

DEMOCRATS UNITED FOR CITY CAMPAIGN

Enthusiastic Meeting Proves That the Party Will Present a Solid Front at City Election on April 7.

Declaring for an aggressive campaign and laying preliminary plans for a comprehensive organization that will have as its purpose the furtherance of the candidacy of the nominees chosen at the preliminary election of last Monday, the democratic central committee and a large number of members of that party met last night in the court room of Justice of the Peace John T. Earll and conducted what was perhaps the most enthusiastic convention of the kind to be held during the past year. W. D. Delphy and LaRue Smith were selected respectively chairman and secretary of the committee and it was decided to further perfect the campaign organization by appointing finance and executive committees. For the finance committee, Lee M. Ford, P. W. Bradford, E. Homer Stone, Sid Willis and H. B. Mitchell were chosen by Chairman Delphy and the executive committee will be announced today or tomorrow. The chairman and the secretary will, within a few days, select a room to be used as headquarters and next week, the last before election, a campaign looking to the success of the entire democratic ticket will be well under way.

There was no more pleasing feature of the meeting than the universal and enthusiastic support that was volunteered for Louis Newman, democratic candidate for mayor. Mr. Newman was asked to address the meeting, which he did briefly, but effectively. He told his listeners that his election would mean a business administration, the relegation of politics to a position of secondary importance and the elimination of political bickerings and wrangling at the city council chambers. He said he believed the people would welcome a change bringing these results and he urged, as a means of realizing them without possibility of miscarriage, the election of a democratic council. Solidarity, he said, would mean a victory for the party and he knew no reason why cooperation and team work should not cause the campaign to end with the party successful in its every endeavor to improve the business affairs of the city.

The praise that was given Mr. Newman by the speakers who followed him on the floor could have been no other than gratifying to the candidate, men who have known him for years one after another taking the floor and referring to his public career after a fashion that must have impressed him with the fact that the man who desires to render disinterested service, and does render it, does not work without his efforts being appreciated. H. B. Mitchell,

W. M. Cokkrell, William Cluston and a number of others mentioned the first time they saw the candidate, and each one of them discovered that when they made his acquaintance he was identified with a public movement, trying with all his considerable energy to work out plans intended for the benefit of the community.

As an advocate of civic cleanliness, as an organizer, as an exploiter of big improvement projects, as a good roads booster and worker and as a straightforward, big minded, aggressive public citizen, they all found him identified himself. Alderman George Shanley brot the speaking to a close with the statement that if Louis Newman is elected mayor he will, with the prestige of that office behind him, be instrumental in securing a federal appropriation of \$15,000,000 for the completion of the Sun River project.

W. P. Wren, candidate for city treasurer, was another candidate whose past record as a public servant was much commented upon. Mr. Wren is running on his past record and last night it was brot out that thru his efforts during the past year warrants had not been discounted and that the city's credit is now 100 per cent good. At one time the practice of discounting warrants was begun, but thru the treasurer's efforts their value was returned to par, and where they remain at the present time.

Short addresses were also made by R. R. Marsh, candidate for police magistrate, and R. R. Johnson, Bernard Joyce and Adam Stimpert, aldermanic candidates. Homer Stone and a number of others who were asked to make talks. Mr. Johnson said his greatest ambition along political lines is to sit in the city council as a supporter of the policies of Louis Newman.

Important announcements will be made by the central committee within the next few days. When suitable headquarters have been established an announcement of special importance to democrats will be made.

Inasmuch as this was the first meeting of the central committee since the death of Frank C. Murray, its former secretary, suitable resolutions were drafted by a committee selected by Chairman Delphy and later adopted by the assembly. A copy of the resolutions will be sent to Mrs. Murray and the resolution itself will become a part of the committee's permanent records.

Mr. and Mrs. C. E. Davis have returned from a three weeks' pleasure trip to San Francisco, Los Angeles, Long Beach and other points in southern California.

THEY DESERTED WHEN NEEDED

Six Scandinavians Are Now Forever Barred Becoming Citizens of the U. S.

In Montana there are six men of foreign birth who will never become citizens of the United States. This country, they once discovered, is a good place to live; it has advantages unequalled in the land of their nativity, and here they located and prospered, and enjoyed a full measure of America's freedom and gained that which comes thru the exercise of individual opportunity, but it was not good enough to fight for. Yesterday in district court Judge J. B. Leslie, on motion of Dan Pearsall of the Seattle naturalization bureau, entered an order forever denying them the rights of citizenship.

Previous to the war they had become so impressed with America that they declared their intentions of renouncing allegiance to the countries from which they came, but before the formalities could be completed the land of their proposed adoption was aligned with the other forces of civilization against the Hun and because of Uncle Sam's lenient methods with the emigrant they found a way to avoid military duty. To do this it was only necessary to file an affidavit announcing it to be their intention to cancel their applications for citizenship, and this simple little ceremony they hastened to perform. After this was done they could earn the highest wages ever paid in the world for labor, or could sell their produce at a price guaranteeing a profit, or could follow any one of the scores of lucrative pursuits available during the war period. An erica was even better and softer than they had thought.

