

CROPS THRIVING THROUGHOUT STATE

Reports From Practically All Over Montana Are More Optimistic Now.

Because of the rain and snow of the week before last, and last week in some localities, crop reports from practically everywhere in Montana are more encouraging than they have been at any previous time this season. The Tribune correspondents having the following to say concerning crop conditions in their respective communities:

Moccasin, May 3.—The past week has had the great part of the seeding is and the great part of the seeding is done. With the ground dry on the surface, rapid work could be done, and the last half inch of snow that will be very beneficial to the winter wheat and spring wheat that is sown. The weather conditions at the last of the week appears to be that there will be plenty of moisture fall, before the weather clears again.

Bole, May 3.—Crop conditions are some better than they were last week. It has been cloudy nearly all week and threatening rain, but haven't had any moisture until today. We had some snow that wet the ground down about one-half inch and it still looks like it looks like we would get more before it is thru. Some of the early seeding of wheat is coming up and looking fine, but will have to have a good rain before long.

Windham, May 3.—Weather past week cool and cloudy. Light moisture latter end of week. Winter wheat and rye are looking good. Some fields of winter wheat being re-sown on account of being blown out. Sowing of spring wheat getting some in good shape.

Belt, May 3.—Crop conditions are more favorable this week, as we have been having some showers, and last night it snowed, so the farmers are feeling better. At present, winter and spring wheat is looking O. K. The crop situation is looking brighter, considerable snow has fallen and will moisten the ground. Spring wheat is going fine in this locality and wheat seeding is done. Winter wheat that was not blown out by the wind is looking fine. There is some complaint of a worm or insect working in the stalk of the winter wheat east of here. There will be quite a large acreage of flax planted.

Broadview, May 6.—Crop conditions in the Broadview section are splendid this time; having had a good rain of late and a large acreage is put in. Conrad, May 3.—The crop conditions for this territory have not changed from the previous week. Seeding of wheat is well advanced. There is a lack of moisture for germination and until some rain falls the growth will be spotted. The indications today are for some moisture, but to what extent cannot say. Some snow fell last night, but not enough to do any material benefit.

Kolin, May 3.—Wheat prospects fine in this part of the state. Winter wheat has come thru the winter in fine shape, a perfect stand what I have seen. Spring wheat seeding is about finished and some of the earliest sown is up and looking good. The rainfall during the week has not been much to speak of; we have had a few snows and it is helping the spring wheat.

Loma, May 4.—Crops in this vicinity are all looking good, and the rain which we have gotten during the past few days will brighten the prospects considerably. The weather still appears rainy and the crops will probably get a better boost before it settles. Thruout the country tributary to Loma crop prospects were never better at this time. This is the best of the season. Hobson, May 4.—I have been intending to send report on crop conditions at Hauck. Has been cold and dry; some winter wheat looking fine. Wind hurt some of it; cannot tell if it will have to be sowed over yet or not. Large acreage of spring wheat going in; would estimate one-third more than last year. All going in in good shape. A light snow last night and today, but need moisture and warm weather. Will be two weeks before seeding is done.

Big Sandy, May 5.—Well, the sign of moisture is here; we have had two days of damp and cold weather with enough rain to probably wet the ground about 2 inches. As an average, however, no real rain as yet, although the weather is very cloudy and threatening rain. The crops are doing very good. A lot of our farmers and they will probably go after more acreage even a little later.

Fort Shaw, May 3.—Winter wheat south of here is in good condition, but needs rain. North of here it is suffering for rain and in some cases spring wheat has been seeded where the winter wheat is dead. Spring wheat is being seeded, probably 40 per cent is in the ground, but we need rain.

Cut This Out—It Is Worth Money

DON'T MISS THIS. Cut out this slip, enclose with 5c and mail to Foley & Co., 2805 S. Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley's Kidney Pills, for pain in side and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache and sluggish liver. Great Falls Drug Co.—Adv.

Confer With Religious Organizations as to Hospital Erection

Special to The Daily Tribune. Roundup, May 12.—Another meeting of the new hospital committee was held with Dr. Shutz, one of the national officers of the Methodist church, who went over the plans of the proposed structure and will report to the Deacons board on the matter. Proposals will also be asked from other organizations, such as the sisterhoods, and it is expected that the whole matter will be arranged and the hospital constructed during the present year. The needs of the community demand a hospital of not less than 20 beds, with complete modern equipment, and will probably cost \$40,000 to \$50,000.

