"THE OTHER MAN'S WIFE"

The eternal triangle, the man, the wife and the other man, or the wife, the husband and other woman; this is the basis for all stories and naturally is as old as time. To treat this age old basis principle in a new or clever manner "is a consummation devoutly to be wished" and in "The Other Man's Wife" the new Gaskell & Mac Vitty play a new treatment of this old theme is to be found.
The play is from the pen of Victor E. Lambert, and abounds in a succession of clever situations. The comedy scenes are numerous and the press has been most flattering in what they have had to say about the play.
"The Other Man's Wife" will be seen at the Wahpeton Opera House on Wednesday Evening, Nov. 8th. Victor E. Lambert's new play, "The Other Man's Wife" is scheduled to appear at the Wahpeton Opera House, Wednesday, Nov. 8th. The story of the play is the double standard of morals imposed upon the world by man. The acts of the man are condoned and excused and apologized for while the same actions in women are condemned and no excuse made or accepted. Mr. Lambert has taken the time old theme and wove into it a most fascinating story. The producers Gaskell & Mac Vitty have given the play the best cast possible and a sumptuous scenic investiture.

S. R. VAN SANT TRIBUTE TO PRES. WILSON

Delivered June 22nd, 1916, at the Wilson Day Celebration
The United States has ever been fortunate in having the right man for every emergency.
Washington for the Revolution Jefferson to pen the immortal Declaration of Independence, Hamilton to plead for the constitution, Jackson to destroy nullification, Lincoln to preserve the Union and now when a world war is raging, the man of the hour is Woodrow Wilson.
No man ever had a more difficult task to perform. No citizen ever needed the support of every citizen of the republic than he.
While desiring peace, he has stood for the right of the American people. It takes a man of courage to do this for it may lead to war.
We have reason to be proud of our president. What man stands first before the world? Is it England's king, Germany's kaiser, Russia's czar or Austria's emperor? No! It is the president of the United States.
Let us, every one of us, stand by him. He is fighting our battles. He is entitled to our support.
As it is, we have 48 states and 100,000,000 people, every state and every man loyally supporting the president of the United States, determined to follow where he leads, having faith in his wisdom, patriotism and statesmanship.

WOODROW WILSON

President of the United States

"HE HAS KEPT US OUT OF WAR"

This is the face of a man strong, courageous, patient and kindly, a man—
Always alert to the aspirations of his fellow-man and sympathetic toward their fulfillment;
Never complacent toward the encroachments of privilege nor tolerant of social wrong;
Always seeking to enhance the dignity of labor and better the state of the toiler;
Never lending an ear to the sophistry of exploitation or the blandishments of expediency;
Always patient to hear and weigh, to appraise and analyze, and passionate to find the way of right;
Never premature in purpose nor prejudiced in judgment, and never headlong in decision—
Such is WOODROW WILSON.

HIGH SCHOOL NOTES

Monday was report day and we were sorry to see so many sad faces in Assembly.
Our first open program last Friday proved to be a great success. We were pleased to see that so many people take an interest in our work and hope that the next time we will have even more visitors.
The Sophomores and Freshmen had a Halloween party last Saturday evening and it is reported they all had a fine time. It is the general belief that Truba would make a good looking girl. Oliva Edelbrock and Clyde Hausken were visitors at the H. S. Monday morning.
As yet not all the Freshmen have taken to wearing green ribbons.
Hubert Wolfe gave a Halloween party for a number of the H. S. students. For particulars see Rushby, the chief entertainer.
Tuesday afternoon the school was given the pleasure of a little Victrola concert which was not mentioned in the schedule of afternoon events. We fear the ingenuity of some of the H. S. boys was somewhat displaced.
Monday during music period the entire school sang some of the old songs, "My Old Kentucky Home," etc. The result was at least unusual, if not musical.

SCIENCE SCHOOL NOTES

Next game Monday, November 6th at the Science School field with Concordia College.
Science lost to Jamestown by the close score of 7 to 0. The game was a hard fought one and from a theoretical point of view, it was a victory for Science. The odds were against us for a much greater score but we held them to one touchdown.
Mr. Clarence Guinness of the class of '15 visited the school Tuesday. Clarence has just recovered from a long seige of illness and an operation for appendicitis. We are glad to see him around.

Special music was given by the girls' quartet. At the close of the meeting five dollars were pledged by the society for the foreign missions. Most all of the charity work will be restricted to the local cases. There is a great deal of interest being shown in the work and a very successful year is anticipated.

The Literary Society held its second meeting last night. The students attended in a body and many town people were present. Are you missing these meetings? If so you are missing a real treat. There is no admission charged.

The Halloween party given at Burch Hall was well attended and proved to be a very pretty affair. The ghosts were numerous, gruesome, shy and very funny.

WHAT ELSE CAN ONE DO?

Sir: Senator Walsh writes that "year after year this same United States senator had given its seal of approval to men whom every member of that body knew was no more nor less than the plain tool of some special interest." After reading this sentence by Wilson's western manager, in which the word "whom" is misused, a singular verb used instead of a plural and a double negative employed I decided that I would vote for Hughes. Do you blame me?—Minneapolis Journal.

INDIAN SCHOOL NOTES

The work of connecting the school hospital with the central heating plant is about completed. This arrangement will be more convenient with respect to the handling of the engineer's detail.
Mr. Jensen, our carpenter, Mr. Ballou, farmer and Mr. Vautassel, engineer have given very interesting talks to the pupils at the Wednesday evening assemblies.

Recently at the Sunday evening assemblies Professor Todd of the State School of Science and Rev. Duden occupied places on the program.

Next Sunday evening Judge Van Arman and the week following Prof. Jones will talk to the pupils. Classes in Home Training for girls now meet with our matron, Mrs. Gelfz and our nurse, Miss Bynne has classes in Nursing. These courses are very valuable for the girls.

The carpentry detail has the frame work completed for the Agriculture Class Room building and this project in connection with the addition to the carpenter shop and other repair jobs are keeping the boys pretty busy.

It only been during the last few days that the school farm has been dry enough so that the tractor can be used in plowing. A few more days of splendid weather will furnish an opportunity for completing most of the fall plowing.

Plans are being made so that the pupils will have an unusually enjoyable occasion Halloween evening. The pupils are entering into the plans with spirit and an enjoyable time is anticipated.

The practice game of basket ball between the Indian School boys and the High School boys proved to be a very enjoyable evening last week. It is planned to arrange for a number of such games during the coming winter.

The various forms of instruction both academic and industrial are going along in an unusual satisfactory manner this fall. While all of the pupils have not yet returned to school the various courses are being pursued with unusual interest and profit to the pupils.

The plans and specifications for new \$20,000 school building which is to be constructed on 8th street have been delayed. It is anticipated however that these will be ready for the bidders in a short time and that the work can be begun in the early spring.
