THE BYRD-NINTH-STREET RAILROAD TRACK AND THE TOBACCO TRADE.—The question of the new track of the Richmond and Petersburg railroad on Byrd and Ninth streets was before the Tobacco Exchange yesterday. The talk of pulling up the track seems to have alarmed the receivers of tobacco, as if it would result in a loss of the temporary handling of tobacco, much of the stock in the hands of planters in the James-River Valley will go up to Lynchburg.

The following resolutions first passed the Board of Managers and subsequently the Association:

Whereas a railroad track has been laid across Byrd and Ninth streets by the Richmond and Petersburg Railroad Company for the accommodation of the business of the Richmond and Alleghany railroad, and to enable that road to receive and deliver freight until its permanent depot in the basin can be erected, and whereas said track has been laid in violation of the provisions of the charter of the city of Richmond, and the Committee on Streets have now under consideration the question of requiring the track to be pulled up.

Resolved, That in the opinion of the Board of Managers of this Association said track is in no way an obstruction to the ordinary street traffic, its use cannot impede the business of that part of the city, and in consideration of the closing of the canal and consequent blockade of the traffic from the James-River Valley to Richmond, it is very important that the Association be thrown in the way of the transfer of freight from the canal to the new railroad, therefore this Association respectfully request the Committee on Streets to permit the use of the said track until the matter can be decided by the Council.

Resolved, That the Board of Managers of the Tobacco Trade of Richmond this 13th of September, 1880, and confirmed by the said trade in mass-meeting on the same date.

JAMES A. SCOTT, President. Tests: Peyton Wise, Secretary.
