ASHER W. HARMAN.

FOR COMMISSIONER OF AGRICULTURE.

GEORGE W. KOINER.

FOR STATE SENATOR.

EDWARD ECHOLS.

FOR HOUSE OF DELEGATES.

SILAS H. WALKER.

JOHN W. CHURCHMAN.

Now if Japan only wanted the Philippines. We mean the whole, not the half of them.

"Staunton lay speechless six weeks through the long month of August, and all of her cry was WATER! WATER!" says an Irish friend.

Mr. Roosevelt has received congratulations on account of his peace efforts from most of all the crowned heads except Senator Martin.

The potatoes throughout the world have been wonderfully exhilarated by the news of peace. Even old King "Coal" leaped up.

Some years ago the city of Atlanta went dry, but its present mayor has never been in sympathy with that movement.

So long as Capt. John S. Wise is attacking the Virginia Constitution, just so long is the race question in Virginia unsettled.

Since the signing of the peace treaty many Japanese are being slain. The weapon used is the jawbone of an ass—Nicholas.

Mr. Dewey, says an exchange, has been compelled to "cough up" about \$250,000 of the Equitable's money. This accounts for Mr. Dewey's long trouble.

The Japanese have issued postal cards bearing a photograph of Miss Alice Roosevelt, who is described thereon as "The American Princess." Coming events have cast their shadows even to distant Japan.

St. Andrews University of Scotland has conferred the degree of L. L. D. on Mr. Andrew Carnegie. If the donation was made on the Carnegie plan there is a provision in the gift that a like amount is to be donated by somebody else.

If the Russians were not a proverbially dull people they will have learned more from the Japs in two years than from any other source in twenty, and more than they seem to have learned from all sources in two hundred.

Mr. Roosevelt is looked upon by the man who really made peace between the warring nations. But what is that beside the accomplishments of Senator Thomas S. Martin, of whom it is now written, "In the beginning he made the heavens and the earth, and since that time Senator Daniel."

Does anybody believe that in the event Judge Lewis should be elected Governor, and a Republican legislature be in power in Virginia, the Jim Crow law would not be repealed, the constitution attacked, and the suffrage laws of Virginia arranged for an increase of the negro vote? Does anybody assert that they would not? And if so who is he, where does he come from, and what is his complexion?

We hear it said that Judge Lewis ought to make a good governor because he is a nice man. He is a nice man. He is a gentleman. He is strong intellectually, but he is a Republican, and in the South that has an interpretation which cannot be changed. In the North it is different. There conditions are different. Republicans cannot be elected in the South because they are gentlemen, they must be more, they must be in sympathy with the best interests of the South, they must not be in favor of negro supremacy. Republicans are in favor of this no matter what they say.

PEACE.
The dove of peace has once more visited the earth, and the warring nations Russia and Japan have agreed on terms and the conflict will end. There has been much speculation as to why Japan surrendered her claim for indemnity, as well as to why she did not retain the whole of the island of

Sakhalin. There were many good reasons for her moderation. She had been the victor in every conflict on land and sea. She had now all the territory she wanted and all she could well take without the cry of "Yellow Peril" being raised against her. She will strengthen herself in Korea and practically rule China, and all this she can do without being called aggressive, and without being made a target for alarmists. It was thought that Japan would not make peace without further humiliation of Russia, and as she has made peace many are disposed to believe she is greater in war than diplomacy. But those who think so need only await future developments. Japan will soon demonstrate that peace with her spoils and her opportunities is really a great victory. With war she could not avail herself of her opportunities; with peace she can. Her own country has judges just as any other. These will carp and criticize, indeed the envoys say that they may be stoned or dynamited on their return. But this war has made Japan one of the great nations of the earth, it has placed her in a position money could not buy, and now unopposed she can reap the fruits of her victory, and press on to the fulfillment of her wonderful destiny.

DAINGERUS.
The Republicans have begun their campaign, they are going to make a "hot" campaign so we have been told—just how hot, the supply of campaign fuel will determine. But it is safe to say that nobody outside Virginia who says "fuel" feels deep enough interest in the success of the party in the State to waste his means on so doubtful an effort, and those in the State who have means have too much sense to squander money on anything so useless. The Federal office holder in Virginia will be assessed of course, this always happens, but he will never give a dollar more than he is compelled to give, he never gives money to elect anybody but himself, and without money the Virginia Republican leader will not work.

