

TO ADVERTISERS.—The circulation of the DISPATCH is THREE TIMES as large as that of any other Daily paper in the city of Richmond. It is therefore greatly superior to any other as a medium of advertising.

RA. HMOND, VA. Tuesday Morning, June 8, 1852.

We must positively request our advertising friends to send us their advertisements as early as they possibly can. Our advertising is very heavy, and when they are received at a late hour they impose a heavy burden on the printer.

THE CHINESE IN CALIFORNIA.

We publish on the outside of this day's impression, the answer of the Chinese settled at San Francisco, to Governor Bigler's message. The Governor, in that message, assumes, first, that large numbers of the Chinese are sent by Chinese speculators to work in the mines at ruinously low wages, which has the effect of injuring our miners. 2dly, that all the gold they get is sent back to China. 3dly, that they never intend to become settlers; and 4thly, that if they did, they are not of the right color. A writer in the New York Journal of Commerce, it may be here mentioned, says that one at least of the signers of the paper which we publish to-day, is a devout christian, and as regular in attendance upon divine service as any man in New England.

To the several positions of the Governor, the paper of the Chinamen seems to be a sufficient answer. They say that the gold dug in California is used in merchandise destined for the California market, or in other words, in extending the already large trade of China with California. To what other purpose would Governor Bigler have it devoted? Is not the securing of the Asiatic trade one of the great objects which the people of California have in view? Is there any other purpose to which the gold of California could be devoted so happily as this? It is impossible to keep the gold dug in California within the limits of the State. The precious metals will follow the course of trade, and the largest quantity will always be found where it is most needed by the exigencies of commerce. The larger portion of it finds its way, now, to London. Why not as well let it go to China, if trade takes it in that direction?

The Spaniards attempted to restrict the circulation of gold beyond their own dominions, soon after the discovery of South America. They made the exportation of that metal, as well as silver, highly penal. They restricted the trade of the Colonies almost exclusively to Spain. The inevitable consequences ensued. The precious metals, which if they had been allowed to fulfil their natural function, as a medium of exchange, would have brought the wealth of the world to the doors both of the mother country and of the colonies, became a drug. Commerce was cut up by the roots. Churches, public buildings and private residences groined beneath the weight of gold and silver ornaments. Yet the luxuries, may the very necessities of life, were wanting. The energies of the people, instead of being stimulated, declined, and Spain sunk gradually, from her first rank as a State, to the very lowest. Her history enforces a moral, which should not be overlooked. The precious metals cannot be restricted in their circulation, without causing irretrievable damage to the producing State. Gold and silver are means, merely, and not ends, in political economy. By active circulation they increase the industry of the country, and make the whole world tributary to it.

The Chinese have already begun to throw into our hands the most enormous trade of which there is any example—a trade which 400,000,000 of people. It is a trade which the whole world is eagerly striving to grasp. We trust that it may not be diverted by the blundering ignorance of men who appear to think that gold is fit for nothing but to be looked at—who seem not to understand, indeed, one of the plainest and best substantiated maxims of political economy.

THE HOMESTEAD BILL.

While the whole country seems to be run mad with President making, it has most unaccountably neglected to take the proper account of the measure indicated by the caption of this article. Yet it is the most important by far that has ever occupied the attention of Congress in our day, and we think we might say, without danger of contradiction, since the formation of the present constitution. It divides the whole public domain, estimated at about 1,500,000,000 acres, into quarter sections of 160 acres, and gives to anybody who may ask it, one of them. It destroys, entirely, the immense resources hitherto enjoyed by the government of the United States from the sales of the public lands; resources which made her the wealthiest nation on earth. It opens to speculators, in the cities, a field for speculation such as the most vivid imagination never before conceived; for, of the millions who will draw land, it is to be presumed that not one half will ever settle on it. This bill has already been passed by the House.

To our conception it is palpably unconstitutional. The Congress of the United States has no right to dispose of the public lands, except for public purposes, any more than it has of the public money. It has no more right to bestow 160 acres of land on everybody that will ask for it, than it has to make us a present of Old Point Comfort, or the Navy Yard at Gosport. It is a trustee of this enormous property, for the benefit of the nation, and it has no more authority for giving it away, than it would have for opening the treasury and inviting everybody to come in and take what they pleased.

