"Come, Let Us Reason Together." THOUSANDS feel it a duty to their afflicted friends of the benefit derived from Hampton's Vegetable Tincture. From day to day we have a constant supply of cures performed on our best-known citizens, and still we have a perfect avalanche of letters pouring upon us—all giving a weight of testimony that must be read for themselves. All are invited to call and see the first person who has not been greatly benefited by its use. A gentleman of great neighborhood was induced to try the Tincture for a violent palpitation of the heart. He had suffered so much that three days when he assured us he would not take five hundred dollars for the cure he had derived, and that he should never cease to remember us with gratitude for calling his attention to it. Yours truly, GRAY PENDELTON. The Whole World Attention!—Hear him, ye sick, and do likewise! Messrs Mortimer & Mowbray, Feb 9, 1852.

Messrs Mortimer & Mowbray—Gentles: It is with real pleasure that I am able to attest to the great healing and curative powers of Dr Hampton's Vegetable Tincture. Some time during last November I was advised to take your Tincture, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all, my cough left me. Permit me also to state that for the last fifteen years I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of your Tincture. I have since given it to my children, and they are all well. You are, my friends, and believe me, yours, very respectfully, G. DUNAN. N.B.—I can be seen at any time at the Mayor's office.

Cure of Cough, Consumption, great Debility, &c. Dr. DuVal—Dear Sir: I was promptly relieved of a violent attack of consumption, which I had contracted by taking a large dose of your Anti-Spasmotic. Since that time I have frequently witnessed its good effects in other cases. About six weeks ago I was suffering exceedingly from an acute Rheumatism of the limbs, and was unable to move. I determined to try your Anti-Spasmotic, and accordingly took a large dose of it just before the time for the Rheumatism to return. I experienced a peculiar sensation of warmth, which was kept up by repeating the dose once or twice at intervals of two hours. Though necessarily exposed since, I have felt no return of it. I feel confident in recommending your Anti-Spasmotic to all who are afflicted with these various ailments. Very sincerely yours, AMBROSE ACREE. (Signed) King William, July, 1852.

Dr. DuVal—Dear Sir: I have administered your Family Anti-Spasmotic in several violent attacks of Cramp and Dysentery. I have applied it externally to the bite of a spider, when there was an enormous swelling of the limb, and intense pain in all with great success. I have sold a great deal of it in this neighborhood, and as far as I know, it has given universal satisfaction. All who have used it, praise it as having no equal as a family medicine. I deem it due to say that in most of the instances alluded to above, various remedies were used without effect. Respectfully yours, S. W. Y. MUSE. Manufactured by P. DU VAL, M. D., King William C. H., Va. to whom all orders should be addressed. Price 12 cents and 50 per bottle. Wholesale and Retail by PUGH, LADD & CO., wholesale agents, and by THOMAS & CANTY, J. BLAIR, A. BODEKER, and WM. P. LADD; in Baltimore, by CANBY & HATCH; in Portland, by GARLICK & CATHMAY, and by Druggists generally. au 6-3m

LIVER COMPLAINT, JAUNDICE, DYSENTERY, CHRONIC OR NERVOUS DERANGEMENT OF THE KIDNEYS, &c. &c. Diseases arising from a disordered Liver or Stomach, such as Constipation, Inward Piles, Fullness, or Blood to the Head, Acidity of the Stomach, Headache, Dizziness, &c. &c. For Food, Finesse, or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Harsh and Slight Breaths, Flushing at the Head, Choking or Spitting, &c. &c. when in a lying posture, Dimness of Vision, Dots or Wubs before the Sight, Fever and Dull Pain in the Liver, &c. &c. Prepared by the Proprietor, Yellowishness of the Skin and Eyes, Pain in the Side. Back, Chest, Limbs, &c. Sudden Flushes of Heat Burning in the Flesh, Constant Imaginations of Evil, and Great Depression of Spirits, can be effectually cured by DR. HOOFLAND'S CELEBRATED GERMAN BITTERS, prepared by Dr. C. M. JACKSON, at the German Medicine Store, 120 Arch street, Philadelphia. Their power over the above diseases is not exceeded—equalled—by any other preparation in the United States. In the cure of the cure, in many cases, after skillful physicians had failed. These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of the bowels, they are equally efficacious in the most searching powers in weakness and affections of the digestive organs, they are, withal, safe certain and pleasant. RADI AND BE CONVINCED. Charles Robinson, Esq., Editor of the Liberator, in a letter to Dr. Jackson, January 9, 1850, said: "My wife and myself have received more benefit from your medicine than any other we have ever taken for the various ailments of the Liver, Gall bladder, and the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

