

Spectator & Vindicator

Issued every Thursday morning by R. S. TURK, Editor and Proprietor, East Main Street, Staunton, Va.

TERMS OF SUBSCRIPTION: For One Year, \$1.00, In Advance For Six Months, 50c.

Telephone in office connects with all city and county lines.

Entered at the Postoffice at Staunton, Va., as second class mail matter.

THURSDAY, SEPT. 9.

DEMOCRATIC STATE TICKET

Election Tuesday, November 2, 1897.

For Governor, J. HOGE TYLER, of Radford. For Lieutenant Governor, EDWARD ECHOLS, of Staunton. For Attorney General, A. J. MONTAGUE, of Danville.

CAMPAIGN OFFER.

From now until January 1st this paper will be found abreast of the political issues, and in full sympathy with the fight for improved conditions.

The Spirit of the Valley has departed from Col. Lamb.

The News has been telling the Democrats what to do, for which of course "thanks many" are returned.

Col. Lamb has called a convention of the Republicans to be held Oct. 5th at Lynchburg, for the purpose of nominating a State ticket.

We know that to praise for the rise in wheat, but a little at sea as to who is responsible for the fall.

Brown University may, in the estimation of some, have gotten a good deal of cheap advertising out of the Andrews incident, but in our opinion she will find it the costliest bit she ever did.

The Republicans of Virginia admit that things do not look very bright, but are crying out that "we must stand to our principles."

The Argus says: "Speaking of a certain weekly paper the other day a business man said it seemed to be too much of a lawyer's paper to suit him."

The G. A. R.'s at their recent meeting passed a resolution to appoint a committee to teach patriotism.

All the well informed Republican and gold papers written on the subject of "Silver and Wheat."

Leaf by leaf the roses fall, One by one the blossoms die.

The last one to turn his toes to the heavens was Mr. Wm. F. Hairy, chairman of the Democratic committee of Penn., a Cleveland boss who bolted the ticket last fall.

If the term "renegade" as applied by us to certain persons in the Republican party in this State in a recent editorial comment at the turning out of Col. Lamb, sounds harsh on the ears of a certain Republican newspaper in these parts, we will regret that it was used, and hereafter speak of them if occasion demands, as "apostates for the price of their apostasy."

Hon. John E. Massey has been criticized by the R. E. Lee Camp of Sons of Veterans for employing as a teacher a man who said that Jefferson Davis was now being looked on as Benedict Arnold and Aaron Burr.

Not untrue, in the fact that such person was employed, but untrue in the fact that Mr. Massey knew the person entertained such sentiments.

Mr. Massey evidently has his enemies, but right is right and justice is justice, and to accuse him of disloyalty toward anything Southern, or wishing to have anything taught which does not truthfully tell the story of the war, is the greatest injustice.

Mr. Massey, we firmly believe, never breathed a breath that was not fair to the South.

Perfident Enquiry.

Is there any game the young gentlemen around the court house can play better than politics?—News.

Certainly not the game of "hide and seek." Hide so that nobody can tell where to find them, like the News does, and seek for the fellow with the most money when the election comes on.

Brown University, Rhode Island, turned out its President E. Benjamin Andrews recently, because of his utterances on silver.

In the mean time President Andrews accepted the presidency of a new university founded by the Cosmopolitan Magazine.

Now Brown is begging Mr. Andrews to come back. She sees she has made a fool of herself.

Capt. John N. Opie. Capt. John N. Opie, who now seems to be certain of the nomination for State Senate from this county, has been a very aggressive and clean fight.

He entered the race with that integrity for which he has always been noted and fought this battle with the singular bravery, and dash, which has ever characterized him as a citizen and soldier.

His campaign was free from any double dealing, or political tricks, and has greatly raised him in the estimation of his opponents, and strengthened him in the confidence of his friends.

Should he be entrusted with this high office, as it seems now he certainly will be, the interests of his constituents will be wholly safe in his hands.

He has never been a trimmer, he has had occasions of disappointment which might have driven a less high minded and sincere man out of the party.

But such a thought never entered the breast of Capt. Opie, and through every vicissitude he has been always a true and loyal Democrat, and an advocate of the rights of the people.

His pronounced views upon all questions now being debated by the Democrats, and his devotion to principle and right have gathered about him a large and loyal following.

Judge not, that ye be not judged. Governor O'Ferrall's announcement that he will not support the State Democratic ticket causes some surprise here among those who did not find fault with his course last fall.

