Answer: The silver dollar of 4124 grains is a legal tender for any amount, and of course the creditor would have to take that or nothing.

The Spitz dog is to be shot on sight at Long Branch this summer, and we suspect that the Alliance to that effect will bring more or less visitors to that popular resort, to say nothing of the other attractions.

When old Crockett read that Longfellow got twenty dollars a line for "Hanging of the Crane," he laid down the paper and queried: "How many lines does it take to hang a crane, anyhow? Why didn't they use a twenty-cent rope?"—Norristown Herald.

Little five-year-old is having her first experience of spring in the country. Looking at a pear-tree in full bloom the other day she exclaimed: "Why, mamma! Just look at that tree. It's all covered with popped-corn!"—Boston Transcript.

A Yankee was giving an account of his experience as hotel-keeper. "Did you clear anything by it?" asked a listener. "I cleared a six-rail fence getting away from the sheriff," he answered, quietly.

We would say, in order to save time and trouble for the office and its correspondents, that this department of the Hawkeye does want correspondents to correspond in Paris this summer to keep us posted in Exposition matters. We will pay the expenses of the correspondent to and from Paris, pay his board in the city during the summer, furnish him with free season-passes for self and friends to the Exposition, and pay him a salary of thirty-eight dollars a week. Thus the Free Press Phoenix crows from among its ashes: "There were two bushels of spring poetry—exactly two bushels, was carefully measured up and pecked into twenty hours previous to the fire, in order to be stored away in a bank-vault out of harm's way. There were some beautiful odes among them—some appealing to charity, gratitude, and the various other plucked-up and plucked-up sentiments giving the weather a bad racket, some flowing, some sad, but all worth at least a dollar a line. The Free Press was going to store them away until it had an income of a million dollars per year and was able to send a check for a hundred dollars to each writer. And now all are gone—gone up the spout, down the spout—cremated and pulped."

We learn from several trustworthy correspondents from the interior of this State that the people in their respective counties have not as yet received their share of the issue of new silver dollars. This is altogether the fault of the Treasury. It is the Treasury that has pronounced opponent of the silver bill, and is doing all it can to shake public confidence in its practical working. If our correspondents will write directly to Secretary Sherman and threaten to expose his wicked neglect of duty he will be obliged, under the provisions of the law, to send them each \$25 in new silver dollars.—Burlington Hawkeye.

Foxes and lawyers have so long been associated in the public mind that every lawyer is supposed to be the incarnation of that unscrupulous animal. There never was a greater error. Except, perhaps, the editorial, there is no profession that contains more dull asses than are to be found among the men who live by the law. A pompous manner and a heavy voice, with a few other equally tremendous accomplishments, have a great effect on the vulgar, and when added to the title of attorney at law they may sway a village, a city, or even a nation. Beyond that, they may have a great hurt to bear himself compared to this legal beast.—Courier-Journal.

The large number of people who own the snuff-box that once belonged to Thomas Jefferson will learn with sorrow that Thomas never carried a snuff-box.—Detroit Free Press. But each one of these snuff-boxes is the snuff-box of Thomas Jefferson would have owned had he carried a snuff-box, and this fact should tone down the disappointment of the present owners.—Norristown Herald.

It is to be hoped that the next man or woman who is moved to confess will give something that hasn't been told before. Boston Herald.