DR. HOOFLAND'S GERMAN BITTERS: It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it. This medicine is a truly rare and valuable medicine of long established, universally prized, and which has met the highest approval of the faculty itself. This medicine has attained that high character which is necessary for all medicines to attain to, and due consequence to put forth a vigorous action in the risk of the lives of those who are innocently deceived. Look well to the Marks of the Genuine. They have the written signature of C. M. JACKSON upon the wrapper, and the name in the bottle—WITHOUT WHICH THEY ARE SPURIOUS. For sale, wholesale and retail, by PUGH, LADD & CO., Druggists, 82 Main street, corner 14th. au 8-1m

THE DAILY DISPATCH

FURTHER CALIFORNIA NEWS, BY THE FALCON.

The new steamship Cortez has arrived at Panama from New York, making the passage in the almost incredible short time of thirty-three days, being the shortest passage on record. Her sailing powers are very highly spoken of. The Isthmus was generally healthy. Passengers were arriving and departing without the slightest interruption. Considerable excitement existed at Panama on account of discoveries of gold upon the Isthmus. The American brig Egyptian, from Boston, had arrived at Aspinwall. Trade at Panama was improving. The railroad was expected to be completed to Panama some time in April next. Some serious disturbances had occurred at Contra Costa, which were finally quelled by the authorities. A difficulty had occurred between Major Savage and Captain Harney, on King's river. The former was killed in the rencontre. The overland emigration continued to be very large. Some of the emigrants report most terrible sufferings had overtaken them, while others fared pretty well during the entire journey. The news from the mines is highly favorable. The miners are in high anticipations, and the yield of gold promises to be immense. A new and valuable gold mine has been discovered in the eastern range of the Sierra Nevada. MARKETS AND BUSINESS.—Business generally was steady and prosperous, though the markets were not active. Many descriptions of goods and produce had experienced a slight decline. The money market was in a healthy condition. The receipts of gold dust at San Francisco were on the increase. Intelligence has been received that, owing to the neglect of the farming interest, four and what were advancing; also, many other articles of produce. The steamer United States, now en route for New York, is bringing the passengers of the steamer Winfield Scott, from San Francisco, who left there on the 6th September.

THE TRAIL OF THE WOODCOCK.—Some years ago an Italian singer, of a very gentlemanly and amiable character, named C—, went over to England, to sing at the opera. He never loved the stage; and finding an opportunity of entering into some mercantile speculation, he quitted his original profession, dropped the Italian termination of his name, and became highly successful in his new pursuit. His distinguished manners, and the respectability of his character, obtained for him an admission into the first circles of London; and the Duke, with a particular regard and esteem, admitting him on familiar terms to their domestic circle, as well as to their more public parties. He never could wholly master the English language, however. One day dining alone with the duke and duchess, the duke sent him some woodcock, but omitted to send him any of the trail. "I will beg your Grace for some of de bowels," said Signor C—. "Oh, fe! Mr. C!" said the Duchess. "We ask your pardon for correcting you; but we call that in England the trail!" "I thank your grace a thousand times," was the reply. "I will not forget—de trail—I shall remember de trail. How do you spot to the Duke, who, on opening it, appeared convulsed with laughter. The Duchess insisted that the whole party should share in the fun, whatever it was, and after some hesitation, his Grace read as follows: "My Lord Duke—I am profoundly grieved that I cannot have the felicity of attending upon your grace this evening, and have waited to the last moment, in hopes that I should be better. I find, however, that it would be in vain to attempt, as I am afflicted with excruciating pains in my trail, and can only sign myself with very great respect, your Grace's faithful servant."