The party, therefore, has but little chance now, and as they have always, when entrusted with power anywhere in the South, mistreated and abused that power, there is no reason to give them opportunities to commit outrages. That party has nothing to offer Virginia. If they tell us that prosperity came with Republican rule in the nation, we can reply that those conditions remain and are likely to remain the same. But we can also reply that your party control of the nation has turned it into an organized band of thieves and buccaners. Every department of the National Government is reeking with fraud and corruption, and the courts are filling the penitentiaries with your confederates and associates. If you rob the Nation how much sooner will you rob the State, we ask? You have robbed every Southern State over which you ever had control, and you have elevated the negro over the white people whenever you had the opportunity in State and Nation. What then have you to promise us which will compensate us for such conditions or even warrant us in taking such risks? Not a word, absolutely nothing. You may cry that you have reformed, you may shout repentance in every breath, but the Republicans of Virginia cannot be trusted, they never could be, and their morality has not improved. They are dangerous.

WASHINGTON LETTER.
(From our Regular Correspondent.)
Washington, D. C., Sept. 2.—The much heralded board of consulting engineers for the Panama Canal met in Washington today and commenced the deliberations that will determine the recommendation to Congress whether the canal shall be built at sea level or made a lock canal which some engineers claim is more practicable and will suffice for all the needs of commerce for the next century. The board contains a great many distinguished names, the chief engineer officers of the Army, prominent engineers from civil life and foreign engineers nominated by England, France, Germany and the Netherlands at the request of this government. What will come of their deliberations it is of course too early to state. But it is said that they will have some sort of a report ready for Congress by the time it meets in December and that this will be forwarded by the President accompanied by a vigorous message that will settle the question of a lock or sea-level waterway so long left open. It is a question, however how much time they will have to take in deliberation for some of them today suggested the necessity for another trip to Panama at government expense, though the most of them have been over the ground before with various commissions and they will have at their disposal in Washington all the maps and plans of the many commissions and surveys that have visited the Isthmus without definite result heretofore. There is already whispered talk in Washington that the canal never will be built, but in all probability this is mere ill-natured gossip. It is said that the project is impracticable from an engineering standpoint for lack of canal foundations. It is also said that definite information to this effect is already on file in the War Department. However, everyone knows that nothing is going to be done till the question of whether the one or the other sort of canal shall be built and that is what the consulting engineers are here to determine.

They are having a lot of trouble with the canal project anyhow, and the determination of the government to go into the general storekeeping business to furnish the laborers in the zone with enough to eat, has aroused vigorous protests from "leading merchants" of Panama. These protests brought out a vigorous letter from Governor Magoon, made public today in which he makes some sensational statements in justification of the governments proposed step. He says that the laborers in the canal zone have been living principally on sugar cane. This

was the only thing they had money enough to buy at prevailing prices, and in spite of all the efforts of the government to furnish them with decent food, the local storekeepers had kept up prices so that the laborers could not buy. The men were so weak from improper nourishment that their labor was very scanty and consequently expensive. Therefore the only thing was to give them food at reasonable prices, and this the government promised to do. If the men are properly fed and housed and the sanitary features of the situation are attended to, which Chairman Shonts says is now a problem overshadowing the actual digging of the canal, there is some hope that the canal may be done in the course of years.

There has been much third term talk in Washington in the past few days as a result of the shower of congratulations received by the President for his part in the Peace agreement. It would be foolish to want to take from the President any of the honor due him for his great work in the cause of peace. But the third term talk is very inopportune at this time and probably strongly against the President's wishes. It will be remembered that when the announcement of the result of the last presidential election was made to him one of the first things he did was to make a statement in the plainest and most unmistakable English, such as he can use at need, saying that the unwritten law against a third term was a wise one and that he proposed to observe the spirit and substance of that law, not the letter of it. That he would under no circumstances be a candidate for another nomination. It would be impossible for the president to reverse himself on that statement without absolutely disregarding his own word, and that is a thing that neither his friends nor his enemies would ever expect of him. Therefore the third term talk at the present juncture may be taken as entirely unimpaired and impertinent.

