

ETERNAL SUBJECT OF TAXATION AMONG EARLY BILLS IN ASSEMBLY; DAY'S REVIEW BY WARREN MOSES

REPEAL OF PRIMARY WILL BE PROPOSED IN LEGISLATURE

Substitution of Preferential Voting is Aim; Freedom of Ireland to Be Urged as Peace Issue.

Helena, Jan. 9.—In addition to bills tending to revolutionize the method of assessing property for taxation and the levying of taxes thereon, measures will shortly be introduced in the house of representatives for the repeal of the existing primary election law and providing for the preferential method of voting, a bill amending the present voting law, bills changing the salaries of judges of the district courts and of police magistrates and a resolution which would call upon congress to urge the peace delegates to support the principle of self-government for Ireland.

The latter subject was given notice today by Representative M. J. Sullivan, of Jefferson county, who announced that he would shortly introduce a bill for a joint resolution to memorialize the president of the United States, the United States senate and house of representatives, that they severally urge upon the American delegates to the peace conference to support the principle of self-determination and self government for Ireland and the Irish people.

Notice of Tax Code.

Rasmussen, of Dawson, gave notice of four bills, all relating to taxation, one to create a permanent tax commission and defining its duties; one providing for the classification of taxable property for the purpose of taxation and providing the percentage of the true and full value of each class which shall be taken and used as the basis for the imposition of the tax; one for the submission to the qualified electors of the state on an amendment to the constitution creating a county board of equalization and a state tax commission and defining their powers and duties; and the fourth for an act prescribing the powers and duties of the state board of equalization and repealing sections 2584 to 2592, inclusive, of the revised codes of 1907.

Maximum Interest.

Scharnikow, of Powell, gave notice of a bill which would require that all municipal elections after January, 1920, be conducted under the preferential method of voting, that nomination for candidates for such elections shall be by petition, and repealing all primary laws of the state insofar as they apply to such elections.

Notice of intention to introduce a bill providing for a maximum rate of interest on loans, together with a penalty for violations thereof, was given by Sektman, of Valley.

Meyer, of Silver Bow, will introduce the bills which will provide for changes in the salaries of district court and police court judges.

The Germans also occupied Weissenhof in the Kolmar district, after a stiff fight.

HOUSE TAKES STEPS TO FATTEN PURSES BY MILEAGE BILL

Incidental Expense Measure Was Third But Got Numbered 5; More Committees Named.

Helena, Jan. 9.—Altho the members of the Sixteenth legislative assembly are not being subjected to any particularly heavy financial drains outside of necessary living expenses under the present order of affairs, and those who had saloons and cabarets been permitted to continue, might have scattered their shekels about with more or less prodigality, are now able to dispose of such portions only of their resources as are demanded by the cafes and cigar counters, the assembly is losing no time in putting through appropriation measures by means of which the members will be able to draw their mileage allowances and per diem.

As customary, the first bills introduced into the house have been the usual appropriation measures to provide funds for the carrying on of the business of the legislature.

The three bills, which were the first to be sent to the desk of the clerk and which should, by right, have been numbered 1, 2 and 3, respectively, came up early in today's session, but by some mishap the incidental bill received the number, 5.

House bill No. 1 provides for an appropriation of \$30,000 or as much thereof as may be necessary, for the payment of mileage and per diem of the members of the assembly.

More Names for Pay Roll.

House bill No. 2 carries an appropriation of \$5,000 for the payment of per diem of officers and attaches, while House bill No. 5 appropriates \$15,000 for the payment of incidental expenses of the assembly. Permitting to introduce these bills had been given upon request of Higgins to introduce them without previous notice.

Blomquist; Telephone attendant, Marian Peters; stenographers and clerks, Mamie Weisner, Clara Maxwell, Miss Hodges, Miss Hunsberger, Rowena Blackwood, Grace Briel; speakers page, Buchanan Foley.

\$25,000,000 FUND FOR MONTANA ROADS IN \$15,000,000 BILL

Senator Morris Proposes Letter Amount to Add to Possible Federal Appropriation.

Helena, Jan. 9.—Foresadowing the importance that taxation matters will have in the affairs of the assembly, Senator Edwards of Rosebud moved the president of the senate appoint a committee of five members to meet in joint session with a like committee from the house to study taxation matters, as set forth in the report of the state tax commission, and then to embody the recommendations the joint committee sees fit to make in appropriate bills. The motion was adopted.

Senator Morris of Hill county gave notice of a bill to permit the state to issue \$15,000,000 in bonds in excess of the constitutional limit of indebtedness, the money to be used for good roads and highways.