"OLD FOLKS AT HOME," which is sung with such fine effect by Master Adams of Kunkel's Nightingale opera troupe, is on everybody's tongue, and consequently in groan with it night and day; sentimental young gentlemen warble it in midnight serenades; voluble young "bucks" hum it in the midst of their business and pleasures; boatmen roared it out stentorially at all hours and at all times; all the hands play it; amateur flute blowers agonize over it at every spare moment; the street organs grind it out at every hour; the "singing stars" carol it in the chamber maid sweeps, and at concerts; the chamber maid sweeps and dusts it; the measured cadence of "Old Folks at Home." The butcher's boy treats you to a strain or two of it as he hands the steaks for dinner; the milkman mixes it up stentorally with the harsh discord accompaniment of his irritable old; there is not a "live darkey" young or old, but who whistles, sings, dances and plays it, and throw in "Ben Bolt" by way of "seasoning" indeed; at every hour, at every turn, we are forcibly impressed with the interesting fact that: "Way down upon the Swane ribber, Far far away, Dere's my heart is turnin' ebbin, Dere's my ole folks at home;" while the pathetic—We may add, the soul-stirring—Chorus breaks upon our sympathetic ear in the following strain:—"All de world am sad and dreary, Ebery where I roam, Ole darkey bow my heart goes wazy, Far from ole folks at home."

THE GREAT MERCHANT SHIP IN THE WORLD.—Mr. McKay, of East Boston, is now at work upon a clipper ship, which will sail in size and speed, and be the fastest vessel now afloat or known to be in the course of construction. She will be 300 feet long, have 50 feet breadth of beam, 28 feet depth of hold, with three decks, and will register over 3000 tons. She will be diagonally braced with iron, and built in every particular equal in strength to the best of ocean steamers. Her point of view, in the water, and admiration of all who have seen it. She will have four masts, with Forbes' rig. Mr. McKay builds her on his own account, and will sail her too, if he does not sell her.—Boston Atlas.

Hon. Wm. A. Graham, the whig candidate for the Vice Presidency, having been invited to attend a whig mass meeting, at Statesville, North Carolina, has written a letter expressing his regret at being unable to be present, and adding that it is not his expectation to address popular assemblies during the present canvass.

BALLOONING.—Mr. Jno. Wise, the celebrated aeronaut, is engaged at Lancaster, Pa., in constructing a balloon intended for a trip from New Orleans to New York in twelve hours. If successful in this undertaking, he intends in the next place to prepare for a trip in the same conveyance to Europe. Some editors seem disposed to laugh at or to treat the proposition of Mr. W. with ridicule. We shall not follow their example. We have seen projects accomplished in this wonderful age of progress, discovery, and enterprise, which at first appeared far more difficult than the task now undertaken by Mr. W. In view of some of the projects which we allude to, we can scarcely any longer doubt the practicability of any proposition, no matter how difficult or absurd it may at first appear. Look at the wonders accomplished by the recent discovery of steam. Who would have believed, fifty years ago, that a trip which then could only be performed with much labor in six days, could now be easily accomplished in six hours? Look at the still more wonderful discovery of the uses of electricity. Who, only ten years ago, would have credited the statement, if told that the people of Maine and Louisiana, several thousand miles apart, would at some period not distant, be able to communicate with each other every five minutes—a time shorter than necessary to walk from our office to the Old Market? The person who would have ventured upon such a prediction, would have been, by general consent deemed a fit subject for a lunatic asylum. No! We shall not call in question the practicability of the scheme of Mr. Wise. This is the age of invention and of Wise men. We can hardly doubt anything, no matter how monstrous the proposition. We can scarcely wonder that the bare-faced imposture of Spirit Rapping receives the credulity of some persons. Even if Mr. W. were to propose a trip to the moon in a balloon, we should not deem him a madman; for it has been our fortune to live in an age when feats scarcely less wonderful have been accomplished. We have no doubt that there are still in the womb of time many great and useful discoveries to come forth. Wise as we are, we have still something more to learn. We have gone down deep into the bowels of the earth, in search of things to administer to our restless desires, and we have ascended to the heavens and called the lightnings to our aid; and yet there is still more to be learned than we have ever dreamed of in our philosophy. In view of the past, who can undertake to predict what the next fifty years may not bring forth? We do not, certainly, expect that any thing will be discovered to transcend the lightning's speed; but we do anticipate that the present age will be laughed at fifty years hence, for travelling at the slow pace of only 30 to 40 miles an hour. We shall, therefore, not be surprised to see Mr. John Wise, or some other wise man, making a trip, even in our day, from Pennsylvania to New Orleans in twelve hours. And we say to him: Go ahead! Your proposition, in view of other recent discoveries, appears not only feasible, but clearly within the range of practicability. You may be building "castles in the air," but at the same time conferring incalculable benefits upon yourself and your country.