"A Bunch of Keys"
Hoyt's "A Bunch of Keys" polished up to date, will be presented at Beverly Theatre Saturday evening, Sept. 9th. "A Bunch of Keys" is one of the few farce comedies that has a plot; a very funny one at that. Jonathan Keys leaves by his will all his real estate, personal property, hotel, etc., to one of his three nieces whom the first drummer that arrives at the hotel shall decide the luckiest. The three nieces, Teddy, Rose and May are very indignant, and refuse to accept the condition of the will. Littleton Snuggs the lawyer who reads the will conceals a codicil, and as in the condition of the will the hotel must be open one month after the reading, Snuggs decides he is the one to do it. Grimes, a brakeman, who knows nothing about a hotel is employed as a man of all work, and Teddy Keys and Dolly Dobb also volunteer their services. The other two nieces with the aid of their friends resolve to make Mr. Snuggs sick of hotel life, so they disguise themselves as guests and make it lively for him. Seats now on sale at Shultz's Bookstore.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. It is a case out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

It will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Women as Well as Men Are Made Miserable by Kidney Trouble.
Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness and the aid of their friends resolve to make Mr. Snuggs sick of hotel life, so they disguise themselves as guests and make it lively for him. Seats now on sale at Shultz's Bookstore.

School Days!
It is reasonable to suppose that with the experience gained in making scholars feel that we have fitted their wants in the last twelve years, the supposition becomes a fact when with the completion of our more than ever attractive School Requisites for the opening of Staunton's educational institutions during September CUR STOKES' Incur, orates the best in books that has been learned in years of book making. The results from these works of experience will be found the most perfect yet offered to the knowledge seeker, because there is told in them the essentials of all that is known—up to the present time—in mathematics, geography, science, history, art, religion and literature. Our co-educators in putting within your grasp the 20th Century Educational works have put in your children's hands works of knowledge with questions that are answered directly, and in language simple enough for the youngest child to understand, and definite enough to meet the demands of the expert and the scholar.

STOP! LOOK AND LISTEN! Read This Ad!
The public in general is invited to call and inspect our line of both Ladies' and Gentlemen's Goods for fall and winter, the most complete line that has ever been shown in Staunton.

Rock-Bottom Prices.
You can't buy any better anywhere. Goods all guaranteed to be imported from Paris and London.

Monday, Sept. 11th.
MRS. R. L. PANNELL.
Nos. 404 & 406 North Augusta St. sep 6 3m.

NEW 550,000 BARRACKS.

Staunton Military Academy Ready for Students

Just five months ago Messrs. Larnet & Smith, contractors, broke ground for the handsome new barracks building of the Staunton Military Academy, and now it is under roof and will be completed in ready for the opening of the 11th of March, the first shovel full of dirt was thrown out, and on the 15th of the same month the first of the blocks were made, and this week the last one was laid, the roof put on and everything is being put in shape rapidly for the opening day, which is Wednesday, September 20th.

The immense building is 108x144 feet, with a large open court in the center, giving an outside opening to every room, of which there is more than 150 in the structure. In the basement are the bathrooms, swimming pool, tool room, furnace, rooms, etc. On the first is a magnificent assembly room, class rooms, etc., and the remaining floors are devoted to sleeping apartments. The inner walls of the building, as well as the outer ones are built entirely of the blocks, the ceilings are of iron, thus making the building as near fireproof as it is possible to get it.

In the construction of this building Harman S. Palmer Hollow Concrete Building Blocks were used, they are equal to 1,500,000 bricks, and it required 5,000 barrels of cement and 4,000 tons of sand to make them. Besides these 5 car loads of Kentucky stone was used for sills and lutelets. The interior work which is being rapidly completed is being done by M. B. Stoddard, contractor for the work; J. J. Kilgallen, plumbing; E. D. Snapp, painting and papering, and Geo. B. Greaver, plastering. These gentlemen are doing fine work and when completed, this will be one of the finest as well as most substantial school barracks in the State, if not in the entire South.

Capt. Wm. H. Kable, the efficient and courteous principle, is to be congratulated on the manner in which the work has been done, and when the school opens on the 20th inst., the more than 200 students already enrolled will find a beautiful and well appointed home.

Long Glade Notes.

Sept. 5.—Mr. and Mrs. John Lowman were in our city yesterday. Mr. and Mrs. James of Indiana, were visiting Mrs. Jones' mother, Mrs. Sarah Lowman, last week. Misses Maybelle and George Hite of of Bridgewater, are visiting Miss Mary Ervin this week.

