

BULLWHACKER WINE TO START AT BUTTE; HAS BEEN LONG IDLE

Sinbad Shaft of Tuolumne Copper Company Has Reached Depth of 1,000 Feet.

Special to The Daily Tribune. Butte, Aug. 10.—A crew of men has started cleaning up the property of the Butte-Bullwhacker company preparatory to a resumption of mining operations. Shipments to the Washoe leaching plant of the Anaconda Copper Mining company to the tonnage daily from 250 to 300 tons will commence within several weeks. The Bullwhacker company principally is made up of Butte and Spokane stockholders, the late Patrick Clark of Spokane being the original organizer.

Butte & Duluth. Mines Operating company has reopened the property of the Butte & Duluth Copper company and copper shipments to the Washoe works have been resumed. The metal content is ranging up to about 8.5 per cent copper and confidence is expressed that this company now will be able to pull the Butte & Duluth out of financial difficulties. The latter for several years has been unable to meet the interest payments on a bond issue of a half million dollars and was in the hands of a receiver for considerable period, which terminated with the leasing of the Butte & Duluth's property by the Mines Operating company.

Tuolumne Copper. Sinbad shaft of the Tuolumne Copper company has reached a depth of 1,000 feet with the 1,200 objective. Cross-cutting is in progress for the Spread Delight vein at the 1,000-foot level and it is expected to reach this fissure within six weeks. Ore shipments are aggregating 100 tons daily and the showing of commercial rock on the 800-foot level is impressive.

North Butte Copper. Speculator mine of the North Butte Copper company is sending daily to the Washoe smelter works from 20 to 22 cars of ore as compared with 13 cars a week ago. Copper content is ranging from 2.85 to 3.0 per cent with the silver from four to six ounces. Ore reserves are said to have been increased materially by extensive development work done during the recent period of curtailment of production in consequence of the slump in the price of the copper metal.

Davis-Daly Copper. Copper ore shipments from the Colorado mine of the Davis-Daly Copper company are approximating more than 300 tons daily, with the metal content ranging from 8 to 10 per cent with from 8 to 10 ounces of silver, this is grading more than twice as much as any other mine in the Butte district. Sinking of the Colorado shaft is in progress from the 2,500 to the 2,700-foot level and at a depth of 2,630 feet stringers of ore have been cut indicating the approach of a vein which is expected to run high in copper as one stringer shows a width of two inches of pure borate and glance. Foundation for enlarged ore bins and skips is nearing completion. Electric haulage will be installed. When the skips are in commission tonnage materially will be increased.

FOOD IS ALLOTTED TO ENRICO CARUSO, SAVIE AS PEASANT

"Divided Our Supplies With People in Red Autos," Singer Tells Correspondent.

Florence, Italy, July 15.—Correspondence of The Associated Press.—Food is now being allotted to Enrico Caruso, opera singer of the Metropolitan Opera Company of New York, whose picturesque Italian villa is situated on the heights of Signa-Lastra, nine miles from here, on the same ratio as to the peasants in this section.

The new deluxe American limousine he imported was commandeered by the military authorities, while the Italian motor car he owned was requisitioned by the prefect of the commune of Signa-Lastra. The Work Committees of the district had their eyes upon his villa for many days and when the outbreak against the high cost of living occurred here a few days ago, made an inventory of his cellar and pantry, told him he had far too much for one man and his small family to live upon and seized some of the wine in his cellar, said to The Associated Press correspondent:

"I was visited by a distinguished commission of men and women, conveyed up these hills in two luxurious automobiles decorated in red streamers. These read to me my mode of life in Italy and I have since been forced to live under their mandates. "You know we have not starved here, though. We have had enough to eat. We have divided our supplies with the people in the red automobiles and have managed to get along. I do not know just what I will do in the future. I pay the Italian government more than a million lire taxes a year but I can ask for little protection for my property. I have given two years' work during the war to the cause of the allies and, therefore, to the cause of Italy."

Seek to Get 5,000,000 Acres in New England Now Idle, on H.C.L. Job

Boston, Aug. 10.—Organization of the New England farm and business for the purpose of reducing the cost of living by developing a more direct system of distribution of food products between the producer and consumer was affected at a meeting here, today, of business men from many sections of New England. By making it easier for the farmer to market his products, the organization hopes to encourage production and at the same time materially reduce costs to the consumer.

It is estimated that there are 5,000,000 acres of uncultivated farm land in New England, and the men who have taken up the movement hope to bring much of this under cultivation and, at the same time, to re-establish and extend the district's livestock industry.