LIBBY SCHOOL TRUSTEES DEMAND CURFEW ORDINANCE

Special to The Daily Tribune. Libby, May 12.—Messrs. John P. Wall, Wm. Gady and W. E. Dexter, trustees of the school district, attended the last meeting of the city council and asked for a more strict enforcement of the curfew ordinance. They said that school children of Libby are staying out too late at night for the good of their school.

To some Easter is a religious holiday; to others it is just wife's excuse for wanting another new bonnet.

BUILDING ON BIG SCALE THIS YEAR

Great Falls to Experience Boom Judging From Number of Permits Issued.

According to the number of building permits issued by John Woodahl, inspector of buildings, during the first week in May, Great Falls is about to experience a construction boom and it looks as if it will be here almost immediately and continue during the summer. Just \$85,000 worth of proposed building was authorized by the inspector during this week and April alone, the month previous had but a \$150,000 mark, which is considered unusually good. The week broke the record for permits issued in a single week.

The largest permit was that issued to the Paris Realty company to construct the Paris store structure to the rear of the Ford building, on First avenue north. The additional permit for this building was for \$20,000, bringing the total up to \$30,000 for the one story construction. It will be 140 by 70 with the foundation so erected as to be able to hold two or more additional stories should it be deemed advisable to add them later.

Homes Included.

Included in the permits for the week were many new homes.

Frank Sidor is erecting a five-room bungalow, 2824, at 2947 First avenue southwest. It will cost \$2,800.

A. S. Nulden is building a five-room residence, with bath, at 1617 Central avenue, at a cost of \$3,800. This is next door to his present home, 1615 Central avenue.

Fred Parrish is building a four-room bungalow, 3243, at 2715 Central avenue, at a cost of \$2,775. Pappin & Sons are the contractors.

Michael L. Dailey is building a three-room bungalow, 3417, at 2947 First avenue south, at the rear, at a cost of \$1,000. He lives at 504 Seventh avenue south.

Bert Brovig of 823 Sixth avenue north is building a five-room frame dwelling, 2322, at 2608 Central avenue, costing \$3,200.

W. S. Frary is spending \$2,500 in altering his home at 501 Fourth avenue north. Plans were drawn by Architect George Shanley and John Duncan is doing the work.

Temporary Permits.

Permits for building temporary houses, garages and repairs were issued during the week as follows:

J. C. McDermund, to repair dwelling at 255 First avenue southwest, costing \$500.

G. E. Murdock, to add sleeping porch on rear of 1422 Fifth avenue north, costing \$320.

John Yurek, to build two-room dwelling at 1416 Second avenue south, to cost \$300.

J. H. Mathison, to build 12x20 frame addition to dwelling at 522 1/2 Fourth avenue southwest, costing \$100.

Thomas Shannon, to repair dwelling at 1023 Sixth avenue south, costing \$2,000.

John Duncan, 1108 First avenue north, to build garage at 104 Tenth street north, costing \$150.

James A. Gooch, to build garage at 913 Second avenue north, costing \$200.

Mrs. M. E. Warren, to repair garage at 1110 Second avenue north, costing \$100.

M. Grogen, to build garage at 2900 First avenue south, costing \$150.

Frank R. Evans, to build garage and chicken coop at 2321 Central avenue, costing \$150.

Adelin Walter, 411 1/2 Fifth avenue southwest, to build frame garage, costing \$75.

P. O. Gallagher, to add bathroom to dwelling at 810 Seventh avenue south, costing \$140.

Josephine Ford, 916 Second avenue south, to repair dwelling at 209-11 Fifth street north, costing \$150.

Power City Investment company, to build duplex garage at 805 Fourth avenue north, costing \$200.

S. J. Coburn, 2100 Second avenue south, to repair building damaged by fire, costing \$60.

Hans Skogen, to build three-room frame temporary dwelling, 2426 feet, at 2812 Second avenue north, costing \$500.

John Mohs, to build two-room addition to dwelling at 1627 Eighth avenue north, costing \$190.

