 Kalispell, Jan. 23.—Albert Sevingseth, who has been working at the Patrick Creek mill of the Somers Lumber company, has been arrested on an insanity charge. It is believed that his mind was unbalanced by the news of the death of his two sisters at Swift, Minn. His parents at that place have been notified.

## SWISS DEMAND FREE ACCESS TO SEAS OF PEACE

**President Ador in Paris With Views to Lay Before Conference.**

Paris, Jan. 23.—Switzerland's peace demands have been stated by President Ador, who came here from Berne, today, and met President Wilson, and Poincare and the allied premiers. Switzerland wants, among other things, free access to the sea. Its chief peace conference interest will lie in the development of international waterways. Its statement is as follows:  
 "1.—Switzerland expects to be admitted with other states to the peace negotiations as far as they will deal with her own special interests or with problems of general importance."  
 "2.—Neutral states not having been called upon to make any sacrifices as belligerents have, nevertheless, suffered severely in consequence of the war. All have been able, especially in the case of Switzerland, to render considerable service to humanity."  
 "3.—Switzerland highly approves of the creation of a league of nations for preserving peace and expects from it a complete reform of international relations. The maintenance of peace must be based upon a general interdiction to parties in conflict, not to resort to arms. International conflicts must be solved either by arbitration tribunals formed by the free consent of the parties, or else by a permanent international court, offering every guarantee of political independence. All other international disputes must be submitted to a procedure of mediation through which lasting settlements on the basis of equity and justice can be arrived at."  
 "4.—Switzerland recognizes the necessity for action which may ultimately consist of military pressure within the system of the league of nations. Nevertheless, Switzerland is determined not to abandon her neutrality, which is laid down in the Swiss constitution and based on the tradition of 400 years of peaceful politics."  
 "5.—In case armed conflict should, after all, occur under the reign of the league of nations, the existence of the several permanently neutral and inviolable states would be a great benefit also for the league itself. The institution of the Red Cross must be based on the existence of such neutral territories."  
 "6.—Freedom of production and commerce is of vital importance for Switzerland."  
 "7.—As far as limitations will be imposed concerning importation, exportation and free passage of goods and raw materials, all states should mutually accord each other most favored nation treatment."  
 "8.—Switzerland highly approves of the principle of free access to the sea. Switzerland attributes great importance to the maintenance and improvement of the existing international waterway of the Rhine from Basel to the North sea. Switzerland fully expects that it may soon be possible to come to an understanding with France and Italy for opening the Rhone and Po rivers to navigation on a big scale, and obtain recognition of similar principles regarding these rivers as are in vogue for already internationalized waterways. It also is of vital interest to Switzerland to obtain the right of passage over railroads to the sea and through European states eastward."  
 "9.—The political, legal and economic principles formulated by President Wilson are so entirely in conformity with the traditional wants of Switzerland that she will adhere to them, whatever difficulties may be in the way of their realization."

**Four Cents Used to Satisfy.**  
 Mr. Swift said there were 25,000 stockholders in Swift & Co., and that his family did not own a majority of the stock. The witness said his salary was \$50,000 a year, and that his four brothers, all practical meat packers, draw from \$25,000 to \$35,000 each.

Other packers in the joint ownership of general facilities, where other facilities did not exist or were imperfect, and that the co-operation in no way extended to the control of prices or shipments.

## Horticulturists Hear Address by Sisson

Missoula, Jan. 23.—President Edward O. Sisson of Montana State university was one of the principal speakers at the third day's session of the Montana Horticultural society convention being held at Nelson. His subject was "Educational Objectives."  
 Tomorrow the convention ends. Officers for the coming year will be elected and the place for the next meeting selected.  
 Farmers of the Flathead reservation have shown great interest in the meetings.

