The best meats for their table—Beef that is tender, juicy and properly aged—Hens of our own raising. And anything else in the Meat Line, should come to this store where the best meat is first consideration.

**Wm. R. Knowles,** STAUNTON, VA.

#### FINE ACCOMMODATIONS.

The immense throngs of people who will visit the Jamestown Exposition to be well cared for.

The great expositions of the world have usually been held in or near metropolitan cities. The knowledge of this fact has caused some to question whether Norfolk will be able to furnish adequate hotel accommodations for the immense throngs which next year will visit the Jamestown Exposition. No anxiety need be felt, however, on this score.

The Jamestown Exposition is peculiarly fortunate in its situation. Although it is but six miles from Norfolk it is hardly a greater distance from Portsmouth, Newport News or Hampton. It is within a few minutes ride of some of the most famous seaside hotel resorts in America: Ocean View, Virginia Beach, Pine Beach and Fortress Monroe, or Old Point, long famous as an all year health and pleasure point. The cities enumerated above are well equipped with modern hotels and cottages for the accommodation of summer visitors line the shores of Chesapeake bay, the roadway to the sea, and the Virginia coast.

Several large hotels are now building in the cities near the Exposition, and a number of temporary hotels are going up in the vicinity of the grounds. Further to assure comfortable and attractive accommodation for its guests, there is being constructed within the Exposition grounds an Inside Inn, which is unique among Exposition hotels. This Inn will be a real hotel—not a hastily constructed barn with shallow partitions, built for a day. It will be a permanent affair, lasting after the Exposition is over, and will add one more to the well known resorts of the section.

It will have a frontage of six hundred and fifty feet and a depth of four hundred and fifty feet, and will be nearly three stories high. It will contain nearly one thousand rooms, accommodating two thousand guests. It is located near the main entrance of the Exposition and faces Hampton Roads, separated from the sheet of water only by a shaly boulevard. To the left of the hotel is a splendid grove of stately pines; to the right, separate some hundred yards, is the Amusement section of the Exposition, named by General Lee "The Warpath." At the rear of the Inside Inn is the forestry and outdoor Horticultural Exhibit. It will be seen from these items of surroundings that the situation of the inn could not be improved.

At other expositions the chief, if not the sole, advantage of the Inside Inn was that its guests were saved the slight annoyance of going to and coming from the exposition in crowded street cars or in conveyances speeding over dusty roads, for, as a rule, exposition visitors, especially those whose stay was brief, did not leave the grounds, once they entered. The minor advantage of being able to change attire for social or other functions of course might be added, together with the economy resulting from a location on the grounds, whereby extra admission fees were saved; but there were certain disadvantages; insufficient space for rooms; thin partitions that did not keep out sounds, inadequate attendance and unsatisfactory cuisine.

The Jamestown Inn will suffer from none of these disadvantages. While the management of the property is in the hands of a company, the Exposition reserves the right to insist upon first-class service for all patrons. The structure will be built on the most modern plans; its furnishings will be strictly first-class and its arrangements comfortable in every particular. The rooms will be single and in suites, with and without baths.

The first story will contain a large lobby, public writing rooms, ladies parlors, a buffet, a dining room each for American and European guests, bar, shop, postoffice, public stenographer's room, and in fact everything which usually accompanies the accommodation of a first class hotel. There will also be a large convention hall, occupying parts of the first and second floors. It will have a seating capacity of one thousand. There will also be a fine banquet hall, where a thousand or more guests may be served. The two upper floors, containing about five hundred rooms each, will be used entirely for sleeping quarters.

Broad piazzas will encircle the building, enabling the guests to secure fine views of the park and the roads and ashore. Taken all in all, this Inside Inn will have whatever advantages a first-class seaside resort may offer, together with those incident to proximity to an exposition.

#### BAD SOUTHERN IMMIGRATION

We call the attention of our Southern friends—or those of them who are agitating the expedient of Italian immigration—to the part which Italian immigrants are playing in various strike centers and, generally, in labor troubles, throughout the country. It is suggested, further, that they consider the recent manifestations of the "Black Hand Society" in New York, New Jersey, Pennsylvania, etc., and the recrudescence of the Mafia in New Orleans within the past few days. Our knowledge of Southern character, sentiment and aspirations persuades us that the intelligent people of the section do not really want an infusion of this kind, and we are inclined to think that they are at present rather thoughtlessly lending themselves to the schemes of transportation companies which expect to profit by the movement.