But even if it were strictly constitutional, the enormity of its character is so great that it could not be tolerated. There are 28,000,000 of persons in the United States, already, and about 5,000,000 families. Of these last it has been estimated that at least 4,000,000 will take advantage of the law (if it became a law) and will thus appropriate, at once, 640,000,000 acres, or nearly half of the public lands. As a mile square is 640 acres, the land thus appropriated would be equal, in extent, to 1,000,000 square miles. It is equal to a country 1000 miles square, or 2000 miles long, by 500 broad. Was there ever such a reckless waste of the public means heard of before?

We have spoken, above, only of the lands

which will be taken by persons living in the United States at present; but this bill throws the public domain open to all the world. The immigrants who arrive here every year, to the number of several hundred thousands, are all equally entitled, under the bill, provided only they become citizens.

It is true that this bill requires settlement and residence; but that will not save the lands from speculators. Hale, Greeley and John Van Buren are all in favor of this bill; and well they may be, for it is better calculated to promote abolitionism, than any scheme ever devised. At least half the lands of Arkansas, Louisiana, Mississippi and Missouri, at least two thirds of those in Florida, are held by the United States. The settlers under the new law will of course come from the North—at least an immense majority of them—and opposed as they are to slavery, will settle in these slave States, and by dint of numbers bear down everything before them. The movement is more fraught with danger to the South than any other ever contemplated. The South has been pretty well united against it, and we hope, should the Senate pass it, it will be vetoed by the President. Involving a palpable infraction of the constitution, and a shameful abuse in legislation, it is one of the very cases in which all agree as to the propriety of the Presidential negation.

AWFUL CATASTROPHE.

We learn that the child of the late unfortunate Anthony T. Robiou, was burned on Thursday night in such a manner as to cause its death on the ensuing day. The circumstances, as far as we have been able to gather them, were nearly as follows: Mrs. Robiou and her mother, Mrs. Wormley, were absent at Chesterfield Court House, having been summoned as witnesses on the trial of Reid. They left behind them, the former one child, about fourteen months old, and the latter three children, one very young, in the care of a negro woman. This woman having gotten Mrs. R.'s child to sleep, placed it in the room which the mother was in the habit of occupying. The house had two rooms, one above and one below stairs. The room in which the child was placed was above stairs. Having thus disposed of it, the woman went to the kitchen with the three other children, and was sitting there with them and two negro men, when she heard the infant scream violently. She immediately gave the key to one of Mrs. Wormley's children, a girl about nine years old, and directed her to unlock the back door and see what was the matter. The little girl, as soon as she opened the door, screamed out that there was a great fire up stairs. The servants hastened to the room and found the bed in flames, and the child dreadfully burnt. Some of its toes were parched to a crisp. The fire had been placed under the bed and about the middle of it. One of the windows was found open, but no clue to the perpetrator of this horrible crime (if it was the act of a murderer, and not an accident) has been found.

FIRE.—The schooner Arthur Emmerson, lying at Petersburg, was destroyed with her cargo of lime, by fire, on Saturday morning last. Her cargo consisted of some 400 barrels of lime.

MARRIED.

On Monday, the 31st ult. by Rev. E. Kingsford, Mr. AQUILA MATHENE to Miss CASSANDRA HUGHES, all of this place.

THE STONE CUTTERS.

To the Editors of the Dispatch.—The committee of the Journeymen Granite Stone Cutters of the City of Richmond, have the honor to regret that certain persons who are contractors for work here, have put in circulation reports injurious to their society, and totally adverse to the interest of those who have engaged them to sup-
port the erection of buildings. The members of this society have always been willing to adjust their prices to a fair and reasonable compensation, under such rules as will secure to the builder and his employer every advantage that they could reasonably expect. It is seriously insisted that the employment of hands by the day at the will of the contractor, as to numbers, is unfair and unjust, and its practical operation is to put money into the pockets of the employer from the labor of those who are most meritorious. If workmen are next employed by the day, all should be so employed. If by the piece, all should be, except some one or two, to which no objection is made. There is no other means by which any man, calling himself a workman, can live by his wages, or get an equivalent for his services. The committee would, if it did not extend this article too long, go into a detail of this oppression of the workman, and the bad faith to which he is subjected by those who have been entrusted with having their work superintended. We confidently trust our cause to be community, who, we believe, will co us justice.

