W. H. GEORGE CO.

Funeral Directors and Embalmers 417 First Ave. North

A name to remember when grief enters the family. The distinct W. H. George company idea attends to every detail. It is soothing to know that there is such an institution in Great Falls. Death comes to us whether we expect it or not. Rich and poor must bow to the hand of fate. Therefore it behooves us to give a little forethought as to whom we wish to care for our beloved ones when they are called. It is the service, consideration and personal attendance given those in the trying hours of their sorrow that has made the funeral home of the W. H. George company a credit to this section of the state.

INTRA-STATE RATE ON CATTLE IS SOUGHT NOW

Farm Bureau Urges Concessions to Stockmen who Ship Breeding Herds to Ranges Within Montana Similar to Fare Granted for Outside Shipments.

Reduced rates for stockmen who are shipping breeding stock to ranges within the state is sought in a communication sent by the local farm bureau to government authorities Saturday.

Under the special tariffs granted by the railroad administration to Montana residents shipping cattle out of the state to eastern ranges these cattle can be returned to their home range upon the payment of one-third the regular rate. The full rate is paid to the feeding grounds but a reduction is granted for the return trip. Certification that the cattle were shipped out of Montana for feeding purposes must be made when the homeward bound rate is paid.

In many parts of the state, such as the Flathead county, near Yellowstone

park and around Glasgow there is feed small breeding herds and many northern Montana stockmen are shipped their sheep and cattle to these ranges.

Local railroad men feel that a very small percentage of the stock shipped out of the state to eastern feeding grounds will be returned. It is felt generally that the greater part of these herds will be sent to market from the feeding grounds and herds replenished thru purchases. Therefore, local farm bureau officials and stockmen feel, the railroad administration, if it desires to aid in the preservation of breeding stock, will recognize the advisability of granting concessions to owners of small breeding herds who plan to feed within the state.

SPECIAL MEETING CITY FEDERATION. There will be a special meeting of the city Federation of Women's societies held Monday evening at 7:30 in the Y. M. C. A. building. At this meeting the women are to consider what may be done to aid the drought stricken farmers and also the possibility of securing Prof. Steffansson, the arctic explorer to come to Great Falls and address the Federation.

Farmers in Staffordshire, England, in reply to the question as to the ability of women as farm laborers replied in the following manner: Sixty-two considered women better than men for milking; thirty preferred women for rearing stock and nine for poultry keeping.

Dr. Radmila Lazarevitch of Serbia, who came to this country recently to attend the conferences held under the auspices of the children's bureau of the department of labor, is the daughter of the first Serbian woman physician. Her mother is now sixty-four and living in Belgrade. Dr. Lazarevitch since graduating at Zurich, Switzerland, in 1910, has been ministering to soldiers and the poor in her stricken country.

Mrs. Margaret Neale, as head of the women's division of the employment service, department of labor, was entrusted with the task of bringing women into industry in the numbers required by the war's needs.

DRANK BEER AND STARVED. Coblenz, Aug. 3.—A Muhlhausen newspaper published recently an article stating that 5,000,000,000 pounds of barley were used in Germany during the year for making beer, although 500,000 persons died in that time owing to lack of proper food. The newspaper advocates reduction of beer production as a patriotic duty.

New Hair Growth After BALDNESS

HAIR GROWN ON MR. BRITAIN'S BALD HEAD BY INDIANS' MYSTERIOUS HAIR GROWER

My head at the top and back was absolutely bald. The scalp was shiny. An expert said that as he thought the hair roots were extinct and there was no hope of my ever having a new hair growth. Yet now, at an age over 60, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs.

Indians' Secret of Hair Growth. At a time when I had become discouraged at trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian "medicine man" who had an elixir that he asserted would grow my hair. Although I had but little faith, I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as profuse as in my youthful days.

That I was astonished and happy is expressing my state of mind mildly. Obviously, the hair roots had not been dead, but were dormant in the scalp, waiting the fertilizing potency of the mysterious pomade. I negotiated for and came into possession of the principle for preparing this mysterious elixir, now called Kotalko, and later had the recipe put into practical form by a chemist. That my own hair growth was permanent has been amply proved. Many men and women, also children, have reported satisfactory results from Kotalko.

How YOU May Grow YOUR Hair

My honest belief is that hair roots rarely die even when the hair falls out through dandruff, fever, excessive dryness or other disorders. I have been told by experts that often when hair falls out the roots become imbedded within the scalp, covered by hard skin, so that they remain for a time like bulbs or seeds in a bottle which will grow when fertilized. Shampoos (which contain alkalis) and hair lotions (which contain alcohol) are enemies to the hair, as they dry it, making it brittle. Kotalko contains those elements of nature which give new vitality to the scalp and hair.

PROVE FOR YOURSELF

Get a box of the genuine Kotalko at a reliable druggist's \$3.00.00 GUARANTEE with each box. A small testing box of Kotalko (with treatment, etc.) may be obtained by sending ten cents, silver or stamps, to my address below.

"On the job"

Certain-teed forms a complete, seamless surface that sheds rain, snow and sleet year after year with almost no attention. It is always "on the job."

The most severe weather makes no impression on Certain-teed—nor can sparks, fumes, gas, smoke or insects impair its protective strength.

Yet Certain-teed costs no more—less in fact than other types of roofs. It is easily and quickly laid by anyone who will follow the simple directions that come with the roll. Upkeep expense is too slight to consider.

Your buildings, old or new—large or small—in city or country—should have the protection of Certain-teed.

Certain-teed is made in rolls, both smooth and rough surfaced, (red or green) also in handsome red or green asphalt shingles for residences. Certain-teed is extra quality—the name means certainty of quality and satisfaction guaranteed. It will pay you to get Certain-teed—most dealers sell it. Ask for Certain-teed and be sure to get it.