Mrs. Robert Pointet, to repair dwelling damaged by fire at 327 Fifth avenue north, costing \$1,000.

John Laner, 900 Seventh avenue north, to build garage costing \$50.

W. H. Blake, 2527 Third avenue north, to build temporary three-room dwelling at 2121 First avenue south, costing \$250.

J. C. Mundson, 1105 First avenue north, to build 20x30 garage, costing \$500.

S. W. Hanse, to cover exterior of dwelling with metal lath and plaster at 608 Sixth avenue south, costing \$240.

County to Take Steps to Seize Railroad Lands Now Delinquent

Special to The Daily Tribune. Roundup, May 12.—Unless delinquent taxes on mineral rights owned by the Northern Pacific railway are paid by July 1, County Treasurer Swan will ask thru the courts that deeds be issued to Musselshell county for the same. The taxes have long been in controversy, and a supreme court decision has settled the right of the county to assess this right, although the exact method of arriving at the value will probably have to be settled. The taxes due amount to over \$200,000 with penalty and interest and cover a period of six years.

CONRAD SOLDIER IS BACK FROM SERVICE IN FRANCE

Conrad, May 12.—Chas. J. Watts, one of Conrad's popular and prominent young men returned to Conrad on Tuesday, coming directly from France, after being in the national service since the beginning of the war, being a member of the first contingent leaving Teton county for Camp Lewis.

Special to The Daily Tribune. Roundup, May 12.—Another meeting of the new hospital committee was held with Dr. Shutz, one of the national officers of the Methodist church, who went over the plans of the proposed structure and will report to the Deacons board on the matter. Proposals will also be asked from other organizations, such as the sisterhoods, and it is expected that the whole matter will be arranged and the hospital constructed during the present year. The needs of the community demand a hospital of not less than 20 beds, with complete modern equipment, and will probably cost \$40,000 to \$50,000.

FIFE FARMERS MAKE PROTEST

They Say Cutworms Are Not So Bad There — Elevator Man Supports View as to Wheat.

Farmers in the vicinity of Fife take exception to the story printed on Sunday morning in The Tribune in which it was said that 1,000 acres of wheat had been killed by the cutworms. Persons who claim to be familiar with the situation at Fife say that with the exception of something like 150 acres in one tract there has been no complaint of the worms killing the grain there and not all of this 150 acres has been destroyed.

The wheat about Fife generally is looking quite promising to those who have been watching the situation there. Among the observers are J. H. Prodder, manager of the Fife elevator, who says the conditions have seldom been as promising there as they are this year.

"Spring Fever" and Common Sense.

If a man or woman feels heavy, dull, languid, lazy—lacking in ambition and energy—instead of giving up and saying he has "spring fever," it is more sensible to take a good, wholesome physic. Biliousness, sick headache, sour stomach, gas, bloating, coated tongue, dyspepsia—all are relieved by Foley Cathartic Tablets. B. B. Hays, of Treadwell, Okla., writes: "I find Foley Cathartic Tablets give me quicker relief than anything I ever tried." Great Falls Drug Co.—Adv.

SHAPE REPORT TO EXAMINERS

State Elevator Board Begins Session at Hotel Rainbow; May Be Here All Week.

Members of the state terminal board Monday opened sessions in the Hotel Rainbow which it is expected will require most of this week and which it is announced by the board will result in getting their information, gained on the recent visit to exist and Canada points, into usable shape for their report to the state board of examiners together with their recommendations as to what should be done about the elevator. The work of the first day in addition to shaping report material included the study of the machinery problem for the elevator and as to just what features would be needed for the successful operation of an elevator.

The members of the elevator board are W. S. McCormick of Kalspell, president; C. E. Foster of Coffee Creek, Clark Bungegar and Adam Stimpert of Great Falls and A. B. Turner of Eureka. The board is being given the advantage of the counsel of A. L. Rush of Portland, representing the United States department of agriculture. Mr. Rush is grain supervisor in charge of bulk handling of grain at Portland. The problem of site and other things which the board has to settle will probably come up for definite decision in a few days and as soon as the report to the state board of examiners can be prepared it will be sent forth so that it may be passed on by that body as soon as possible.

