

SALARY INCREASES GRANTED BOZEMAN SCHOOL TEACHERS

Special to The Daily Tribune. Bozeman, April 16.—In accordance with the recommendation of a special committee of the board of trustees of District 7, which included the four Bozeman schools and the Fort Ellis school, an important increase in salary has been granted to the teachers of the district for the coming year, because of the high cost of living, the relatively high salaries paid for work requiring less training and preparation and less wearing in its nature, and considering the tendency throughout the country to advance the salaries in justice to the teachers themselves, being the reason suggested to the board for this action which was approved.

Tires When Your Tires "Cash in Your Checks"

Just as certainly as you buy a tire, you know that some day it will "cash in its checks"—and yours!

That day you'll measure its mileage against the sum you paid for it. Not until then, probably, will you know whether that brand of tires really gives you your moneys' worth—

Unless those tires be Diamonds. You can count on Diamonds to roll up 5,000, 6,000 and 8,000 miles persistently—though they COST LESS than most other tires.

For example, in winter driving with chains, 341 Diamonds averaged over 5,000 miles on Quaker Cab Co. taxis in Philadelphia. The Texas Co. with over 500 cars, averages between 6,000 and 8,000 miles with Diamonds.

Why not cut your tire upkeep with a Diamond?