THE COMMITTEE.

Dunlop, Moncre & Co. ask the attention of dealers to their Auction sale of GROCERIES, &c. This Morning, at 10 o'clock, without regard to weather. je 8

Attention is requested to the sale of Miscellaneous Goods to commence This Morning, at half past 9 o'clock, at my sales room, No. 8, Fifteenth street. See advertisement. je 8

Also to the store, to be rented at auction, on Main street, opposite the Banks, lately occupied by Mr. M. Minn as a saddler's shop, to take place at 5 o'clock This Evening. je 8

We invite the attention of the public to the sale of improved machinery, at the corner of Grace and 13th streets, advertised by H. A. Claiborne, Trustee, to take place This afternoon, at 5 o'clock. je 8-11

H. W. STARKER, ATTORNEY AT LAW AND NOTARY PUBLIC.—Practices in the Courts of this city and the counties of Henrico and Hanover. Office, next to corner of 13th and Franklin streets. my 27-1m

DR. A. E. PETTICOLA offers his professional services to the public of Richmond and its environs. When not in his office, Dr. P. may be found at the Virginia House or the Medical College. Office on Broad street, between 10th and 11th, nearly opposite the City Hall. ap 20-2m

HAWES R. BUTTON, NOTARY PUBLIC.—Particular attention paid to writing DEEDS and other legal instruments. Office in the Law Building, Richmond, Va. my 6

Ever one who has suffered with frost-bitten feet, rheumatism, ague, &c., spinal affection, soreness of the breast, &c., knows that H. G. Farber, when all other remedies fail, and we verily believe if those same persons had a bottle of this celebrated Remedy, and could get no more, they would not take fifty dollars for it.

LADD & CO., corner of Main and 14th streets, Richmond, Va.

It is most true that the ladies have given us the preference, as they continue to throng our rooms for the splendid style of Daguerreotypes taken by the celebrated Patent Process. It is the only way of securing the shadow, ere the substance fades; therefore, we recommend strangers and citizens to come to us for their Daguerreotype Pictures, where they cannot fail to obtain them entirely satisfactory. The public should always bear in mind that we take pictures of the dead equal to the living. GOULDSON'S Patent Process Daguerreotype Gallery, No. 114, Main street, one door above Mitchell's. je 5

LOCAL MATTERS.

HENRICO COUNTY MEETING.—The adoption of resolutions censuring the conduct of Governor Johnson.—The following call has been published the last few days in most of the papers in our city:

A meeting of the people of Henrico will be held at the County Court House on Monday next, at 1 o'clock, (being Court day) to consider of and properly characterize the conduct of Governor Johnson in the pardon of Jordan Hatcher, and his reasons assigned for the same.

It is earnestly hoped that the meeting will be numerously attended, as the subject is one of the utmost importance to every citizen of the county.

MANY CITIZENS.

In response to the call—irrespective of a large number convened in the court house for court purposes—about one hundred residents of the county assembled in the court house yard and organized the meeting by the appointment of Dr. Robert B. Lyles President, and James W. Lewellen Secretary. The object of the meeting having been stated, on motion of Mr. Davis, a committee of five was appointed to draft resolutions expressive of the sentiments of the people of Henrico county in regard to the commutation of Jordan Hatcher's punishment. The committee was first constituted of Messrs. Davis, Aiken, Betts, Belcher, Bow and McCoull—Messrs. Bow and McCoull declining the nomination, Messrs. Haines and Taitam were appointed in their place.

