Don't Spoil a Good Meal With a Bad Stomach

How to Turn a Bad Stomach Into a Good One in Five Minutes

Why do people go on suffering from indigestion and tummy-turvy stomach when they know that Mi-o-na stomach tablets are sold on the money back plan? If a physician, a specialist in stomach diseases, came to you and said: "I will fix up that miserable, worn out stomach for you or money back."
"I will make it as good as new so you will not suffer from any distress and can eat what you want without fear or suffering, or money back," would you turn down his offer?
And when you are offered Mi-o-na stomach tablets, made from a prescription better than many of the stomach specialists know how to write, are you going to be narrow-minded and continue to suffer from indigestion, or are you going to be fair to yourself and try Mi-o-na on the money back agreement? Mi-o-na stomach tablets are offered to you on this basis, that if they do not put your stomach into such good shape that there is no dizziness, sour stomach, biliousness, sick headache and stomach distress, your money will be returned. For sale by Model Pharmacy and all leading druggists.—Adv.

GERMANS RELEASE.
ANACONDA SOLDIER
Washington, Jan. 9.—The war department announced today that William F. Lacin, Anaconda, Mont., released from a German prison camp, had returned to France.

nishes the economic authority and is familiar with both French and American economic conditions.

French and British in Line on Protocol.
A French protocol, proposing the exact procedure of the congress, was submitted to the American delegations at about the same time that the French delegates were named. It is now being studied and it is noted by the American delegates that a number of British suggestions have taken form in the French program.

The protocol deals with the organization of the congress, the representation of the great and small powers and the general order of procedure. It will not become effective until passed upon by President Wilson and the premiers of France, Great Britain and Italy, who constitute a sort of executive council which, later, will grow into a supreme council of the great powers when the full delegations are appointed.

Now Shows Driving Power.
The conference, today, showed a growing driving power. In addition to the conferences that President Wilson had with Premier Orlando and Foreign Minister Sonnino and others, Premier Clemenceau spent some time at American headquarters and was followed there later by Premier Venizelos of Greece.

Premier Venizelos has presented a written memorandum of Greek aspirations and is supplementing it with vigorous personal representation.

At the same time, Secretary Lansing, Colonel House and Lord Robert Cecil continued their conferences on the subject of a league of nations. The conferences are said to be rapidly giving precise form to the project.

While the delay in the arrival in Paris of Premier Lloyd George may postpone the gathering of President Wilson and the entente premiers and the opening session of the inter-allied conference, the conferences going on and the appointment of a delegation by one of the great powers are giving the congress the aspect of an active organization.

HEAVY LOSSES

(Continued from Page One)

The Tagliche Runschau Wednesday said: "The Spartacus movement has increased the terror of Karl Liebknecht and Rosa Luxemburg."
All business and industry is at a standstill and the inhabitants wander curiously through the streets.

Heavy Artillery Fire.
In Brunswick the Red Guards and the independent socialists adopted a resolution in favor of a Spartacus uprising and seized the newspapers. It is reported that Spartacus have taken over the government at Mulheim and Oberhausen, near Essen.

Believing that they were winning, the Spartacus Monday set up a new government under the title of "The Revolutionary Committee," comprising three members, Herr Liebmann, Georg Ledebor and Herr Tieck, president of the Spartacus league. They also proclaimed a general strike for January 19.

RAILROADS ASK FOR REGULATION FROM CABINET

Present Plan of Control By Secretary of Transportation.

PRESIDENT'S NEW AID WOULD PASS ON RATES

Washington, Jan. 9.—Three well-defined proposals for legislation dealing with railroads are now before congress. Railroad executives today presented to the senate interstate commerce committee the plan, calling for private ownership and operation, under regulation of a secretary of transportation—a new cabinet officer—with statutory guarantee of adequate earnings, rates to be proposed by the roads and subject to review by the secretary of transportation and interstate commerce commission, and with the cabinet officer authorized to supervise pooling of equipment, common use of terminals, re-routing of traffic, mergers, construction of new lines and issuance of securities.

Shippers and representatives of state railroad commissions are the two principal groups which have not yet presented their views to the senate committee.

Among the objections expressed by senators today to the railroads' plan, outlined by T. Dewitt Cuyler, chairman of the association of railway executives, was that if government supervision were vested principally in a secretary of transportation, politics might play a large part in railway policies.

Objection on Rate Making.
Another objection was that if the railroads are guaranteed by law an adequate return, they should not also have the power to determine rates, even though these rates were subject to veto by the secretary of transportation and the interstate commerce commission.

The railroads' attitude, as explained by Mr. Cuyler, who is a director of the Pennsylvania railroad, is that the regulatory powers given the secretary of transportation and the interstate commerce commission would be sufficient to protect the public against unjust rates or inadequate service and that railroad men, by long experience, are best qualified to propose rates originally.

Mr. Cuyler argued that the advantage of having one man as the principal governmental supervising agency is that he would act more quickly than a commission in approving or disapproving rates proposed by railroads and would expedite general matters of railroad administration.

Members of the interstate commerce commission will testify tomorrow.

BAVARIA ON POINT OF WAR WITH BERLIN WHEN REVOLT ENDED

Berlin, Jan. 9.—(By The Associated Press).—War on Berlin to restore order was threatened by Bavaria, according to a speech made today in the Bavarian chamber of deputies in Munich by Herr Auer, the minister of the interior. Bavaria, he said, proposed to intervene with arms if conditions in Berlin continue unsettled.

