Berg as directors. The lot south of the hotel has been purchased and a hall 28 x 80 feet will be erected.

The public school is enjoying a vacation this week.

Last week was a busy potato week in our village again. A Matthias shipped 2 cars and C. E. Harris shipped one making a total of 29 cars from here this season. Though the potato industry in this locality is only just started Barney has quite a reputation already in that line on account of good yields and qualities. Last year Moffet Bros. planted 3 1-4 acres of potatoes from which they harvested 796 bushels, bringing them the sum of \$336. Leonard Kressin raised 1700 bushels on 8 acres. Geo. Elliott had 100 bushels on 60 rods of ground on town lots and H. M. Bailey raised 2,600 bushels on 24 acres. With our ideal soil for potato raising, the good yields and qualities, and the certainty of a potato warehouse to care for the crop this year there is prospects of a larger acreage to be planted this year.

#### SUMMIT

(By Sid)

Mrs. J. Achter returned from the county seat last Wednesday, where she went to consult a specialist in regard to her eyes.

For Sale two crossed eyed fountain pens.

The people in this vicinity are going to start raising ducks this coming season if some of the water don't leave pretty soon. Some of them that are renters have written to their landlords to see whether they rented water or land.

Last Saturday one of the local sports went out hunting deer. We think that it is rather out of season for that kind of game. We don't want to mention his name as it is apt to get him into trouble. Later we had a talk with Bill and he told us that we had the word misspelled. He said that it should be "deer" not "deer." But we will take his word for it as he is a pretty good fellow anyhow.

#### CHRISTINE

Rev. A. M. Lunde delivered an excellent sermon at Richland church on Sunday. The Y. P. S. is doing good work, also.

O. J. Dahl has made a number of various improvements at his store.

The ladies of Christine without escort, visited the river on Sunday. The water was 4 feet above the high mark of 1897. The trip was very pleasant going. But the return journey was wonderful. For between the mud and gumbo, the Christine merchants received much patronage for new rubbers. The ladies lost much, but did not lose those sweet tempers--for which our ladies excel.