The committee then retired for the purpose of conference, and soon after returned and reported the following resolutions:

Resolved, 1. That in the late act of the Governor of Virginia—commuting the punishment—which was equivalent to a pardon—of the slave Jordan Hatcher, who had been regularly tried and convicted of murder by a competent and impartial tribunal, for which he had been condemned to death, we have witnessed a gross misconception of the law, a flagrant abuse of the pardoning power, and a dangerous precedent if not at once sternly reprobated by the public voice of an independent people, as guilty of great indiscretion, and a violent wrong to the offended community in which they live.

Resolved, 2. That in the communication of Governor Johnson to the Legislature, a signing his reasons for the act aforesaid, we recognize doctrines subversive of the relations that have heretofore existed between the master and slave, alike dangerous to our peace, our welfare and our safety—as encouraging insubordination and justifying resistance on the part of the slave to the lawful authority of the master.

Resolved, 3. That while we thus condemn the act of the Governor, we cannot hold those of the representatives of the people and the conductors of the public press, who have indirectly countenanced his conduct by their efforts to defeat legislative enactments, and to smother the voice of an independent people, as guilty of great indiscretion, and a violent wrong to the offended community in which they live.

Resolved, 4. That in our opinion the conduct, reasons and motives of the Governor in the act aforesaid, are in the highest degree, and should be discountenanced by every true Virginian.

The question being upon the adoption of these resolutions—

Mr. Bow said that he had in his hand a preamble and resolutions which he desired to read for the consideration of the meeting, and which he would offer as a substitute for the resolutions of the committee, and the meeting might then have an opportunity of choosing between the two series and selecting that which they thought best. If those which he offered were adopted, he should ask to be reinstated as a committeeman. They were as follows:

Whereas, Jordan Hatcher, a slave, was, in March last, tried by the Hustings Court of the city of Richmond, for and convicted of the murder of William P. Jackson, a white man, and sentenced according to law with the punishment of death; and whereas, said Hatcher, by the power of the Governor, was commuted to life imprisonment to be sold and transported beyond the limits of the United States, and thereupon communicated his reasons therefor to the General Assembly on the 11th May, and in another message of the 19th of the same month explained the first; and whereas, of late years, the execution of the salutary laws for the prevention of crimes by our slaves, has been to a great extent arrested by executive interference—therefore, be it

Resolved, 1. That, following in the footsteps of his predecessors, our present Governor—doubtless conscientiously—fell into great error in the commutation of said Hatcher's punishment.

It has been declared by the best authorities to be a rare and very form of Scrofula, or Chronic Liver Disease, all Chronic Diseases of the Stomach and Bowels, Dyspepsia, Chronic Diseases of the Eyes, Mercurial Affections, and particularly adapted to cases of Passive Uterine hemorrhage, complicated with derangement of the Stomach and Stomach, and many other disorders arising from impurity of the blood.

For sale by Druggists and country merchants generally throughout the United States. Price 12 1/2 per doz. or \$8 per dozen.

Druggists and others wishing to purchase in large quantities, or become Agents for the sale of the above celebrated Liver Pills, will please address BOOTH ANDERSON & CHRISTIAN, Almy Springs, Kentucky, or JOHN H. SEAYRES, Columbian Hotel, Richmond, Va. je 7

TO THE PUBLIC.—The celebrated "FLETCHER'S HAIR TONIC," manufactured by John Fletcher, under American Patent, having such wide spread notoriety, for its wonderful properties in restoring and beautifying the hair, and manufacturing would report (through this extended circulation) that he does not mean to part with his right to make and vend it in the State of Virginia. His attention having been so often called to his advertisement, he deems it appropriate to say his friends and the public, that he is still manufacturing it in large quantities, trying to meet the demand for it—those who have not been able to be supplied may rest assured that they can have this delightful and valuable Tonic, by applying under the American Hotel, or to Mr. R. Duval, Seabrook & Reeve and Bennett & Beers. je 7

AMERICAN HOTEL.