With his determination we will not deal. We accord to every man the right to choose which king he will serve, but we are forced on account of his strictures on the Democratic ticket to sound the alarm, and to enquire whether such criticism should logically proceed from the Governor.

He says: "Mr. Bryan is not a Democrat. A man's politics must be judged by his expressions and acts. Bryan refused to support a regularly nominated candidate for Supreme Court Judge in his own State."

If this is the standard by which a man is judged, what has the Governor to say about his running independently for Congress in this district some years ago against Hon. John T. Harris, the regular Democratic nominee?

There is nobody who has ever disputed that Mr. Bryan was the regular nominee for the presidency, or that Mr. Tyler, Mr. Echols and Mr. Montague are the regular nominees for Governor, Lieutenant Gov. and Atty. Gen. Gov. O'Ferrall did not support Harris a regular, Bryan a regular, and will not support these latter regular nominees.

If such offense were criminal in Bryan why has the Governor dipped his hands in the slime, or why does he put Bryan down as unworthy of support, and deny that he is a Democrat, when he, the accuser, has done the self same thing and set the example way back in the days when Bryan was a boy at college? If then "a man's politics must be judged by his expressions and acts," will not the instrument used to discover the mote in his brother's eye, be used to find the beam in his own eye?

Gov. O'Ferrall will not support the Democratic Ticket. In the Washington Post of Wednesday last week a long interview with Gov. O'Ferrall is published, in which the Governor declares that he will not support the present Democratic ticket unless he should feel afraid the ticket would be defeated.

He is opposed to Republican rule and to avoid that and that only would he vote the ticket. He said when asked "What led you to repudiate Bryan and the Chicago platform?"

"I have no other reasons to give than those which I have already given in the last campaign. The Chicago platform was not Democratic, and I have no objection to its being a fellow up in the Klondyke with several bags of gold who will swap them for a bag or two of beans. Could these profligate writers not change their staff for a few fresh articles on "Gold and Beans?"

Leaf by leaf the roses fall, One by one the blossoms die. The last one to turn his toes to the heavens was Mr. Wm. F. Hairy, chairman of the Democratic committee of Penn., a Cleveland boss who bolted the ticket last fall.

An indignant patriot in convention assembled wiped him from the face of the earth last week.

If the term "renegade" as applied by us to certain persons in the Republican party in this State in a recent editorial comment at the turning out of Col. Lamb, sounds harsh on the ears of a certain Republican newspaper in these parts, we will regret that it was used, and hereafter speak of them if occasion demands, as "apostates for the price of their apostasy."

Hon. John E. Massey has been criticized by the R. E. Lee Camp of Sons of Veterans for employing as a teacher a man who said that Jefferson Davis was now being looked on as Benedict Arnold and Aaron Burr.

Birth Place no Objection.

During the recent political struggle in the primaries over the office of State Senator, some persons had the hardihood to allege against a candidate that he was a "foreigner," "not a native of Augusta."

This was taken to be a great offense by some, and as a total disqualification by others. At first blush this might be regarded as unfavorable, or distasteful, or disqualifying, had Augusta people ever followed such a rule.

But Augusta has long since ceased to draw any such line, in fact Augusta county born boys might to some extent regard themselves as being relegated to back seats or unfit when we look at the following facts.

Mr. Echols, whose shoes as Senator are to be filled, was born in Monroe Co., W. Va. Capt. Opie, who carried Staunton and some districts in the election in the primaries to the Senate was born in Jefferson county. Capt. H. W. Holt, his most active opponent was born in Surry Co. Capt. H. W. Henry who was warmly advocated for the same place, was born in Alabama, and Judge Quarles who was also advocated strongly, was born in Louisa Co.

But lets go a little further—Mr. M. F. White, who has long been pronounced attorney of this county, is a native of Fauquier. Mr. Joseph A. Glasgow, who now fills the office of Commonwealth's Attorney for the city, was born in Botetourt. Mr. A. C. Gordon, who also filled the same office shortly before him and at one time Mayor of Staunton, is a native of Albemarle. Mr. Braxton, who was Commonwealth's Attorney just before Mr. Gordon, is a native of King William. Maj. Elder, who filled the position just before him, is a native of Lunenburg. Judge Chalkley, our county judge, is a native of Richmond. Judge Graham, our city judge, is a native of Rockingham. Judge John W. Green Smith, who filled the same position at one time, was a native also of Rockingham. Mr. Wm. A. Burnett, who has been our county clerk for nearly forty years, was born in Nelson county.

