TEXAS LAND AND OTHER AGENCIES.—The subscriber, having resided in Texas for the last seven years, and having been a public surveyor for five years, which afford him the very best opportunity of becoming well acquainted with the northwestern portion of the State, offers his services to the public as AGENT to buy and sell Land on commission, to buy Land Scrip and Land Certificates, to locate, survey and procure patents for the same. There are still 106,793,986 acres of public domain yet to be located. Much of this land is of a superior quality. Land Scrip is sold by the State at 50 cents per acre, and individuals sell certificates from 35 to 40 cents per acre. There is a great deal of choice land, that has already been located, owned by foreign merchants and others, that can be bought for a few dollars per acre. Fine choice tracts are often bought in this way, and soon sold again at several hundred per cent. advance.

To capitalists, the inducements for investments in Northwestern Texas are of the most superior character—a genial and a healthy climate, and the largest body of real fertile soil in the world, adapted to the growth of cotton and wheat, besides being withal the best stock-growing country in the world, raising all and every kind, without either feed or shelter.

By reference to the map, it will be seen that the Central Railroad and South Pacific Railroads are both progressing rapidly to a junction through this fine section, and now upon such a footing as to justify their meeting in three years. Now is the time for investments, as lands have progressively advanced, and must continue to do so for a length of time, under present prospects, at the rate of 100 per cent. per annum.

I will also take the management of a few Ranches or Stock Farms, upon the terms they are usually attended to in Texas—viz., one-third the future increase. Stock raising in Texas, I am satisfied, is the most satisfactory business a man can engage in. Raising cattle will net from 30 to 40 per cent. per annum, horses 50 per cent., mules 70 per cent., and sheep, the best of all, from 70 to 100 per cent.

My sons will assist me in carrying out these things.

Drafts would be much better to transmit than bank notes, as it does away with all hazard of loss in transmitting by mail, and any other way. I can make purchases with drafts, and have the deeds recorded and acknowledgment sent on as soon as the money will be drawn. My address for a few months will be "Poindexter's Store, Louisa county, Va.;" after that, "Waco, Texas."

DUVAL'S ESSENTIAL HAIR-WASH.—This invaluable preparation is presented to the public as the great desideratum "so long sought for in vain," for restoring lost hair, preventing baldness, eradicating dandruff, and giving the hair a smooth and glossy appearance. Let every one, whose hair is falling off, call and procure a bottle. Give it a fair trial. A single bottle will prove its qualities. Manufactured and sold by JAS. P. NEW GRANARY AND COMMISSION HOUSE, *On Cary, 2d door below 12th Street, and next to Flour Inspector's former Office.*

J. MONROE CARTER, (Successor to Jas. Thomas, Com'r Merchant,) Respectfully informs the citizens of Richmond, and the public generally, that he has purchased of the legal agent of Mr. Jas. Thomas all his stock on hand, such as CORN, OATS, HAY, CORN MEAL, &c., and will continue to keep on hand and deal in GRAIN, FEED, TOBACCO, FLOUR, select parcels of country-cured BACON, BUTTER, BEESWAX, DRIED FRUIT, &c., pledging every effort to facilitate the interests of those who may favor the new concern. A continuation of the patronage heretofore extended to his predecessor is solicited.

He refers, by permission, to Messrs. WAGGONER, HILL & ARCHER, VAN-LEW, TAYLOR & CO., JONES & CO., RICHARD CAUTHORN, Esq., PHILIP B. PRICE, Esq., Richmond, Va.
jy 28—3m J. MONROE CARTER.

A CARD.—We very earnestly request customers and others, who have our BAGS, to send them to us full of grain, if ready to send it, or empty, by the next train. We are suffering great inconvenience for want of our Bags that are idle in various hands who have neglected to return them. In a short time we must make up bag accounts and charge the holders with them. When we send bags to any person, they should be returned promptly.

Much of the wheat we receive is damp. Farmers ought to dry it at home. Barns, granaries and "all out of doors" are big enough to spread it in. Farmers lose immensely by inattention to this point.

We have fallen on perilous times, when debt is fearful. Filling orders for guano, &c., on the faith of growing crops, won't do for those who have to buy them on time. A safe principle of individual economy is to make money before we spend it.