LIBERIA ELECTS DELEGATE

Paris, May 12.—The Liberian legation announces the election of C. D. P. King, president of the republic, who is now in Paris, as the first Liberian peace delegate.

We know a man who is always helping about the high cost of living. And the other day we discovered that he lets his wife support him.

PREMIUM LIST OF STATE FAIR

Booklet Shows Many Additions to Former Lists—Over \$30,000 for Farm Products.

Keen rivalry among the counties for high honors at the Montana state fair and Victory exposition is predicted by Secretary Horace S. Ensign, judging from the interest evidenced at this early date. All indications point toward a banner year in the county collective exhibits and the state fair management is planning to utilize every foot of floor and wall space in the big agricultural hall to accommodate the varied sectional displays.

The early attention to county collective displays is indicative of individual interest, as prospective exhibitors who intend to compete for class and special prizes, must exhibit their products in the collective display from the county in which they are produced.

Cash premiums aggregating \$30,000 have been appropriated by the state fair and this amount is increased by over \$2,000 in special premiums to be awarded by national breeders' associations and institutions interested in the various phases of development of the state.

The distribution of the county collective as well as individual premiums is outlined by divisions and classes in the yearly premium list, now in course of publication. Copies of this book are obtainable on request to Secretary Ensign at Helena.

This year the premium list will present many changes and additions over previous issues, so that those interested in horses, cattle, sheep, goats, swine, poultry, rabbits, farm products, fruits, flowers, dairy products, domestic and export art or education will find all essential information pertaining to the division or class in which they are interested.

Fighting Afghans With Bombing Planes

London, May 12.—The news from Afghanistan, where Afghan tribesmen have been attacking British positions on the Indian frontier, was scanty but satisfactory over the week. The British drove the Afghans from Ashrafiakhel, Friday, while airplanes crossed the frontier and bombed the enemy positions at Loidatta, with good results. The Afghans maintain their positions west of Loidatta.

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest becomes easier, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, whooping cough, bronchial asthma or winter cough.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes. To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

MRS. STOKES' APPEAL FROM 10-YEAR TERM BEFORE BENCH TRIO

New Interpretation Put Upon Words of Socialist Millionaire's Wife.

St. Paul, May 12.—The appeal of Mrs. Rose Pastor Stokes from her conviction under the espionage act at Kansas City, in 1918, was taken under advisement, today, by Judges Walter H. Sanborn, of St. Paul, John E. Garland, of Washington, and Kimbrough Stone, of Kansas City.

District Attorney Francis M. Wilson, of Kansas City, opposing the appeal for the government, was for the profiteers. Judge A. S. Van Valkenberg had been fair during the trial and portrayed Mrs. Stokes as one who "did all she could to encourage disloyalty."

Counsel for Mrs. Stokes, Seymour Steadman, of Chicago, asserted that Judge Van Valkenberg had erred in admitting testimony of P. Dee, a newspaper man, and defended Mrs. Stokes on the occasion of her arraignment, contending this interview had nothing to do with the letter to the Kansas City Star, on which the indictment was based. In production of evidence relating to speech Mrs. Stokes made before writing the letter was also declared an error by Mrs. Stokes' counsel.

Concerning the chief basis for the indictment, Mrs. Stokes' statement that "the government was for the profiteers," Steadman said that this was intended as a criticism of the "administration" and not the "government."

Old Snowshoe Mine May Be Reopened

Libby, May 12.—C. H. Foot, a Kalspell attorney, tendered County Treasurer John C. Friend a check for \$1,054.61, in full for back taxes assessed against the Snowshoe mine. There have been persistent rumors to the effect that the owners of the Snowshoe are getting things in shape to resume operation of the property, but Mr. Foot, who represents the owners, made no authoritative statement relative to plans for the property. Before being shut down the Snowshoe produced over a million and a half dollars in ore.

Ford

THE UNIVERSAL CAR

The Farmer's Truck

The Ford One Ton Truck may well be classed as an agricultural necessity, it fits into and fills so many wants on the farm. It is a reliable bearer of farm burdens, not only doing the work of several horses quicker and better than the horse, and does not "eat its head off" when not working. The aggressive farmer has only to consider the possibilities of the Ford truck and he is ready to buy one. We judge this to be so from the way farmers are buying them. Truck Chassis \$550 f. o. b. Detroit.