Mr. Joseph N. Ryan, who was long clerk of the circuit court, was a native of Rockingham. Mr. C. S. W. Barnes, who was appointed at his death, is a native of Clarke Co. Mr. Joseph B. Woodward, who was elected after Mr. Barnes' term expired, was born in Rockingham.

Our City Treasurer, Mr. Hoge, was born in Albemarle Co. Our ex-member of Congress, Mr. Tucker, was born in Rockbridge, whilst Mr. Yost, our present member, is a native of Rockingham.

Our superintendent of free schools for the county, Mr. E. O. Peale, is a native of Rockingham, and Mr. J. H. Bader, who holds a similar position for the city, is likewise born there.

Take the State institutions situated in our midst. When have Augusta county candidates presided over them? Of all the Superintendents of the Western State Hospital, Dr. Stribling was not a county man, nor was Dr. Faunteroy, nor Dr. Conrad, nor Dr. Blackford. The same with reference to the D. D. & B. Institution. Rev. Joseph D. Tyler, Dr. J. C. Merritt, J. C. Covell, Dr. Wm. R. Vaughan, Capt. Thos. S. Doyle and Mr. W. A. Bowles, were not one born in Augusta. Col. Chas. S. Roller being the only native of Augusta who ever held such a position, out of the eight Superintendents.

Of all the Superintendents of the Western State Hospital, only one native of Augusta ever held the position. In our city, our police justice, Wm. H. Landes, our city judge, our city attorney, our treasurer, our assessor, Thos. J. Crowder, our chief of police, Capt. Waters, our clerk of the market, C. E. Haines, our city sergeant, Logan Turner, our city constable, C. A. Crafton, our postmaster, Maj. S. M. Yost, our superintendent of public schools, all of our policemen but two, all our city councilmen but two, all of our school trustees, and two thirds of our justices of the peace are natives of other counties or States. Thus we see that Augusta has never found fault with those who came as good citizens no matter to what height they climbed or aspired.

The A. & O. Railway. The annual report of the Chesapeake & Ohio Railroad shows the affairs of the corporation to have been admirably managed by President Ingalls and his associates, and its finances are in a most healthy condition.

The gross earnings of the company's 1,276 miles of road were \$10,708,188.81, and the net earnings \$3,421,413.63. The fixed charges, less net income from other sources, including a line of steamers and leased track, were \$3,118,871.88, leaving a surplus of \$302,541.75, a gain of \$255,300.70 over the surplus of the previous year.

One of the most gratifying, as well as significant, facts in the report is the statement that no passenger was seriously injured during the year.

The road has laid over its mountain divisions in places 120 pound steel rails, the heaviest now made. It has also carried head lights and electric light cars, and for ease and comfort in travel now gives more general satisfaction.

For at least twenty-eight days out of a month it is safe to set one's watch by the trains, so regular are they in their arrivals and departures.

Cut to Pieces. Thos. R. Halloran, a locomotive engineer in the employ of the Richmond Locomotive Works, met with a terrible death last Thursday night between 10 and 11 o'clock on the line of the Chesapeake & Ohio railroad, just above the works of that company. Two cowboys were seen moving from the spot in opposite directions. One of these it is supposed cut off the upper portion of the unfortunate man's head, while the body, which had been dragged by the other engine, was torn into fragments, which had to be picked up along the track by the undertaker.

The Route to Klondyke. The steamer Starray arrived last night from Dyea and Skagway. The officers of the steamer say that gold seekers are slowly crossing the divide and the road for 10 miles up the canyon is strewn with tents, provisions, discarded baggage and dead horses. There are between 5,000 and 6,000 people at Skagway. Less than 30 men have succeeded in getting across White Pass and hundreds have given up trying to cross until spring.

Geo. Gabbert, who built the new court house at Beverly, the county seat of Randolph Co., W. Va., the opera house at Elkins, and many other fine buildings in those parts, has just completed the same kind of building at Elkins last week.

GRAIN TRADE AND CROPS.

The Cincinnati Price-Current of last Thursday says: "The week has added nothing of an improving nature to the prospect for the corn crop. Something of rainfall has been experienced here and there, but quantity in the crop is such that moisture can not help it. Conditions are irregular. Portions of the crop in the States of larger production are good, and the yield and quality will be satisfactory. Other portions where the crop was backward in growth, are out short in yield and low in quality by an entire crop of some weeks past. It is difficult to calculate the probable outcome, but the situation does not appear to encourage exportation exceeding 1,700,000 bushels. This quantity, while falling short of a year's requirements for home consumption and exportation, will not injure the market for foreign distribution. This means that a crop of about 1,400,000,000 bushels, with the old grain, will meet all probable requirements of this country for the year. This quantity will represent available reserves to be carried forward to the succeeding year.