Mr. C. R. Christian passed through our city yesterday. Mrs. Julian Bird of Hampton, and Mrs. Arthur Cook of Missouri, who had been visiting their father, Col. D. V. Ruckman, returned to their homes last week. Rev. and Mrs. Wilber Bell are visiting Mr. Bell's father, Dr. S. H. Bell, this week.

Mr. Moses Hutton and Miss Bessie Wood of Hardy county, W. Va., are visiting relatives here this week.

Will Have a New Church.
At a meeting of the members of the Presbyterian church, held immediately after the morning service, Sunday, it was unanimously decided to build a new church not to exceed \$15,000 in cost. A committee consisting of Messrs. Vance, Antrian and Charles Alexander, was appointed to investigate the matter of a suitable site and report same to the congregation two weeks from Sunday—Waynesboro Virginia.

A Wonderful Saving.
The largest Methodist Church in Georgia, used 32 gallons of L. & M. mixed with 22 gallons of oil, thus making paint cost about \$1.20 per gallon. They calculated to use 100 gallons of other paint. Saved about \$80.00, and also got a big donation of L. & M. Dealers gladly sell L. & M., because their customers call for it, and say they used it 12, 14 and even 30 years ago.

Don't pay \$1.50 a gallon for linseed oil, which you do in ready-for-use paint. Buy oil fresh from the barrel at 60 cents per gallon, and mix it with L. & M. Paint. It makes paint cost about \$1.20 per gallon. Liberal quantity given to churches when bought from R. F. Hughes, Staunton; C. H. Cochran, Stuart's Draft; J. B. Roden, Waynesboro; Augusta Milling & Mer. Co., Mossy Creek.

Ayer's Sarsaparilla

You know the medicine that makes pure, rich blood—Ayer's Sarsaparilla. Your mother, grandmother, all your folks, used it. They trusted Sarsaparilla. Their doctors trusted it. Your doctor trusts it. Then trust it yourself. There is health and strength in it.

It is endorsed warmly from Indigestion and this blood. I found no relief until I took Ayer's Sarsaparilla. Four bottles certainly cured me. F. R. HART, Mt. Kisco, N. Y.

For Rich Blood

Ayer's Pills are gently laxative. They greatly aid the Sarsaparilla.

Lucas Paints

For inside and out

Better for every use. Lucas Paints spread easier and go farther. They look better and wear longer.

For these reasons they are more economical and far more satisfactory than any other paint you can buy.

Ask your dealer.

John Lucas & Co Philadelphia

ANNOUNCEMENTS.
COMMONWEALTH'S ATTORNEY.
Staunton, Va., July 14, 1905.
To the Voters of the City of Staunton: I desire to hereby announce myself a candidate for the office of Commonwealth's Attorney for the City of Staunton, and respectfully ask for your election. July 21st J. CARTER BRAXTON.

Staunton, Va., Aug. 14th, 1905.
To the Democratic Voters of the City of Staunton: I desire to hereby announce myself as a candidate for the position of Commonwealth's Attorney of the City of Staunton, and I promise that if elected to the office, I will faithfully discharge my duties to the best of my ability. Respectfully,
Aug 18 1905 J. R. TUGGER.

A Radical Change
In my building operations in Rockingham and Augusta counties in favor of the lower. An entirely new proposition. A straight 6 per cent. proposition, no commission payable in 5 years. The new proposition is a liberal plan devised in the State. This should appeal to all who want a home, and want to avoid paying rent, and have not the ready cash. Write or call for circular.

G. C. SPITZBR,
Aug 23 1905 HARRISONBURG, VA.

Beverly Manor District High School.
The Academy School conducted by Beverley Manor District School Board, will open MONDAY, SEPTEMBER 25th, 1905, and continue through a
Term of Eight Months.

THE SCHOOL is located in Staunton as central; and most convenient to the entire district. It will be well graded, and competent instructors provided in the primary department, intermediate and grammar grades; and for the higher branches.

The Academy is free to every white child in the county; there will be no charge for tuition in any department. Every effort will be made to make the school most efficient; it is earnestly desired that the largest possible number of children shall receive the benefit of its advantages.

ALL PARENTS who can possibly do so are urged to send their children to the Academy, and those intending to do so are requested to send their names to one of the trustees in advance, in order that accommodation may be provided in time for all who attend.