## PACKER PLEADS

(Continued from Page One)

Swift as class legislation and certain to be harmful to the general public by crippling the industry.  
 "Government supervision," thru full access to the packers' books, was advocated by him as a "less dangerous" method of procedure. The primary desire of Swift & Co. was declared to be efficiency of operating stockyards and readiness was expressed to sell the firm's interests in various yards, if present standards of operation could be maintained.

**Lose on Refrigerator Cars.**  
 Regarding the federal trade commission's allegation that packer ownership of refrigerator cars prevents the small packers from competing with the big firms, the government or railroads should build 500 cars and let the small packers use them.

He said refrigerator cars were a losing investment to his firm, which maintained them only to assure efficient service. The same suggestion was made regarding branch houses.

Charges of collusion by the federal trade commission were denied by Mr. Swift. He said that there were cases in which his firm had co-operated with other packers in the joint ownership of general facilities, where other facilities did not exist or were imperfect, and that the co-operation in no way extended to the control of prices or shipments.

**Four Cents Used to Satisfy.**  
 Mr. Swift said there were 25,000 stockholders in Swift & Co., and that his family did not own a majority of the stock. The witness said his salary was \$50,000 a year, and that his four brothers, all practical meat packers, draw from \$25,000 to \$35,000 each.

Other packers in the joint ownership of general facilities, where other facilities did not exist or were imperfect, and that the co-operation in no way extended to the control of prices or shipments.

Mr. Swift testified that if the packers had been permitted to answer at the Henry hearings they could have convinced any fair-minded person that there is real competition in the business and that no irregular arrangement exists.  
 "I remember," he continued, "when we paid four cents a pound for good live cattle and the producer was satisfied. Now we pay 14 to 18 cents and nobody is satisfied."

## TETON BOYS AS THE OPPONENTS

**High School Basketball Team Will Have Contest in Gym Tonight.**

The stage is set for a big game at the high school "gym" tonight at 8, when the local team will meet the Teton county quintet, from Choteau. Eight players with Principal Dietrich are due to arrive in the city this morning and will leave tomorrow for Lewistown where they have a game scheduled for Saturday night.

Both the Great Falls team and their opponents have been practicing hard for tonight's game. The visitors have the reputation of being good, fast players, with three members of last season's team still on their lineup. About 250 tickets have been sold among the members of the Athletic Association and a house full of Great Falls fans is assured. Victor B. Sheldon, Cascade county agent has been secured as referee. Having been coach at Miles City high he is thoroughly familiar with basket ball and made an entirely satisfactory official at the Great Falls-Cascade game a few weeks ago.

Couch M. L. Crouch stated last night that the schedule for the remainder of the season is now complete. The local boys have started out with a splendid record and are working and fighting hard to keep up their excellent standard the remainder of the season. The best teams in the state are on the Great Falls schedule and a number of hard fights are sure to be fought before the state tournament at Bozeman.

The games listed for the remainder of the winter are as follows: Friday, January 21, Great Falls vs. Havre, at Great Falls; Saturday, February 1, Great Falls vs. Belt, at Belt; Friday, February 7, Great Falls vs. Lewistown, at Great Falls; Saturday, February 15, Great Falls vs. Butte at Great Falls. No outside games have been scheduled for February 21 and 22, but it is possible that the interclass tournament will be played here at that time. On Friday 28 and Saturday, March 1, the tournament at Helena is booked. Teams from Bozeman, Butte, Missoula and Great Falls will play with the Helena team.

Provided the local quintet continues its splendid record it will participate in the state tournament, held in Bozeman March 12 to 15, which ends the 1919 season.

## Experiment at Sowing Wheat in Winter Time on Farm Near Harlem

Special to The Daily Tribune.  
 Harlem, Jan. 23.—L. C. Moon, living a few miles south of the river, is taking advantage of the fine weather to do work that he did not have time to do last fall. Last week he put in most of his time discing and harrowing and Monday he started plowing. He is plowing a 14-inch stubble gang with five horses and is not troubled in the least with frost. He is plowing eight inches deep.
