FRIDAY, JANUARY 24.

THE PRESIDENT'S NEW POLICY.

President Roosevelt, we learn, has taken unto his bosom a pet scheme with reference to Southern politics. He has been told that the present Republican political heads in the South do not favor the acquisition of good men as members of that party, lest the new infusion of blood loses them control.

CORPORATION NEWSPAPERS.

There is some disposition on the part of our contemporaries to find fault with us because we have drawn a distinction between newspapers which are corporate property, and newspapers which are individual property. In regard to the influence which a newspaper has, or ought to have, which is run by a corporation and one which is run by an individual, we have this to say; that as a gatherer of news the corporation paper is the superior of the newspaper owned by the individual, but as a safe guide and adviser the newspaper of the individual is generally far in advance of the other.

Ayer's Hair Vigor in advance will prevent the splitting. If the splitting has begun, it will stop it.
