THE IRISH AND HUNGARIANS.

The cause of Ireland stands upon far higher ground than that of Hungary; and one thing is very certain, that if Ireland had an army of 120,000 strong, with arms in their hands, and the prestige of successful battles to encourage her, she never would have laid down those arms, or surrendered them to the British power, as Hungary did to Austria.

One hundred and twenty thousand veteran Irish soldiers, with arms in their hands! The world never saw such an army as this would be, and probably never will. "Lay down their arms!" Why they would have hung the scoundrel, who dared to propose it, as high as Haman was hung.

The greatest of living contraltos, M'ille Albani, is on her way to this country, having embarked on the 26th May, in the steamer Hermann. She is accompanied by a young basso named Rovere, and a tenor named San Giovanni.

MARRIED.

On Tuesday, June 1st, Mr. WM. H. McLEOD, of this city, to Miss CHARLOTTE L. KANEY, of Pittsylvania Co., Va.

NOTICE.—The sale of Engravings and Books will be continued THIS EVENING and TOMORROW, (Friday and Saturday) at 8 o'clock, at the Tontine Hall, opposite the Bank. Bargains may be expected.

B. W. STARKE, ATTORNEY AT LAW AND NOTARY PUBLIC.—Practices in all the courts of this city and the counties of Henrico and Hanover. Office next to corner of 13th and Franklin streets. my 37-1m

DR. A. E. PETICOLA offers his professional services to the public of Richmond and its environs. When not in his office, Dr. P. may be found at the Virginia House or the Medical College.

HAWES R. NUTTON, NOTARY PUBLIC.—Particular attention paid to writing DEEDS and other legal instruments. Office in the Law Building, Richmond, Va. my 6

As Mr. Hill has failed to produce his long talked of natural colored Pictures, the public must be satisfied with Simon's beautiful and highly finished Daguerotypes, as they do, with unerring accuracy of the camera obscura, with the soft and richly colored paintings. Whether Mr. Simon has the luck of getting the best Lady subjects, or whether his new style of taking these sun pictures is best adapted to their fair complexion, we are not acquainted with their fair complexions, but this is certain, he makes them all look bewitchingly beautiful.—(Enquirer)

The Temperance Convention are particularly invited to call and examine the beautiful, new style Ivory Daguerotypes. M. P. SIMONS, 101 Main street.

How often is it that we neglect a slight wound, burn, swelling or pain, in the vain hope that it will be well enough in a day or two; instead of getting well they grow worse, fester, and perhaps mortification takes place, and the limb has to be amputated; when a little of H. G. Farrell's Arabi ointment had been applied at the time of the accident, it would have cured it immediately. See advertisement. je 3-6t

That the Irish are capable of attaining a very high grade in the scale of nations, appears to us a proposition so very evident, that we shall not attempt to enforce it. It is scarcely worth while to point to her Swifts, and her Goldsmiths; it is almost supererogatory to mention the mighty name of Burke, the philosophical statesman whose far-reaching sagacity resembled inspiration—whose vast genius embraced the whole world, past, present, and to come—whose sublime eloquence, not appreciated by his contemporaries because he was too far ahead of them to be comprehended, is the wonder of posterity—who combined in his own person, the sagacity of Bacon, and the imagination of Milton. It is equally unnecessary to point to the varied and mighty genius of Sheridan, the most finished orator since Bolingbroke, the most accomplished dramatist since Shakspeare the man who was said to have tripped his hand at most things, and to have beaten every body in his own particular line. It is needless to press into service the "glory of Grattan and genius of Moore." Look at the people, the common people of Ireland, and where else, amid every thing to debase and degrade the national character, will so much shrewdness, so much intelligence, so much quickness of apprehension be found, obscured as it is, but not extinguished, in that profound ignorance which it has suited the views of their foreign rulers to cast around them. Ages of suffering and oppression, have not been able to stifle the native genius of the people, a single age of good government would place them among the first people of the world.

Virginia Legislature.

THURSDAY, June 3. Senate.

The Senate received their amendments to the bill authorizing an extension of the Manassas railroad from Strasburg to some point on the Baltimore and Ohio railroad; so the bill is now a law.

A report was presented from the Army Corps of Engineers, relative to the removal of the brick wall in front of the Army building. The report and accompanying documents were laid on the table and ordered to be printed.

A resolution from the House, authorizing the Executive to employ assistant clerks in the Executive Department, was passed.

A House bill, "appropriating the entire capitation tax to the support of the Primary Schools," was taken up and made the order of the day for the first Monday in January next.

Mr. Braxton moved to take up the preamble and resolutions (held over) relative to the removal of the brick wall in front of the Army building. The report and accompanying documents were laid on the table and ordered to be printed.

