## SIT RIGHT. GROW RIGHT.

Hygienic seating in schools and industrial plants, improved designs for "common sense" clothing and shoes which encourage freedom in movement, and daily calisthenics have done much during the last year to improve the posture of the human body, according to reports of the American Posture League at the Hotel Commodore. The purpose of the league is to quote from its charter, "to do scientific and educational work in the standardization and improvement of conditions affecting the postures of the human body in industrial, school and everyday life."—New York Cor. Pittsburg Dispatch.

## FOUR THRIFTY GIRLS.

A good thrift story comes from Saskatchewan about four girls who demonstrated that the farmers of the great Canadian wheat country have been wasting untold treasures. From stubble fields abandoned by their owners and awaiting the plow these girls gleaned with rakes enough wheat to sell for \$846.50.

Gleaning has never been customary in Canada. The farmers who sometimes clear enough on one wheat crop to pay for their farms have been content with the 20 and 30 bushels to the acre obtained by harvesting machinery.

Two girls living at Stony Beach, Saskatchewan, asked a farmer for permission to go over his stubble field with rakes. "Certainly," said the farmer, and all they gleaned they could have. The girls set to work next day at sunup and kept at it until twilight. The farmer was mildly interested as he watched them; they made a pretty picture, recalling Ruth of old gleaning in the fields of Boaz. He was surprised when at the end of four days he saw a big wheat stack standing in his stubble field. When the girls threshed their gleanings they sold the wheat for \$315.

Then two girls of Bounty, in the same province, heard of the success of the maidens of Stony Beach and made a similar experiment. They gleaned 150 bushels of wheat from 160 acres of abandoned stubble fields and sold the grain for \$331.50.

**Osteopaths Select Bozeman as Site for Their Hospital**

Special to The Daily Tribune.

Bozeman, March 23.—A hospital for the use of patients of osteopathic physicians of Montana is to be built in Bozeman according to the decision of a number of physicians of that school who met in this city for the purpose of discussing the matter. There were representatives present from Billings, Helena, Missoula, Big Timber, Livingston and Columbus as well as the Bozeman osteopaths.

The need of such a hospital has been felt for some time and Bozeman being centrally located in the state seems to be the best place for such a building. The physicians plan to organize and incorporate with Dr. W. E. Dean and Dr. W. C. Dawes of Bozeman, Dr. Striker of Livingston, Dr. Townsend of Chico Hot Springs and Dr. Wolf of Big Timber as directors of the company and the hospital in view will cost when built and equipped about \$75,000.

## GRACEFUL GOWN ON MOYEN-AGE LINES

By ELOISE.

The rest of March and part of April will be rather quiet, with few parties or functions of any kind until after Lent. The woman who is planning her spring wardrobe will have many days to look around before choosing the frocks she wants for her post-Lenten parties. Georgette and taffeta are two of the most popular fabrics and most of the formal and informal afternoon frocks are made of one or the other or a combination of these two materials.

Each blue georgette fashions this graceful and dignified frock. The moyen-age or redingote tunic is draped on the sides and elaborately embroidered in oriental design in various tones of blue. These sleeves which have deep bell-shaped cuffs are also embroidered. The waist-line is indicated by a long gold cord.

The afternoon hat or tea party hat will also demand the attention and the one worn with this frock is a very becoming model. It is practical because it may be worn with so many different costumes. A sailor brim with a large puff crown made of tulle and a huge velvet flower for trimming makes this superbly simple yet stunning dress hat.

## MOTHERS

Should see that the whole family take at least three or four doses of a thorough, purifying, system cleaning medicine this spring. Now is the time. The family will be healthier, happier, and get along better if the blood is given a thorough purifying, the stomach and bowels cleaned out, and the germs of winter, accumulated in the system, driven away. Hollister's Rocky Mountain Tea is one of the very best and surest spring medicines to take. Get it and see the difference in the whole family. Their color will be better, they'll feel fine and be well and happy.—Cascade Pharmacy.—Adv.

## Conference Fails to Settle London Railway Dispute

London, March 23.—Another conference was held today in an endeavor to arrive at a solution of the dispute of the railway men. It failed of its object and was adjourned until tomorrow. It is understood that negotiations are proceeding smoothly and that there is a prospect of a settlement of the matter. In their comments on the labor situation the newspapers dwell on the success which attended the government's decision to make public the coal commission's report on its work. Regret is expressed that the same policy was not adopted as regards the dispute with the railway men.

# BELIEVED CARR LEFT THE STRAIGHT TRACK

## Gob Who Was Helped Seems to Have Helped Himself to "Old Crow," "Blue Ribbon" and "Pebbleford."

"Got any work?" A. G. Hay, secretary of the Soldiers' and Sailors' employment bureau looked up and beheld a trim young sailor who was just bubbling over in an enthusiastic effort to portray his anxiety to accept work of any kind, so long as it was work, as he put it.

"Well, here's something that might interest you. Ever do porter work?" asked Mr. Hay. He then continued with the explanation that the Goodman Cigar company was seeking a porter, the position being a well paying one, which offered a young man of intelligence an opportunity of working up to something better. "In a cigar store?" exclaimed the gob, who gave his name as Dallas E. Carr. "Why, I've had experience; my father owns two of them." To make a long explanation shorter, Carr accepted the job and gave evidence he would make good.

That was Thursday afternoon. Today Carr is being sought by Sheriff J. P. Burns, together with William McInnes.

was confident last evening the pair would not get far before being captured. But there remained another mystery last night. Where is the missing firewater? Sheriff Burns didn't know but he had a suspicion as to where it might have been hidden, as it is believed it was stored somewhere in Great Falls by the persons stealing it, the intention perhaps being to return at a later date to get it.

## Good Style Is Not a Matter of Locality

SO often one hears "she hasn't that well-dressed look that New York women have."

As a matter of fact, New York women are well-dressed. And did you ever stop to consider why they are?

It's because nine out of ten of them—the well-dressed ones, of course—are tailored women—a graceful flow of harmonious line from well-setting collar to trim hem.

To obtain that "well-dressed look" of the New York woman, enduring style is necessary. The kind that makes a woman as proud of her suit three months later as the day she bought it; fabrics that do not require constant pressing to "hold their shape"; and that perfection of detail that a woman knows as "careful finishing."

The "Wooltex" label is the unfailing mark of that well-dressed look. Each coat or suit is first correctly designed and then carefully tailored of such excellent fabrics that it keeps its graceful lines throughout the season.