SCARCITY OF SILVER COINAGE IN EUROPE.—Not only in this country is the scarcity of silver a subject of complaint, but in Europe the greatest inconvenience is felt on account of it. The following article, from the London Times of Sept. 16, explains the cause of the scarcity, and the remedy that is to be applied. There never was known for many years so great a scarcity of the silver currency as at present, in consequence of the very large exportations of silver that have recently taken place to Port Philip, Melbourne, Geelong, Sydney, and other parts of our Australian colonies, for the purpose of procuring the "gold diggings." Not a vessel leaves the port of London, Plymouth, Bristol, Liverpool, &c., but takes out a considerable amount both of gold and silver specie, either by speculators who are proceeding to the above colonies for the purpose of making large purchases of gold from the emigrants now working at the diggings, or consigned by capitalists and bullion dealers to their agents at Port Philip, &c., for the same specific purpose. It is with much difficulty that the bankers in the city and West end can obtain silver currency to any amount, either at the Bank of England or the Royal Mint, to accommodate their correspondents in the different parts of the United Kingdom with silver coinage. At Birmingham, Manchester, Liverpool, and other large commercial towns, the demand at the various banks for silver is so great that they are unable to supply parties with more than £100 to £200, as not only is a vast quantity being shipped off to Australia and other distant parts, but the demands for silver bullion and specie for France, Belgium, Holland, Hamburg, and the continent, are also very extensive. In consequence of this immense call for silver, it appears that the authorities at the mint intend having a considerable amount immediately coined into specie, and likewise working off gold from the emigrants now going for the convenience of the emigrants, who are placed in great difficulties from the want of a small circulating medium in exchange for their gold.

POLITY ECSTASY.—The first settlers of Peterborough, N. H., were Scotch Irish, as were their ministers. Of one of these it is recorded that he commenced a sermon thus:—"This is a stately house; who meet here? The folks, they meet here; and de de he meet here too; and he's among the foremost and the fastest of ye; and he's pecking out at ye, like a wee mouse in de wa; ye donna see him, but he's de de. An' now where's the gun to shoot him wif? Here it is, said he, lifting up the Bible, and taking aim, here is the gun—too!—too! he's dead, he's dead!"—Conj. Jour.

The other day while over in Jersey City, a tall-long-legged, big, fat-bodied, six-foot Vermont carpenter came up to us, with a rush, holding in his hand a pillow-case well-filled, undoubtedly, with "house affairs and fixings," and also gnawing away on a large cake of gingerbread. He looked as though he was hungry. "Can you tell me, sir, what time the cars come in?" "The cars, sir?" "Yes, sir." "The cars, sir, come in right after the local train." "Doesn't the pillow-case of west his coat—oh, he was full of fight."
