DURIFY THE SYSTEM.—The intense
I heat which has prevailed for some days has
created bihousness in aimost every human frame,
and hundreds of persons are daily physicing themselves to death with calomel and pelsonous minerals
of various kinds, under the celusive hope of finding
relief for their annoying maladies. To such persons we can only say, try a bottle of Baker's
Premium Bitters, and obtain immediate reief.
Being purely vegetable in their composition, and
entirely free in their operation from those sickening, nauseating qualities which are the effects of
most medicines, they at once create a healthful re
action throughout the patient, sharpen the appetite,
improve the digestion, give vigor to the liver, expei
the surplus bile, and thoroughly purify the blood,
thereby driving out every unwholesome humor
that may have become secreted in any portion of
the system. As an Aperient or Tonic, these Bitters
have no equal, white, at the sam-time, by their
healthful action on the stomach, liver, and digestive organs, they at once check any inclination to
diarrhose. Let the affiliered try them, and satisfy
themselves of the superior quality of these Bitters
over those of all others offered in our city.

The OLD DUMINION SPEAKS.—Mr.

John Luke's testimony, a gentleman extensively known, though upwards of sixty years of agy, now enjoys the health and activity of youth-he cheerfully recommends this "Tincture" to all Many, by his charity, have been restored to health by it, and in the city of Richmond, numbers will testify it has cured them when all other remedies have failed; but its faime has spread through the Usion, and every where the sillisted hall it as the wonderful di-covery of the age.

The world never before saw auch a mass of home testimony given to any other medicine.

PORTSMOUTS, July 9th 1851.

Mr. J. E. Boush—Dear Sir: I feel it a duty to make known the benefit I have derived from Dr HAMPTON'S VEGETABLE TINCTURE. For a number of years I have suffered from disease, but to a greater degree for the last three years—one of the forms of my disease was Dyapepsis. From this dreadin malady I suffered to such an extent, that affe was really a burden—the attack on me was different to that on any other person of whom I have heard, at times it was like the papitation of the heart, chest and stomach—some of the attacks would last for weeks—my stomach was much distended, with constant pain, great weakness and constipatism of the bowels. I could not eat the most simple food without pain. I also suffered gr. ally from disease of the kidneys, with constant pain in the back, so that I could walk only with great difficulty—I tried nearly all the most popular patent medicines of the day, but found no reals! I had also the .est medical attendance—one of my physicians frankly told me it was no use for me to be paying him for advice as he could do menogood. I gave up almost in despite a line of the stomach, was nearly if not eatire, y cured. Atthis juncture I heard of Hampton's Vegenable Tincture. I requested to give it a trial, although persuaded by my friends, until my son purchased a new back, and say to them it value is above price, and f