The federal congress now has under consideration a bill to appropriate one billion dollars for highway construction thru the United States.

Montana's share of such an appropriation, if made, would be \$10,000,000.

CORPORATION TAX OF 12 AND 10 P. C. SET BY CONFEREES

Only Individuals With Net Income of \$1000 or More Required to File Returns.

Washington, Jan. 9.—Corporations will pay income taxes of 12 per cent on their 1919 earnings, and 10, instead of 8 per cent thereafter, under agreements reached, today, by senate and house conferees on the war revenue bill.

It is estimated that under the new rates the corporation tax will yield about \$750,000,000 this year, and \$800,000,000 annually thereafter, as against about \$804,000,000 estimated from the original house rates.

They also approved the senate provisions exempting so-called service corporations from the corporation tax rates, but added an amendment to deny such exceptions to those corporations where 50 per cent or more of income is derived from profits or commissions on government contracts.

The senate plan of providing for payment of income taxes in four installments, also was approved.

The conferees adopted the house provision requiring individuals with net income of \$1,000 or more to file returns.

SEEK TO ARREST ATTORNEY OF W. W. ON GUN PLY CHARGE

A. J. Brantingham Accused—George F. Vanderveer of Anarchistic Talk.

Special to The Daily Tribune. Butte, Jan. 9.—For carrying a deadly weapon with intent to commit assault on A. J. Brantingham, superintendent of the United States employment office in Butte, County Attorney J. R. Jackson has caused to be issued a warrant of arrest for George F. Vanderveer of Spokane who was leading counsel for the defense in the W. W. case in Chicago early in the summer.

Vanderveer left Butte today for Helena, but authorities there have been asked to apprehend him that he may be returned here to answer the charge. Vanderveer's alleged attempt to assault Brantingham occurred at the Finlen hotel in Butte Dec. 14. Some time during the month of September Vanderveer visited the federal employment office in Butte, when, it is said, he took it upon himself to instruct the management how to conduct the office. Among other things, he is alleged to have said Tom Barker, representative of the government labor department, was in the employ of the Anaconda Copper Mining company, and that his actions showed it was his duty to conduct the office.

"We are out for \$6 a day and eight hours, collar to collar, and the abolition of the damned rustling card. I know we are not going to get it, but I am going to advise the men to go back to work when the time comes. We have enough powder stored away to blow all the — mines to hell, and I am going to recommend to the men that they use it."

When Vanderveer learned Brantingham reported the matter to Washington, the attorney called at the Finlen hotel with a gun strapped to him it is said. He asked for Brantingham, according to the account, saying, "I am going to get him and he knows what that means with us westerners."

He then called Brantingham over the house phone but Brantingham did not make his appearance. Not only did Vanderveer display the fire arm while in the hotel, it is said, but he also displayed a license giving him a permit to carry a gun for 30 days.

SAYS COLD WEATHER BRINGS RETURN OF INFLUENZA

"Encouraging reports of the fewer cases of influenza in this vicinity should not allow us to relax our vigilance or to become careless in the belief that the danger is all over," says a well-known authority. With the coming of cold weather there is apt to be a return of this frightful epidemic and its seriousness will depend on the extent of the precautions taken by the public to prevent infection.

When the air is full of influenza germs, you may be constantly breathing them into your nose and throat. But their danger may be avoided, and you may make yourself practically immune to infection if you destroy the germ before it actually begins work in your blood.

During the recent serious epidemic, which hit Great Falls so hard, most successful results were obtained by many through the simple breathing into the nose, throat and lungs of the medicated air of all Hyomei. Probably no better, safer or more sensible precaution against influenza, grippe, coughs, colds, bronchitis or catarrh of the nose and throat could be employed than to go now to the nearest drug store and get a complete Hyomei outfit, consisting of a bottle of the pure oil of Hyomei and a little vespocket hard rubber inhaling device, into which a few drops of the oil are poured.

Carry this inhaler with you during the day and each half hour or so put it in your mouth and draw deep breaths of its pure healing germicidal air into the passages of your nose, throat and lungs to destroy any germs that may have found lodgement there. This simple precaution carries off any serious illness and the loss of several weeks' work. It is pleasant to use and not at all expensive, as the inhaler will last a long time and further supplies of the oil of Hyomei can be had at any drug store for a few cents.

Hundreds of people in this vicinity used Hyomei in this way during the recent crisis and avoided danger. They should not neglect it now, for the danger is by no means over. Model Pharmacy—Aq.