The Greatest Spring Medicine!—Carter's Spanish Mixture.—This wonderful and truly medicinal medicine has been tried by a great number of our citizens, and has performed more cures (some most astonishing) than all the balance of the articles so extensively advertised put together. It is the only certain and unfailing remedy for MERCURIAL DISEASES. It will cure Syphilis in its primary and secondary stages, as can be testified by hundreds of grateful patients whom delicacy forbids naming in public. For diseases of the LIVER it has never failed. It positively cures Scrofula and Eruptions of all kinds. Bloches on the face, and eruptions of the Cuticle are in a short time entirely removed. Numbers of certificates from gentlemen of the first respectability could be given, but as the article is made in the county of Henrico, any one not acquainted with the medicine can see the maker of it. It contains no noxious or hurtful articles, can be given with impunity in any weather, and will be found the best medicine for the Spring which can be used, or has ever been tried.

Call and see the directions, with a description and history of the medicine and a number of wonderful certificates from persons you know. BENNETT & BEERS, Druggists, No. 125 Main street, are the sole Agents for the sale of it in Richmond, who will supply Druggists and others to sell again, and to whom all orders must be addressed, as it must pass through their hands. my 4-3m

PRESERVE YOUR HEALTH.—Now is the time for Cholera Morbus, Dyspepsia, Bowel Complaints of various kinds, Diarrhoea and Bilious Fever. Persons subject to either, or all of these complaints, need not fear their attacks if they take a few bottles of Baker's Celebrated Premium Bitters, by applying under the American Hotel, or to Mr. R. Duval, Seabrook & Reeve and Bennett & Beers. je 7

HENRICO COUNTY COURT.—The monthly term of this court commenced yesterday. Mr. R. G. Scott, in behalf of Col. Mosby, of Henrico county, filed a complaint against the legality of Mr. Ellett's election as clerk of the County Court. It was argued that a large number of votes were cast in the county by residents of Richmond city, at the late judicial election for Mr. Ellett, to which votes he was not lawfully entitled. The argument will probably engage the attention of the court to-day.

FIRE.—The alarm of fire between 10 and 11 o'clock, yesterday morning, was occasioned by the burning of the upper part of Dr. Dove's stable, located on an alley running from 19th to 20th sts., between Franklin and Main streets. Damage \$5000. No insurance. je 7

DEMOCRATIC RATIFICATION MEETING.—Owing to the late issue of the call—4 o'clock last evening, and its very brief circulation, together with the important fact that the doors of the City Hall were closed to admission, there was no ratification meeting last night. A large number of persons assembled, but perceiving no chance of admission, returned home. At 9 o'clock, Mr. R. G. Scott took a vote upon the adjournment of the meeting; and it was resolved that the Democratic ratification meeting be held in the African Church, Thursday evening next, at 8 o'clock.

TEMPERANCE MEETING.—General Carey, of Ohio, addressed an audience of some three or four thousand persons in the Capitol Square Sunday afternoon on the subject of temperance. For two hours he riveted the attention of the immense auditory by his magical and soul-stirring eloquence.

DRUNK AND DISORDERLY.—James McMonara was arrested, Sunday evening, while engaged under the lead of Captain Alchy in raising a hubbub in Main street. He was, on yesterday, sent to jail in default of \$200 security to keep the peace and be of good behavior.

ABUSIVE.—Mary Kidd preferred a charge before his honor, yesterday, against Mary and Ophelia Hope, of using abusive and threatening language towards her (Miss K.) Owing to the absence of a material witness for the complainant, the case was continued until to-day.

A charge of assault was dismissed, the parties concerned having adjusted the matter themselves.

FINED.—William Watkins was fined \$10 and costs, for buying and selling chickens on the same day at the Lower Market. Reported by Superintendent Diddop.

A man, named Gentry, bought and sold fish in the New Market, on Saturday last, and yesterday the money accruing from the sale, \$2.62, was declared by the Mayor forfeited to the city. Reported by Superintendent Valentine.

WATER-TAX.—A free woman of color, named Catherine Foster, was, on yesterday, fined \$5 and costs, for unlawful use of a city hydrant.

VIOLIN-PLAYER WANTED.—See advertisement.

