THE IRON WOMAN OF JAPAN.

Word has been received of the death of Mme. Asa Hirooka, known as the Iron Woman of Japan. One of the first Japanese women to hold a position in big business, Mme. Hirooka was for a number of years a successful banking expert, and head of a large banking concern in Osaka. At the summer of 1916 Mme. Hirooka attended a summer conference of the Young Women's Christian association in Kugenuma. She was not a Christian, but had heard of the new religion and wanted to find out about it.

Attending the conference was not enough. She returned to her summer home at Karuzawa, taking with her a trained Bible teacher, and spent the remainder of the summer studying the Bible and asking questions. At the end of the summer she accepted Christianity. As an adviser to the association, Mme. Hirooka has been invaluable in making suggestions from the Japanese point of view. In 1918 she was president of the board of the Y. W. C. A. at Osaka.

INCREASE IN CHILD LABOR SINCE THE WAR.

An increase in child labor during the war is reported from every one of 20 cities visited by agents of the children's bureau, United States department of labor, in connection with the Back-to-School Drive of children's year.

In a large industrial city in Missouri there was an increase of 143 per cent in the number of employment certificates issued to girls in 1916-17 over the number issued in 1915-16. According to the reports of the certificate office the greatest increase has come from the grammar school graduates, an unusually large number of whom are going to work instead of to high school. In 1917-18 the same city reported the number of girls leaving school for work was smaller than in the previous year and this decrease was attributed in part to the opening of a new trade school for girls and women.

In one New Jersey city, altho the population has increased, the average

CATARRAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get one ounce of Parment (double strength), and add to it 1/2 pint of hot water and a table spoonful of sugar. Take 1 table spoonful four times a day. This will often bring quick relief from the distressing head noises. Congest nasal passages, and breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.

BEAUTY SPECIALIST TELLS SECRET

A Beauty Specialist Gives Simple Home Made Recipe to Darken Gray Hair.

Mrs. M. D. Gillespie, a well known beauty specialist of Kansas City, recently gave out the following statement regarding gray hair:

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Barbo Compound and 1/2 ounce of glycerine. These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray haired person look twenty years younger. This is not a dye, it does not color the most delicate scalp, is not sticky or greasy and does not rub off."

GIRL DESIGNS A VICTORY EMBLEM

Miss Michael and her victory emblem.

New York.—Inspired by the beautiful lines of Colonel McRae's poem, "In Flanders Fields," Miss Michael, who is a war worker in service in the Y. M. C. A. overseas conference headquarters, located at Columbia University, has designed an emblem containing the Flanders poppy with the Torch of Liberty, which she offers for adoption as a national victory memorial to be displayed throughout the country as America's continuing pledge that we shall keep faith with those who sleep in Flanders fields.

Special to The Daily Tribune. Havre, March 18.—Mrs. Alice Pleasant and daughter and Marie grandson left Havre yesterday for Soap Lake, Wash., where Mrs. Pleasant will take treatment at the springs as she has been in poor health nearly all winter. "Ma Plaz," as she is familiarly known in Havre, is the pioneer colored woman of the city, having come to this locality "long before" the railroad, and she has been a resident of Havre ever since. This is the first time in all these years she has ever left the city limits. She established the Home cafe in the early days and has conducted it since. Many good chicken and possum banquets have been held at her cafe. Her many friends have at last prevailed upon her to take a much needed rest.

IT IS SOME MUDDY OVER IN FRANCE

It's been a little slushy and a trifle muddy round about Great Falls for the past few days, but according to the little yarn in a recent issue of "The Stars and Stripes" the particular variety of mud that some of the boys with the Expeditionary forces are enjoying is a rare and new variety, and way beyond anything ever experienced in this part of the world.

The account follows: Speaking of mud, if you ever saw this camp you would grow web feet and most likely squawk like a mud hen and try to dive thru the floor when you attempted to speak. Mud! You don't know what mud is.