A House bill providing for the enrollment of militia and for other purposes, was taken up and made the order of the day for the first Monday in December next—says 20, no 14.

House of Delegates. Mr. Anderson presented a memorial from the millers of Richmond, asking the privilege of packing flour for exportation to California and other distant ports in boxes, hogsheads, or bags, or in such other mode as they may see fit to preserve the flour from injury in its passage. The memorialists say that Northern manufacturers have availed themselves of this mode of packing for exportation, and have thus secured advantages over those who are limited to barrels and small barrels.

At 11 o'clock, the order of the day, being the Senate bill imposing taxes for the support of Government for the years 1852 and 1853, was taken up.—Mr. Goode, of Mecklenburg, offered an amendment to the bill, proposing to increase the tax on the flour from 10 cents to 15 cents per barrel, and in reply to the speeches of Messrs. Imboden and Rivers, of Albemarle, delivered some time since in opposition to the views and estimates of Mr. Goode in regard to the independence of the Commonwealth, and the necessity of taxes necessary to meet the public demands for the next two years. Before concluding, his remarks were brought to a close by indispensation; and the House proceeded to consider such details of the bill as were not embraced in the remarks of Mr. G., and continued with the consideration of the bill up to the hour of adjournment, at 3 o'clock.

Mexican Mustang Liniment, improvement, Progress, Growth.—These are now the order of the day. And the great desire for these is due to the great advancement now in operation in the Medical world. The six new astonishing combinations in the Mustang Liniment enables it to penetrate flesh, nerves and muscles, and to disengage and assist nature to recover her lost powers, and become healthy, which is evidently the true cause why it is so successful and why so many physicians that are acquainted with its virtues prescribe and recommend it.

PRESERVE YOUR HEALTH.—Now is the time for Cholera Morbus, Dyspepsia, Biliousness, and other diseases, and Bilious Fever. Persons subject to either, or all of these complaints, need not fear their attacks if they will use a few bottles of Baker's Celebrated Premium Bitters, the best tonic and alterative medicine, and a source of manly energy and vigor. These Bitters are purely vegetable in their composition and entirely free from all those poisonous and nauseating substances that create a morbid action on the stomach when taken; but having an opposite effect, they exhilarate the system, sharpen the appetite, expel impure secretions, create a healthy circulation of the blood, and produce such a flow of spirits as itself to drive out of the system all the morbid and bilious affections. They may be found in every condition of life, and will be found an invaluable medicine for infants and adults.

To be had in Richmond at the Drug Stores of A. WOOD, ADAMS & GRAY, BENNETT & BEERS, PURCELL, LADD & CO., WOOD & WOOD, Main street; H. BLAIR, W. P. LADD and SEABROOK & REEVE, Shockoe Hill. my 24-1s

Dyspepsia and Indigestion.—These great scourges of our people cannot be too well understood, or the means of averting or curing them too highly appreciated. The person who discovers any means of cure or alleviation, confers a benefit upon his fellows, and deserving of honor. This desirable consummation has been achieved, and not only may disappear, but can be prevented, by the use of "Hoodland's German Bitter," prepared by Dr. C. M. Jackson, Philadelphia, which medicine is spoken of in terms of the highest commendation by thousands who have tested its efficacy. It is perfectly adapted to its nature, and possesses the valuable property of improving the health of the body, as well as restoring the health of the sick. je 1-6t

SEAYERS' CELEBRATED LIVER PILLS.

Prepared by J. H. Seayer, of Springfield, Mass. These Pills are confidently recommended as having all the virtues of the water, and in many cases they are preferable. In derangement of the stomach and bowels, or want of regularity in the liver, and in all cases of liver and kidneys especially, entitle them to public consideration. If the patient be bilious they search out the bile and expel it from the system—unlike all other Pills, they may be taken with impunity.

Respectfully to the medical profession, nothing in them calculated to injure any one. In various diseases and eruptions of the skin, of whatever sort, they are a sure and particularly efficacious in diseases such as females are subject to, dropsy, flatulency, &c. These Pills may justly be styled an universal remedy, as they are decidedly the best in use for the cure of all diseases resulting from irregular habits. After their use has been continued for a time, the whole system becomes invigorated, and the patient is restored to perfect health. They are carefully prepared, and put up in vials of 100 pills each. A liberal discount will be made to Druggists.

Keep your Blood Pure.—In order to enjoy health during the approaching summer, the blood should be kept pure. The "Blood Purifier" is a most valuable medicine, and is called "Blood Purifier" because it keeps the blood pure, and in order to accomplish this we know of no greater purifier of the blood to recommend than the celebrated Dr. Hampton's Vegetable Tincture, which by its action on the blood, carries off all impurities, and restores it to its natural purity.