Yesterday was naturalization day in district court and Mr. Pearsall called Judge Leslie's attention to these false weather friends of Uncle Sam. They had announced their intention to cancel their applications, but the court bent them to it. And in the process a proviso was tacked on by which the six will be prevented for all time from becoming American citizens. Their names are: John Hagerbras, Martin N. Axness, Christian Jacobson, Eric Olson Hammer, Alex Johnson and Oskar Peterson. They came to the United States from Norway and Sweden, and citizens of those countries they will remain.

Mr. Pearsall is authority for the statement that 95 per cent of all aliens who had declared their intentions to become United States citizens but who withdrew their applications as a means of evading service in the military are natives of the Scandinavian countries. The representative had no particular explanation to offer for this fact, saying only that he had found it to be true thruout the northwest.

Twelve petitioners were granted citizenship papers yesterday in district court. They were Nels Christianson, Mandias Helson, Russell Smith, Hans Isler, Ferdinand Dahlman, Frank Zuckawski, Hans Jansson, Joe Rubis, Matt Antonich and Cecil James Jenkin.

Mr. Pearsall will go from here to Forre, Ponton and Big Sandy, where naturalization hearings are scheduled for the present week.

CIGAR SMOKE AND ROSES FRAGRANCE

That Will Be Mingled on the Menu of Goodman Cigar Co. at Opening Today.

Rose scented tobacco ought to be the order at Fourth street and Central avenue today. Roses are to be the favors when the Goodman Cigar company opens its new branch house at that point. And while the ladies probably will not carry away a great amount of the tobacco sold, the ladies are to be welcomed at the opening and they will be shown what the proprietors claim to be the best cigar store in northern Montana if not in the entire state. The place has been finished in mahogany with silver tinting in the painting and from first to last it is up-to-the-minute in detail of finish and design. The humidors are as modern as are made and smokers who get their goods from these, Mr. Goodman says, will have select stock in prime condition. The Goodman Cigar company made its advent in Great Falls some five years ago when it bought the business it has since conducted at 224 Central avenue, that being both wholesale and retail. The new place which opens today will be devoted strictly to the retail trade. The new stand formerly was occupied by the Cream City saloon but the old building would hardly be recognized now. It has been revamped and repainted and changed in every particular until it looks especially from the inside, like a new place. The stand formerly was occupied by the final announcement yesterday that the place was ready to start business when the awnings were hung and this morning the doors will swing back for the trade to come and see what is offered and to those who smoke, here will be the combined joy of fine Havana smoke scented up a bit with the fragrance of the roses right from the hot house.

CHILDREN GET THINGS READY

Testing Garden Seeds for Early Planting Now in Progress—Other Work.

Altho it is still too early to do any work on the out of door gardens the children, under the direction of John Dexter, garden supervisor of the public schools, have planted their tomatoes and cabbages at home and in many cases the plants are already up.

And while waiting for the actual outdoor work to begin the classes are testing garden seeds, and carrying on experiments as to depth, distance and moisture requirements for planting.

The Women's Federation is working on the vacant lot proposition. The names of all the children who do not have room for a garden at home have been already turned in and lots will be secured for them by planting time. Arrangements have been made with the city for the plowing.

The organization of the Boys' and Girls' clubs will be about the middle of April. Under the direction of the State Club Leader M. J. Abbey at Bozeman the work all over the state proved a big success last year and from indications there will be even greater interest in the clubs this year.

The committee from the City Federation working in cooperation with the schools consists of the following ladies: Mrs. C. K. Bland, chairman, west side; Miss A. L. Hoover, north side; Mrs. J. V. McLaughlin, south side; Mrs. Walter Hallock, Boston Heights.

MAY ALLISON TO APPEAR IN A CLEVER DRAMA

"Peggy Does Her Darndest" is Brilliant Comedy to Be Shown at Alcazar Theater.

"Peggy Does Her Darndest," a drama of distinctive originality in which May Allison, the beautiful and alluring young star, is seen, will be the attraction today at the Alcazar theater.

Miss Allison plays the role of Peggy, a girl full of the life and spontaneous animation of healthy youth. Scorning the usual occupations and amusements of her own sex she finds delight in the sports to which her brother is addicted—football, boxing, fencing, and hockey are among her favorites, while polo, and speeding in her smart racing car, come a close second. In direct contrast to Peggy is her sister, Eleanor, who is a coquette and very vain. She is addicted to flirting and men, to her, are only meant for her special pleasure and amusement. The fact that Peggy could compete and rival her has never entered her pretty head, for she considers her younger sister a hoyden and perpetual annoyance and disgrace to the family. How Peggy proves that she can use both her athletic powers and girlish charm to perfection is cleverly shown in the play, which is one long, joyous adventure.—Adv.