The truth is that the influx which some of our friends are so eagerly advocating will not be an influx of Italian peasantry at all. There is no better agricultural laboring class in the world than the real Latin peasantry of Italy and Spain, but they are not greatly given to emigration, and we see very few of them in the United States. The great bulk of the so-called "Italians" will come over here to cut throats, throw dynamite and conduct labor riots and assassination fraternities are nothing more than the degenerate progeny of the Asiatic hordes which, long centuries ago, overran the shores of the Mediterranean and were the pirates, the spoilers and the mercenaries of bloody ages.

The Post is not especially concerned in the troubles of the great Northern corporations that deliberately encourage this sinister and vicious immigration merely in order to speed their fight against organized labor. But from the South, in whose welfare we are profoundly interested and where as yet no great mischief has been done, we would, if possible, avert this blight. It is not only that we know the negro to be the best, the most faithful and desirable of laborers for the South, it is also that we would keep the section free from the turmoil, the anarchy and the social disaster which will surely follow huge accumulations of the human garbage shipped in that as yet unpoisoned air. The South is the appointed stronghold of the free institutions for which our forefathers shed their blood. Let us nurse and shield it against the hour of tribulation!—Washington Post.

#### Only 82 Years Old.

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by B. F. Hughes drugstore. Price 50c.

#### A Guaranteed Cure for Piles.

Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if Pazo Ointment fails to cure in 6 to 14 days. 50c.

#### THE BRINK IS NEAR.

Every time you neglect backache, allow the kidneys to become clogged, fail to cure urinary disorders, you get nearer the brink of Bright's disease. Doan's Kidney Pills will save you from danger.

#### A Hard Lot

of trouble to contend with, spring from a torpid liver and blocked bowels, unless you awaken them to their proper action with Dr. King's New Life Pills; the pleasantest and most effective cure for constipation. They prevent appendicitis and tone up the system. 25c at B. F. Hughes' drug store.

#### Twenty Year Battle.

"I was a loser in a twenty year battle with chronic piles and malignant sores, until I tried Bucklen's Arnica Salve, which turned the tide by cutting both, till not a trace remained," writes A. M. Bruce of Farmville, Va. Best for old ulcers, cuts, burns and wounds. 25c at B. F. Hughes' drug store.

#### INDUSTRIAL NEWS

#### Items That Will Interest Our Readers.

An important deal in West Virginia timber lands is reported to have been consummated at Bluefield last week by the formal transfer of 31,630 acres to the W. M. Ritter Lumber Co. of Welch, W. Va., and Columbus, Ohio. The property is located on the Guyan river in Raleigh and Wyoming counties, and is said to be practically a virgin forest of high-grade timber. It is stated that the lands are underlain by seams of Pocahontas coal. The purchase price is understood to have been about \$500,000.

Announcement was made in Pittsburgh last week by Joseph Hainsey, Jr., of the consolidation of the Industrial and Lorain and Ashland Railroads and of the decision to at once begin the construction of an extension south to the Ohio river at a cost of \$5,000,000. The consolidated railroad will be known as the Lorain, Ashland and Southern, and will have a capital of \$3,000,000, with a bond issue of the same amount. Preliminary surveys of the line South have been completed and a line adopted, and actual construction will begin as soon as the northern section of the road is in operation.

Shipments of coal from the New River district of West Virginia for June did not reach the aggregate of May's shipments by about 41,000 tons, the decrease being regarded as due to the scarcity of labor at the mines. Inland shipments show an increase over those of May, with 1250 cars loaded for Northern and Western points and 791 cars for tidewater. The total number of tons loaded during the month was 501,120, while the shipments of coke aggregated 557 cars, distributed as follows: Quinnimont, 38; Beechwood, 13; Stone Cliff, 23; MacDonal, 15; Turkey Knob, 52; Sun, 13; Collins, 8; Harvey, 14; Fire Creek, 44; Ansted, 156; Rush Run, 29; Brooklyn, 35; Kaymore, 118.

A report is current in financial circles in Boston to the effect that the Chesapeake and Ohio Railway, now has under option for purchase the Detroit, Toledo and Ironton Railway, which called off all deals for its sale some months ago. Negotiations have been conducted quietly since that time, and it is said that an announcement will be made shortly. The Chesapeake and Ohio now has a traffic arrangement with the Detroit, Toledo and Ironton to take all the former's northern bound coal for lake delivery, which arrangement has given complete satisfaction. The acquisition of the Detroit, Toledo and Ironton would give the Chesapeake and Ohio a through line from the seaboard to the lakes, and place it in a strong position to meet the prospective competition of the new Deepwater and Tidewater Road. As the purchase of Detroit would also give it control of the Ironton Bridge, such a deal would be a most strategic move.