It takes a man who has never had one to tell you how to manage a wife successfully.

YOUNG ROOSEVELT TROTTED OUT AS 'THE COMING MAN'

Says Congress Has Become Mere Rubber Stamp and President Whole Show.

Oyster Bay, N. Y., Aug. 10.—In his first public speech in his campaign for nomination as one of Nassau county's republican candidates for the assembly, Lieutenant Colonel Theodore Roosevelt touched on national affairs and launched at attack on the democratic party.

The address was made at a clamor here, today, by the republican county organization. Introduced by Secretary of State Hugo as "the coming man," Colonel Roosevelt said in part: "The democratic organization has done its utmost to upset the American idea of a representative government. The chief executive has become the whole show and congress and the senate merely a rubber stamp."

CANADA MAY HAVE IMPLEMENTS DUTY FREE VERY SOON

Consul at Kingston Reports It Is Possible if Western Canadians Want It.

Washington, Aug. 10.—Consul Felix S. Johnson, at Kingston, Canada, reports to the commerce department that western Canada, which holds the balance of power in parliament, will probably obtain free admission of agricultural machinery and implements from the United States. His report follows: "In the western provinces of Canada there is a clamor for the free admission of American farming implements which is bitterly opposed by manufacturers in Ontario and Quebec. Canadian manufacturers state that there was never a time when implements were not cheaper in Canada than in any other country in the world except the United States, and that there is very little difference between them and the American prices. In their opinion it is unfair to argue that if the domestic makes could compete abroad they ought to compete at home without a tariff. Makers stated that prices were higher abroad and the Canadian manufacturers competed abroad with the United States and only those who competed abroad made money. Each had to call in every available typist in the town, this force working each evening until close to midnight."

HART-CLARK. Lewistown, Aug. 10.—Edgerton C. Hart, an engineer with the state highway commission at Helena, who has been connected with the federal aid road project of Grass Range since it was started, and Miss Frances W. Clark, daughter of a prominent Grass Range merchant, were married at the Methodist church here, Rev. R. C. Edgington officiating. When the Grass Range road project is completed, the bride and groom will reside at Helena.

BILL WOULD GIVE WORK TO MANY NAVY YARD FORCES

Washington, Aug. 10.—A bill to appropriate \$25,000,000 for repairs and construction work in navy yards so as to retain labor has been introduced by Representative Fitzgerald, democrat, of Massachusetts.

WINS FLY CASTERS' RECORD.

Portland, Ore., Aug. 10.—John Brenner, of the Multnomah Angler club, equalled the American record in the light tackle dry-fly accuracy event when he scored 90 1-0-15 per cent in the Pacific Northwest fly and bait casters' sport today, at which casters gathered from all over the northwest. Brenner also won the dry fly accuracy at unknown distances, with a score of 99.3.

SPOKANE PIES ALSO RISE.

Spokane, Aug. 10.—Notice of an advance of five cents on pies and five cents per dozen on sweet pastries has been announced by the bakers. Advance of one cent a loaf on bread goes into effect Monday.

LEONVAVALLO, COMPOSER DIES

Rome, Aug. 10.—Ruggero Leoncavallo the composer, is dead. Leoncavallo was born in Naples in 1858. He first visited the United States in 1896.

We would also like to know what a man is going to do with a stomach ache now that he can't prescribe whiskey for himself like he used to.

INCORPORATION OF BROWNING APPEARS TO BE CERTAINTY

Petition Accepted by County Commissioners and Census Is Being Taken.

Special to The Daily Tribune. Browning, Aug. 10.—A delegation of business men from Browning went to Cut Bank Wednesday, where they presented to the county commissioners a petition for the incorporation of the town of Browning. It was accepted and ordered filed and the board appointed Robert J. Hamilton census taker with the census of the town completed by Tuesday, August 12, when a special meeting of the board would be held and steps taken to incorporate the town.

Auction Splitted.

August 4, 1919 will long live in the memories of the residents of this place for on that date the town of Browning was actually thrown open for settlement. The authorities in Washington had detailed Judge John McPhaul and a Mr. Fisher to come to Browning and sell at public auction all the town lots in the townsite which had not been proven up on under the preference right privilege by July 30. Messrs. McPhaul and Fisher of Washington, D. C., Miss Mabel Morrison and Receiver of Public Moneys Thomas of the Kalspell land office engaged the Alvaraz theater for auctioning off the lots.