The latest authoritative statement in regard to spring wheat production in the Northwest is from Col. G. D. Rogers, of Minneapolis, suggesting that the crop is 10 per cent higher in the States, or 25,000,000 in excess of the conclusions of Mr. H. V. Jones, noted last week. The situation is large except in that respect, is a combination of disappointment in yield, although it is not reasonable to accept the early view of the crop in the Northwest, but probably not to the position presented by Mr. Jones.

In regard to winter wheat yield, no new developments have been disclosed. The wheat in the Northwest is generally recognized as equal to 540,000,000 bushels, and the exportable surplus for the year is not less than 175,000,000, as previously suggested.

The wheat in the Northwest is generally recognized as equal to 540,000,000 bushels, and the exportable surplus for the year is not less than 175,000,000, as previously suggested.

NEW ADVERTISEMENTS.

Electric Supplies! For Electric Door Bells, Annunciators, Burglar Alarms, Automatic or Hand Gas Lighting Appliances, Motors for Fans, Sewing Machines or other electrical appliances, Batteries for Snow Windows, Batteries and Battery Supplies of all kinds. Call on or address: W. G. CAMPBELL, 22 West Main Street.

Old electrical work in perfect working order, and telephones repaired at small cost. Estimates cheerfully furnished for electrical work of any kind. References—Sheriff N. C. Watts, President Mutual Telephone Co., Mr. H. Blakemore, Electrical Engineer, Staunton, Va. Orders left at Central Mutual Tel. Office, 100 West Main Street, or to the advertiser, will receive immediate attention. W. G. CAMPBELL, 22 West Main Street. sep 9-2m

1877. BERKELEY. 1897. PHOTOGRAPHER. ESTABLISHED 20 YEARS. Cabinet Photographs \$2 per dozen. Our cartes are equal to the best. Crayon and water color work a specialty. A new Photograph at 75 cents a dozen. GALLERY MAIN ST., STAUNTON, VA. Adjoining Masonic Temple. sep 9-2m

TO THE FERTILIZER TRADE! I have this season added to my factory a complete ACID PLANT and am now buying the best quality of Phosphate direct from the mines and dissolving it here myself. This process produces a fertilizer in grade much superior to that which is made elsewhere. The S. C. Phosphate, running 70 per cent. pure, is used in the manufacture of our fertilizer, and being never known to contain over 5 per cent. of water, it is especially adapted for use in the West, and the material is both pure and abundant. This fertilizer is now being made at our works in Staunton, Va., and is being shipped to all parts of the country. For instance I offer this year a special bargain in High Grade Valley Phosphate. ANALYSIS—Ammonia, 2 per cent. Available Phosphate, 4 per cent. Insoluble Phosphate, 1 per cent. Actual Potash, 1 per cent. This fertilizer can be bought on the market. I mention only this one grade, but I sell others of this kind. I am also manufacturing: Staunton Wheat Fertilizer. Which is too well known to need any comment, as I have ready sale for all I can manufacture of this kind. I am also manufacturing: Virginia Mixture, Star Phosphate, Pure Dissolved Bone, Tennessee Phosphate, and Eldora Phosphate. J. E. GRAHAM, sep 9-2m STAUNTON, VA.

DIAMONDS, JEWELRY, WATCHES, SILVERWARE and everything else, should be in correct style and of the latest design. This we have. Our goods are coming in every day, and if you want goods that are up-to-date you should not fail to visit our store. If you have looked elsewhere, we are sure of either your compliment, or your custom. Switzer & Grubert, Jewelers, No. 3 E. Main St., Staunton, Va.

GOOD CROPS. Are pouring money all over the country, but you will not have to spend much of it to furnish your children with all the School Books and School Supplies that they will need during the next session; provided you leave your order with FRANK T. HOLT, Bookseller and Stationer, 22 West Main Street.

Second Hand Books. Commissioners' Sale

VALUABLE REAL ESTATE. By virtue of a decree of the Circuit Court of Augusta county, entered at the May term, 1897, in the chancery cause of W. B. Lightner, Administrator vs. The Basic City Mining, Manufacturing & Land Co. of the one part and Geo. H.
