

**OIL MILL MAN IS GRATEFUL**

**McCracken Couldn't Eat or Sleep to Do Any Good Before Taking Tanlac.**

"Tanlac proved to be the very thing I needed, for it soon put an end to my troubles," said D. V. McCracken, 829 Second Ave., Dallas, Tex., night superintendent of the Dallas Oil and Refining company. "I had been troubled with indigestion for over two years," he continued, "and was going down hill fast. I was constantly belching up sour food and dirt, digesting enough to keep up my strength or do me any good, and I lived almost entirely on cereals. My stomach felt like there was a knot in it and hurt me all the time, and I was swollen up with gas till my heart would flutter and I would get dizzy. I could hardly sleep when I went to bed and got little rest at all. "I had the best treatment money could buy, and kept getting worse all the time. I was induced by a friend to try Tanlac and it fixed me up so I can eat and digest anything I want and sleep fine at night. I have no more gas on my stomach, no palpitations nor dizziness, and I feel so grateful for what Tanlac has done for me that it is a pleasure to endorse it. "Tanlac is now sold in Great Falls by Model Rx Pharmacy, 312 Central avenue, and Cascade Rx Pharmacy, 110 Third street south.—Adv.

**THEY CONFER BUT MAKE NO DECISION**

**Merchants and Ad Club Committees Considering Question of Consolidation of Two Bodies.**

Committees representing the Merchant's association and the Ad Men's club met at one o'clock yesterday afternoon in the palm room of Hotel Rainbow to discuss the matter of amalgamating these two organizations and appointing committees, including representative of both organizations, to look after business matters and any plans which the amalgamated organization might wish to make in the future. However owing to the short period for their business meeting no definite action was taken either to consolidate the two organizations or to appoint committees.

**CLASSES IN TANK AT Y IN MORNING**

**Congestion in Pool Forces New Hours When Schools Close; Tennis Starts Today.**

The popularity of the Y. M. C. A. swimming tank, particularly among the boys of the city, is congesting the pool and morning classes are to be inaugurated immediately after the schools close. Most of the boys will be given the morning hours in order to leave the late afternoon hours for the older men. With an enrollment of over 300 boys in the swimming classes, there is much swimming. The place is especially popular on warm days, but the attendance has been heavy the past four days. The little fellows are making much progress in the water and are mighty proud when they have negotiated the length of the tank. Volleyball continues to attract many of the men at 5:15 each afternoon, while the handball courts are kept busy every afternoon at 4 o'clock. The Senior and Junior Triangle clubs have a large attendance at their noonday classes, which consists of regular work in calisthenics, followed by a plunge and shower. The Senior meets on Mondays and Thursdays and the Junior on Tuesdays and Fridays. Tennis play will open at Fourth avenue north and Sixth street today, the east court being ready. The west court is still too soft. Several improvements have been made on the grounds, including new benches at the sides of the courts and in the shelter-house.

**It Is All Gone Now.**  
Samuel L. Kramer, Box 95, Sellersville, Pa., writes: "I had kidney trouble for two years and had a terrible backache. That is all gone now after using Foley Kidney Pills and I feel well again." Good for bladder trouble, too. Great Falls Drug Co.—Adv.

He is visiting with his sister, and brother-in-law, Lieut. and Mrs. George Ball at Quantico and will return to his home in this city on Sunday.

**BROOS CAPTAIN OF S. & S. TEAM**

**Popular Catcher Named to Lead Service Nine—Cascade to Play Here on July 4.**

George "Punk" Broos has been elected captain of the Soldiers' and Sailors' baseball club and will conduct the team thru the rest of the season. "Punk" as he is better known to most of the members of the club is one of the scrappiest baseball players in the city and has earned a warm place in the hearts of the returned service men for his dashing play.

Arrangements are being made for a series of games between the S and S team, the Sailors and the Independents and a meeting of the three managers R. H. Lanway, E. H. Quiggin and Sam Newman, respectively, is to be held to prepare dates for both games and practice.

The S and S team is strengthening its lineup every day by the addition of new players from the returning service men and expects to finish the season among the strongest independent aggregations in the state. "Swede" Hanson, on the mound, is the best prospect on which the service men are pinning their faith. The hard-working twirler is improving rapidly and if he continues to show the form he displayed at Cascade Sunday he will be hard to beat.

Cascade probably will be the attraction at the Elks picnic on the Fourth of July. The game they played against the service team on Sunday was scintillating and the Great Falls players declared they have a fast-coming nine. Excellent treatment was accorded the visitors, the game was free from wrangling and the service players were high in their praise of the sportsmanship and hospitality of Cascade.

The S and S players expect to meet the smelter team at Earling park next Sunday and hope to arrange a return game with the Independents for the following Sunday.

The seaplane will be disassembled and shipped to this country. **BAND CONCERT IS THURSDAY EVENING**

**Director Marston Will Present Initial Program in the Municipal Series.**

Great Falls will start her municipal band concert on Thursday evening, June 5, at Gibson park, when the Black Eagle band, H. B. Marston director, offers the first program of the season. The opening program in one of 12 numbers and includes selections that present a range in the musical which ought to please all.

In connection with the opening concert, there is one thing that may as well be said now as later. The auto-ists who go to the concert in their cars owe it to the other people who are there not to start their cars while near the band stand, during the period when the band is playing a selection. It is also a burden on those not in cars, as well as those who are, to give some consideration to others who may be listening to the music, if they happen to be near the stand, and not become unnecessarily loud in conversation.

Director Marston will start the concert promptly at 7:30 and those who want to get the benefit of the program should keep the hour in mind. The following is the concert as announced: "Civillization" March—From Thos. Inces, "Civilization" Overture—"Il Guarany"..... Gomez Waltz—"The Blue Bird"..... Kummer Grand Selection from "Faust"..... Gounod Oriental Fox Trot "Out of the East"..... Rosey Medley "Vaudeville Echoes"..... Lampe Hallelujah Chorus from "The Messiah"..... Handel Trombone Novelty "Oh Slip It Man"..... Davis (Slovakian Dance) No. 1..... Dvorak ("Polish Dance" No. 1)..... Scharwenka Popular March Song "Mickey"..... Morat "The Star Spangled Banner"..... Key

**This is a Greater Maxwell**

There have been many improvements made in the Maxwell since the war ceased. Some of them have made the car look better. Others have made it run better.

You will note a new type radiator, a further advance in body detail, an improved electric system, a Hot Spot and a Ram's-horn, a superior development in upholstery, and a top more durable.

Any of these is well worth any man's time to look over, and the sum of all represent a decided value added to the car, which post-war purchases for cash have made possible without increasing the price.

But the fundamentals of the car are unchanged. 300,000 Maxwells on the highways of the world—all of the same model—have proved that a policy of never changing the base design is profitable in more ways than one to buyer and maker.

It means extra value at a lower price.  
It means perfection in design.  
It means perfection in workmanship.  
It means you pay for no experiments, no engineering knick-knacks.  
It means you pay for no mistakes.  
It means a car of everlasting reliability.  
It means a car of endless mileage.

You can easily pay \$200 more and receive less. This Maxwell is old in antecedents but modern as far as sound engineering dare go.

There is no car of the day selling for so low a price to offer so many attractive inducements.

See this recent Maxwell, and bear in mind that despite the eight great Maxwell plants the supply is already running far short of the demand. \$895 f. o. b. Detroit.