The big sale started Monday at 10 a. m., the theater being crowded with people, all of whom were eager to buy some certain lot or lots, there being only one or two outside bidders. The sale of the lots went along at a rapid pace so that by Tuesday evening all had been auctioned off with the exception of 147, most of which were undesirable. The residents of this town have bought approximately 500 lots, of which probably 225 have been paid for in full while the remainder have been purchased under the installment plan of 25 per cent down and the balance in one or two years. The residents have actually spent about \$35,000, \$27,000 representing payments in full. Judge McPhaul acted as auctioneer.

Was Busy Place.

The past week has been a busy one. On July 30 all residents of the town who actually owned improvements on lots situated within the limits of the Browning townsite began making their final proofs on preference rights to be made and for three days his place was the busiest in Glacier county. Anticipating a rush, Mr. Hamilton had engaged Miss Mabel Morrison of the Kalspell land office to assist him, but he soon had to call in every available typist in the town, this force working each evening until close to midnight.

SHOES!

Strong & Garfield, none better, calf and kid \$10.50
Kargaroo and brown... \$11.00
Same grade as you pay \$12 to \$16 for. Better shoes for less money.

WANTS \$25,000 FROM NEIGHBOR ON CHARGE OF ALIENATING WIFE

Lewistown Man Says Defendant Wooed Spouse in Return for Comforting Him.

Special to The Daily Tribune. Lewistown, Aug. 10.—A. L. Ridste has brot an action against Charles E. Fenner, prominent farmer of the Alton section on the west side of the county, to recover \$25,000 damages for the alleged alienation of the affections of Mrs. Ridste.

It is alleged in the complaint that last spring the defendant's wife died and thereafter the plaintiff and his wife visited him, tried to comfort him and assist him. Not long after this, the plaintiff sets out, the defendant began to acquire an improper influence over Mrs. Ridste with the result that in June he induced her to leave her home, taking four children with her, and that she has since lived with the defendant.

K. of C. Supplies Aid Needy Polish Troops; War Work Waning

New York, Aug. 10.—At the urgent request of Ignace Paderevski, Polish premier, ten carloads of supplies and 15 secretaries were recently sent to Poland by the Knights of Columbus for the relief of more than 25,000 Polish-American troops who were in dire need of aid. Only 500 secretaries now remain overseas, with a large number of these engaged in work among American soldiers in London.

Rapid Transit Strike in New York Called Off by Agreement

New York, Aug. 10.—The strike which for four days has paralyzed the surface, subway and elevated lines of the Brooklyn Rapid Transit company was called off tonight after an agreement held between representatives of the strikers and Lindley M. Garrison, receiver for the road.

INDIAN CHILDREN BORN SINCE 1912 GIVEN 320 ACRES

Alloting Agents at Blackfeet Reservation Ready to Distribute Land.

Special to The Daily Tribune. Browning, Aug. 10.—Attorney Louis L. Irvin of Glacier park has returned from Washington where he has been for the past few months engaged in handling Indian legislation before congress. Mr. Irvin reports that Chas. E. Kolin, former allotting agent here, and himself had been designated allotting agents for this reservation and would soon begin alloting the lands of the Blackfeet reservation to all unallotted Indians, meaning children born since 1912. Each child will receive 320 acres of land, after which all the surplus land of the reservation will be divided pro rata among all living allottees. This in itself means that each Indian resident or allottee, regardless of age, will receive in addition to his 320 acres, an extra allotment of land estimated at from 120 to 140 acres each, 80 acres of which shall be designated as a homestead and inalienable until such time as congress shall direct.

HOME DESTROYED BY FIRE.

Bowdoin, Aug. 10.—S. Swanson and family, living four miles from Bowdoin, met with the misfortune of having their home burned to the ground Thursday evening. Everything was burned with exception of the clothes they wore. Mr. Swanson is an old settler in this part of Phillips county.

WOOD ALCOHOL FETE NOW FATAL TO FIVE; CORONER CALLS HALT

Hannah, N. D., Aug. 10.—Joe Morrow, one of the participants in the wood alcohol drinking bout staged here last Sunday night, died Thursday as the fifth victim of the tragedy.

LEAGUE OF NATIONS CONDEMNED BY POLL OF ARMY ENGINEERS

Special to The Daily Tribune. Washington, Aug. 10.—Senator Poin-dexter gave out today the result of a poll on league of nations taken by Capt. O. E. McCabe of Chinook, Montana of the 68th regiment of engineers, showing 193 for and 809 opposed to the league. 124 officers were polled and one for the league.