"It is time that the men in Berlin understand that Berlin is not Germany," Minister Auer said, "and there is a limit to the patience of even the most tolerant people. Up to now I have opposed the application of armed force, but unless Berlin comes to its senses and order is soon restored, we propose to intervene with arms."

"There has never been a political party which reached such a low level as the bolshevik Spartacus. I deplore the fact that the independent socialists are not doing their share to prevent this national calamity."

Brazil's forests are estimated to cover 1,500,000 square miles, or about 48 per cent of the country's area.

KIDNEY TROUBLE NOT EASILY RECOGNIZED

Applicants for Insurance Often Rejected.
An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

FRANCE ASKS THAT SECRET TREATIES, APPORTIONING TURKEY, BE CARRIED OUT

The Turkish empire, of which only Anatolia will remain if secret treaties are carried out.

France will ask the peace conference to approve, insofar as her rights are concerned, the secret treaties entered into between France, Russia and Britain in 1915, by the terms of which Turkey was apportioned among the three powers. These treaties provide:
(1) Armenia to be placed under international protection.
(2) France to get Syria, Lebanon and a strip of Armenia.
(3) Great Britain to get Mesopotamia.
(4) Russia to get Constantinople.
(5) Arabia and El Hejaz to be independent states.

one was from General Pershing addressed to Mrs. Roosevelt. It read:
"In the untimely death of Colonel Roosevelt, the whole nation will deeply mourn the loss of her great citizen and soldier and the world one of the most striking characters of our day. I feel most deeply the loss of a personal friend. I send you my most sincere and most heartfelt sympathy in this your saddest hour of bereavement."

Members of the interstate commerce commission will testify tomorrow.

by a referendum, may freely choose their own form of government. It says that the Sinn Fein organization shall, in the name of the sovereign Irish people, deny the right to and oppose the will of the British parliament and the British crown or any foreign government, to legislate for Ireland.

It also says that the organization will "make use of any and every means available to render impotent the power of England to hold Ireland in subjection, by military force or otherwise."

Orders Constituent Assembly.
The purported constitution declares that a constituent assembly shall be convoked to formulate measures for the welfare of the people. The measures specified are the introduction of a protective system for industries and commerce by the combined action of the country and urban councils, the poor law board, the harbor boards and other bodies directly responsible to the Irish people; the establishment of a consular service and of a mercantile marine for direct trading with foreign countries; the development of mineral resources; the establishment of a national stock exchange, a national civil service and Sinn Fein courts of arbitration; the development of transit facilities, of waste lands and sea fisheries; the reform of education on a national and industrial basis; the abolition of the poor law system, with relief for the infirm and aged, and the employment of idle able-bodied persons on public works.

FIRST PEACE TASK

last because none of the agreements can bind the central powers unless, in the meantime they have established governments which satisfy the peace congress. At this point arises the question of how long the peace congress will wait for the central powers to arrange their governments. It is pointed out by some that neither Germany nor Austria can complete its governmental machinery until it is determined what the two participants desire. It is not expected that the congress will wait indefinitely for the central empires to prepare themselves for an agreement.

Might Have to Stay In.
There is always the possibility that if no responsible governments appear, the nations represented at the congress could give notice that it would become necessary, at certain points, to assist in the formation of orderly governments, and at the same time begin to collect

revenues to apply on the bill of damages. Such action would be only as a last resort, but if taken the question would arise as to how far the United States would participate. Some of those best informed as to the lines along which Mr. Wilson and the peace commissioners are working believe that it is the purpose of the United States to go no further into the readjustment of European affairs than to secure general adherence to the principles already laid down by President Wilson, and then expect, of course, the details to square with the principles. The execution of these details, some diplomats believe, may extend into a work of years.

"The one greatest comfort we had in the training camps was the AMERICAN Radiator. . . . After the hard day's work in the rough weather it certainly builds up a man, bodily and mentally, to be under the spell and charm of these comfort-machines—that's what your Radiators are. . . ."

Are you preparing a "cozy camp" for your hero son, where his comrades will often gather to tell their stories, or will his waiting bedroom be the old, chilly place where for very cold he needs must burrow under blankets?

AMERICAN & IDEAL RADIATORS & BOILERS

These outfits warm the house and make a home! Put in quickly. Phone your local dealer today.

IDEAL Boilers and AMERICAN Radiators are built scientifically to extract and distribute the greatest possible volume of heat from each ounce of coal. Two-thirds of the heating surface of an IDEAL Boiler is directly around the fire—absorbing the utmost heat from the fuel. Heat is circulated three times as rapidly as in old-fashioned heaters—which is one of the strong reasons why IDEAL Boilers burn one-third less fuel than other devices, and permit cheapest fuel to be used.

Burn one-third less cheap fuel than other devices
Easy to put coal in the roomy door—a whole day's supply put in the IDEAL fire-pot in a minute's time. Easy to shake because you stand erect—gently shake only a few grate bars at a time. The same water is used for years. An IDEAL Regulator controls draft and check dampers automatically to suit weather.

The price is the closest possible between manufacturer and user. Price is no higher than asked for ordinary makes. *Accept no substitute!* On each IDEAL Boiler and AMERICAN Radiator our name is cast—your guarantee.

Send today for "Ideal Heating" (free), giving much valuable information on fuel economies—for homes, churches, stores, schools, and other buildings. Act now, and your re-united family will know no sting of winter.

IDEAL Boilers will supply ample heat on one charging of coal for 8 to 24 hours, depending on severity of weather. Every ounce of fuel is made to yield utmost results.