There is real mud here. There is so much that the buildings float around from one place to another. Last night the colonel's headquarters floated round so much it changed places with the Q. M. supply house and this morning the Q. M. issued out all the colonel's clothes before he finally made the discovery. The colonel came down to his office in his row boat about 9 a. m. and ate a lot of moth balls that were sitting on the Q. M.'s desk, mistaking them for a box of candy he had placed on his desk the night before. A hurry up call was sent in for the doctor and the orderly rowed to 22 different buildings before he finally located the infirmary, which had floated round back of camp. The doctor had had a terrible time finding the infirmary and when he treated the colonel with what he thought was C. C. pills he discovered that it was horse medicine.

There is so much mud here that our row tops out to a telephone pole in front of our barracks and stands on the top of the pole while he calls the roll. As fast as he calls the names we go to the door and answer present. When this formality is concluded the top turns round to the pole, salutes the captain, who sits on a raft 30 yards away, and reports all present or accounted for. The captain returns the salute and then goes paddling off hunting for his billet, which always changes its location every time he leaves it.

As to drill, we do that, too, only we do it in boats. We were having a squall drill yesterday with two rows of four boats each when the major dropped his paddle and ran slam into the top's boat. The major sure did bowl the top out. Last night our mess sergeant rowed out to the gate so he could go up town after some eggs for blue mud pies. When he came back to the gate his boat was gone. He shouted to us, but we didn't hear him, so he ate the eggs and swam back toward the mess shack.

If you care to send a reporter down, wire ahead of time and we will arrange to meet him with a launch at the main gate. HENRY V. PORTER, Private 1st Cl. Boue, France.

CAPTURED BY CANNIBALS COMING

Manager Johnson wishes to announce the coming to the Alcazar theater of the final installment of the Martin Johnson's Cannibals pictures. This is the continuation or the final picture which followed Cannibals of the south seas.

Several new tribes of cannibals are introduced and you are taken for a long journey far inland, and the final windup pictures the capture by these wild man-eating savages of the Martin Johnson tourists who are only saved thru the arrival of an English boat. Everyone seeing the first edition will want to see the final picture for it just gets interesting at the close. First showing starts Friday, March 21.—Adv.

DON'T HAVE GRAY HAIR

It's Easy to look Young and Fascinating by Use of "La Creole"

"La Creole has made me look 15 years younger."

No woman should be handicapped socially by gray or faded hair. Every woman owes it to herself to look her best and avoid the appearance of coming age. Gray, streaked with gray, or faded hair makes many a woman look old before her time, and gray hair is so very unnecessary.

"La Creole Hair Dressing" is the most popular hair color Restorer in use among society Men and Women of America today. It is a safe, delightful toilet preparation which uniformly restores gray, streaked with gray, or faded hair to its youthful beauty and lustre.

"La Creole Hair Dressing" will not stain the scalp, wash or rub off, or leave the hair with that greasy or dyed appearance. You apply it yourself by simply combing or brushing it through the hair before retiring, and the results will delight you surprisingly. "La Creole" is sold by Cascade Drug Store and Model Drug Store and all good drug stores and toilet counters everywhere. Price \$1.00

And he doesn't take your word for it, either. He knows you don't—can't—know their true condition. He has an X-Ray picture made of them—and nine times out of ten he finds the seat of your trouble right there—at the roots of your teeth.

Yes, "Facts are facts," and it is a fact that many of the human ills are caused from the teeth. You are satisfied he's right, but—

Dollars Are Dollars

and to you it is a problem where you can get the best results for your dollars. Can it be at the little office where one man tries to perform all branches of dentistry—where the equipment is incomplete—where the work is conducted without the positive direction of the X-Ray—where fees are high to make up for the loss the lack of equipment necessitates? No, it isn't there you'll receive the most for your dollars. It's at the office that employs specialists for each branch of dentistry—where the equipment allows of conducting the work along the best of scientific lines—at the office where the fees are in keeping with the time and material to do your work.