#### SOUTHERN ASBESTOS.

The output of asbestos in the United States last year was \$109 short tons, valued at \$42,975, representing an increase of more than 100 per cent. in quantity and of almost 67 per cent. in value over the output of the preceding year. This increase, according to a report of Mr. George Otis Smith of the United States Geological Survey, is due in part to new producers, but more largely to the greater output of the Georgia and Virginia operators. The asbestos from these two States constitutes two-thirds of the total domestic production, and is wholly of the amphibole variety, and much of it of low grade. This will serve to explain the decrease in value per ton, the 1905 average value being \$13.82, as opposed to \$17.40 in 1904. There was, however, a slight increase in the production of the chrysotile variety, which commands the best prices.

#### A Tragic Finish.

A waterman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province in Holland. In like manner Kenneth McIver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure at B. F. Hughes' drug store. 50c and \$1. Trial bottle free.

#### Attractive Low Rate Round-Trip Tickets

Washington, D.C., and Alexandria, Va., via Southern Railway, on sale every day from Bluemont, Harrisonburg, Warrenton, Sumner and intermediate stations to Alexandria; good returning date following date of sale, except when sold on Saturday, when they are good for return until following Monday.

#### Changed the Name.

Little home no longer call your pretty little home "The Nutshell"? Why did you change it? I got so tired of having funny men ring my bell to ask if the "kernel was in."—Illustrated Bits.

#### A PACKINGTOWN POEM.

The American public is patient, The American public is slow, The American public will stand as much As any public I know. We submit to be killed by our railroads As we submit to be fooled by our press. We can stand as much Government scandal As any folks going I guess. We can bear bad air in the subway, We can bear quick death in the street But we are a little particular About the food we eat.

It is not so much that it kills us— We are used to being killed; But we like to know what fills us When we pay for being filled. When we pay the Beef Trust prices— As we must, or go without— It is not that we grudge the money, But we grudge the horrid doubt, Is it ham or trichinosis? Can a label command belief? Is it pork we have purchased, or poison? Is it tuberculosis or beef?

There is really a choice of diseases To anyone, little or big; And no man really pleases To die of a long-dead pig. We take our risks as we're able, On elevator and train, But to sit in peace at the table And be seized with sudden pain When we are at home and happy, Is really against the grain.

And besides—admitting the poison— Admitting we all must die— Accepting the second-hand sickness From a cholera-stricken sty; Patiently bearing the murder, Amiable, inert— We do rise up and remonstrate Against the Packingtown dirt; Let there be death in the dinner, Subtle and unforeseen, But Oh, Mr. Paeker, in packing our death Won't you please to pack it clean?—Charlotte Perkins Gilman in New York Independent.

#### EXPORT RECORD BROKEN.

THE U. S. IN YEAR EXPORTS ABOUT \$600,000,000 OF MANUFACTURES.

The Department of Commerce and Labor reports that the exports of manufactures from the United States in May of this year were larger than during any preceding month in the history of our export trade, the aggregate being more than \$56,000,000. The department report says: For the 11 months ended with May exports of manufactures aggregated \$551,000,000, an average of nearly \$2,000,000 for each business day of the 11 months. For the month of May alone they are \$8,000,000 in excess of those for May of the preceding year, and for the 11 months aggregating \$58,000,000 more than in the corresponding months of the preceding year. These figures seem to justify the prediction that the total exports of manufactures for the fiscal year just ended will aggregate about \$600,000,000, against \$518,000,000 in 1905; \$434,000,000 in 1904, and \$229,000,000 in 1896, having thus increased about 160 per cent. during the decade, while other domestic exports were increasing but about 76 per cent.

"The increase in the exportation of manufactures during the year, which has amounted to something more than \$50,000,000, occurs in a large proportion of the articles forming this large total of \$600,000,000, but chiefly in manufactures of iron and steel, of cotton, leather, and leather goods, cars and carriages, agricultural implements, mineral oils, furniture, paper, paraffin, scientific instruments, manufactures of india rubber, and manufactures of fibers.

#### COMMERCIALLY SPEAKING.

"Pa, I'm going abroad." "What for?" "I want a duke." "Then stay at home and I'll announce that you're in the market. Never visit the factory if you want to get prices. Let the goods come to you."

#### CASTORIA