As Mr. Hill has failed to produce his long-tailed natural colored Pictures, the public will be satisfied with the beauty and brilliancy of the new Daguerreotypes, combining as they do, the unerring accuracy of the camera obscura, with the soft and richly colored painting. Whether Mr. Simons has the luck of getting the best Lady subjects, or whether his new style of taking these sun-drawn pictures, better adapted to their fair complexion, is not so certain, he makes them all look bewitchingly beautiful.—(Enquirer)

P. S. The members of the Temperance Convention, particularly invited to call, and examine the beautiful, new style Ivory Daguerreotypes. M. P. SIMONS, 101 Main street. je 4

Only 12 1/2 and 25 cents for Bilious Habits and the Liver, the best Purgative Pills in the world. RAILROAD ANTI-BILIOUS PILLS are the best Pills thousands who have used them declare, for purifying the blood, carrying off all bile, and producing a healthy tone to the liver. They are called "Railroad Pills," because they go ahead of all other Pills in their good effects.

Dr. Ross's celebrated Family Pills for Indigestion, Dyspepsia and Sour Stomach, are also in great demand—Price 25 cents, and for sale by Purcell, Ladd & Co., Adie & Gray, Gaynor & Wood, Bennett & Beers, R. R. Duval, Seabrook & Reeve and Bennett & Beers. je 21-1a

LIVER PILLS.—PREPARED FROM THE MASS OBTAINED AT THE ROCKBRIDGE (VA.) ALUM SPRINGS.—These Pills are Diuretic, Cathartic, Tonic and Alterative in their effects upon the system. They excite the action of the Liver in many cases in which Colic would have no effect. They are also peculiarly efficacious in Female Diseases.

The wonderful success which has attended the use of the Rockbridge Alum Water and Pills, for many years, in the most distressing cases of Biliousness, has led to the discovery of a remedy which is steadily increasing. The most eminent Chemists of the day have examined the Water and Pills, and found it possessed extraordinary medicinal properties. It has been declared by the best authorities to be a rare and very form of Scrofula, or Chronic Liver Disease, all Chronic Diseases of the Stomach and Bowels, Dyspepsia, Chronic Diseases of the Eyes, Mercurial Affections, and particularly adapted to cases of Passive Uterine hemorrhage, complicated with derangement of the Stomach and Stomach, and many other disorders arising from impurity of the blood.

Keep your Blood Pure.—In order to enjoy health during the approaching summer, we would remind our readers that the "one thing needful" is to keep the blood pure; and in order to accomplish this we know of no greater purifier of the blood than the celebrated Dr. Haysman's Vegetable Tincture, which by its wonderful curative has established for itself a reputation far surpassing any medicine known. We would respectfully call the attention of the afflicted to another certificate of the strongest character, which may be found in another column of our paper, and would also remind them that this medicine is kept in our city by O. A. STRECKER, Main Street, who is supplying the trade at proprietor's prices. Call and get a pamphlet gratis. my 26

Dr. J. S. Ross's Sarsaparilla.—BLOOD PURIFIER.—A Great Spring and Summer Medicine.—This Sarsaparilla compound is made from fresh Honduras Sarsaparilla, and being combined with other ingredients, renders it the very best Sarsaparilla compound made, for purifying and enriching the blood, and curing all penetrations and skin diseases, scrofulous sores, venereal diseases and its bad effects in the constitution, dropsical swellings, rheumatism from the use of mercury, piles, old sores, kidney and bladder affections, cleansing the system from all impurities, and a weak and impaired constitution, from any cause. It improves the appetite, enlivens the spirits, and as a summer drink in cold water, it is a pleasant, useful and medicinal beverage. All families should have a bottle by them. Quot bottles \$1; small bottles 50 cents.

For sale by Adie & Gray, Purcell, Ladd & Co., Bennett & Beers, R. R. Duval, Gaynor & Wood, O. A. Strecker, A. Bodeker, J. Blair and W. P. Ladd. my 18

Mexican Mustang Liniment, Improvement, Progress, Growth.—These are now the order of the day. And the great desire of these is the proving cause of the great advancement now in operation in the Medical world. New light blazes up and old practices and old mixtures are discarded. The six new astonishing combinations in the Mustang Liniment, enable it to cure all penetrations, nerve and muscle, and drive out disease and assist nature to recover her lost powers, and become healthy, which is evidently the true cause why it is so successful and why so many physicians that are acquainted with its virtues prescribe and recommend it.
