mail car, two baggage cars and four sleepers were derailed but the passengers escaped with a few bruises. The train crew, however, were not so fortunate. Joseph Meegan, the engineer, and his fireman, H. W. Chidester, were pinned under their fallen engine and slowly scalded to death in full view of the passengers and tainmen gathered about, who were powerless to aid them.

A decision favorable to the city of Winchester was rendered by the Court of Appeals last week. The common council of Winchester several years ago offered a reward for the apprehension and conviction of incendiaries. The question determined was whether or not the common council had the power to offer the reward and bind the city for its payment. The court holds that the common council had no right to offer the reward and the act was void, thus reversing the circuit court's decision.

BROKEN WING.

RICHMOND LADY ROBBED.—While Miss M. A. Arents, of Richmond, was shopping in Dutton's bookstore, New York, one day last week, a saleswoman saw George Brown, of New Brunswick, N. J., remove a pocket book from Miss Arent's satchel. She gave the alarm and Brown tried to replace the purse. He was prevented by a floorwalker, and arrested by an officer. The purse contained $25 50, and Brown was charged with grand larceny in the Jefferson Market Court. He made a pitiable plea of poverty and hunger. His appearance belied this. He was attired in a stylish suit of expensive goods and wore a costly overcoat. He carried an ivory-handled, silk umbrella that anyone would suppose a pawnbroker would have advanced $5 on willingly. He wore gold rimmed spectacles, and seemed to be a man of education and refinement. Magistrate Simms committed the defendant in $1,000 bail to answer.

There is no joy in this world equal to the happiness of motherhood. A woman finds ample compensation for her trials and worries and bothers in the soft, clinging little body nestling close to her own—in the trustful clinging of the little hands, and the love light in the little eyes.
A woman's health is her dearest possession. Good looks, good times, happiness, love and its continuance, depend on her health. Almost all of the sickness of women is traceable directly or indirectly to some derangement of the organs distinctly feminine. Troubles of this kind are often neglected because a very natural and proper modesty keeps women away from physicians, whose insistence upon examination and local treatment is generally as useless as it is common. Dr. Pierce's Favorite Prescription will do more for them than 99 doctors in 100. It will do more than the hundredth doctor can unless he prescribes it. It is a prescription of Doctor Pierce, who for 30 years has been chief consulting physician of the World's Dispensary and Invalids' Hotel, at Buffalo.
"I lost six babies by untimely births. In the eighth month of my seventh pregnancy, as usual, I was taken ill. The family doctor was called. He said there was no help for me. The baby must be born. I grieved excessively. I persuaded my husband, against the physician's advice, to get me Dr. Pierce's Favorite Prescription. Four doses quieted my pains. That child was born at full time. It is three years old, and I am the happiest mother in the world."

Tobacco.
No crop varies more in quality according to grade of fertilizers used than tobacco. Potash is its most important requirement, producing a large yield of finest grade leaf. Use only fertilizers containing at least 10% actual
Potash (K_2O)
in form of sulphate. To insure a clean burning leaf, avoid fertilizers containing chlorine.
All about Potash—the results of its use by actual experiment on the best farms in the United States—is told in a little book which we publish and will gladly mail free to any farmer in America who will write for it.
